## **Somewhere Over the Rainbow (Live From Manchester)**

**by Ariana Grande**

somewhere over the rainbow way up high there's a land that i've heard of once in a lullaby somewhere  
over the rainbow skies are blue and the dreams that you dare to dream really do come true refrain  
someday i'll wish upon a star and wake up where the clouds are far behind me oh where troubles melt  
like lemon drops way above the chimney tops that's where you'll find me refrain oh somewhere over the  
rainbow bluebirds fly birds fly over the rainbow why then oh why can't i refrain someday i'll wish upon a  
star and wake up where the clouds are far behind me oh where troubles melt like lemon drops way  
above the chimney tops that's where you'll find me refrain somewhere over the rainbow bluebirds fly  
hmm birds fly over the rainbow why then oh why can't i if happy little bluebirds fly beyond the rainbow  
why oh why can't i

**by Ariana Grande**

when i meet the wizard once i prove my worth and when i meet the wizard what i've waited for since since birth and with all his wizard wisdom by my looks he won't be blinded do you think the wizard is dumb or like munchkins so smallminded no he'll say to me i see who you truly are a girl on whom i can rely and that's how we'll begin the wizard and i once i'm with the wizard my whole life will change cause once you're with the wizard no one thinks you're strange no father is not proud of you no sister acts ashamed and all of oz has to love you when by the wizard you're acclaimed and this gift or this curse i have inside maybe at last i'll know why when we are hand in hand the wizard and i one day he'll say to me elphaba a girl who is so superior shouldn't a girl who's so good inside have a matching exterior and since folks here to an absurd degree seem fixated on your verdigris would it be alright by you if i degreenify you and though of course that's not important to me all right why not i'll reply oh what a pair we'll be the wizard and i yes what a pair we'll be the wizard and unlimited my future is unlimited and i've just had a vision almost like a prophecy i know it sounds truly crazy and true the vision's hazy but i

swear someday there'll be a celebration throughout oz that's all to do with me and i'll stand there with the wizard feeling things i've never felt and though i'd never show it i'd be so happy i could melt and so it will be for the rest of my life and i'll want nothing else 'til i die held in such high esteem when people see me they will scream for half of oz's favorite team oh the wizard and i

mine jamie is probably feeling just fine and i'm still hurting what about lies jamie what about things that you swore to be true what about you jamie what about you jamie is sure something wonderful died jamie decides it's his right to decide jamie's got secrets he doesn't confide and i'm still hurting 4 go and hide run away run away run and find something better go and ride the sun away run away like it's simple like it's right violin piano give me a day jamie bring back the lies hang them back on the wall maybe i'd see how you could be so certain that we had no chance at all jamie is over and where can i turn covered with scars i did nothing to earn maybe there's somewhere a lesson to learn but that wouldn't change the fact that wouldn't speed the time once the foundation's cracked and i'm still hurting

## **Love The Way You Lie**

**by Ariana Grande**

on the first page of our story the future seemed so bright then this thing turned out so evil don't know why i'm still surprised even angels have their wicked schemes and you take that to new extremes but you'll always be my hero even though you've lost your mind just gonna stand there and watch me burn but that's all right because i like the way it hurts just gonna stand there and hear me cry but that's all right because i love the way you lie i love the way you lie oh i love the way you lie ohh yeah now there's gravel in our voices glass is shattered from the fight in this tug of war you'll always win even when i'm right cause you feed me fables from your hands with violent words and empty threats and it's sick that all these battles are what keeps me satisfied just gonna stand there and watch me burn but that's all

right because i like the way it hurts just gonna stand there and hear me cry but that's all right because i love the way you lie i love the way you lie oh i love the way you lie so maybe i'm a masochist i try to run but i don't wanna ever leave till these walls are going up in smoke with all our memories just gonna stand there and watch me burn but that's all right because i like the way it hurts just gonna stand there and hear me cry but that's all right because i love the way you lie i love the way you lie oh i love the way you lie

## **Suitcase**

**by Ariana Grande**

i was there in the rain crying again you said that you changed but you're just the same now don't make  
it worse by trying to lie i saw you kiss her with my own eyes don't worry i'm not angry i'm way past that  
already these are the last tears you'll see so don't you don't you worry about me i know what to do boy  
to get over you i'm gonna send you away but i'm not ready so just get out of my face stop standing in  
my way i'm going out to say what i'm ready i'm gonna get out my suitcase and get out of this place and  
i'm going somewhere and get you out of my hair i'm gonna have fun baby be so gone and when i get  
back you know you better be gone boy you know you better be gone you better be gone boy don't look  
so confused remember the truth now when i met you you had nothing at all i guess with true love what  
mine is your's and maybe it was but it's not anymore don't worry i'm not angry i'm way past that already  
these are the last tears you'll see so don't you don't you worry about me i know what to do boy to get  
over you i'm gonna send you away but i'm not ready so just get out of my face stop standing in my way  
i'm going out to say what i'm ready i'm gonna get out my suitcase and get out of this place and i'm going  
somewhere and get you out of my hair i'm gonna have fun baby be so gone and when i get back you  
know you better be gone you better be gone so we believed the one that loved would have to hurt and  
lie so we don't make the same mistakes the problem isn't mine i know what to do boy to get over you  
i'm gonna send you away but i'm not ready so just get out of my face stop standing in my way i'm going  
out to say what i'm ready i'm gonna get out my suitcase and get out of this place and i'm going  
somewhere and get you out of my hair i'm gonna have fun baby be so gone and when i get back you  
know you better be gone you better be gone you better be gone you better be gone

cause i cant do this on my own cause it aint right no it aint right and i was never good enough and it aint  
right no it aint right and all i ever did was love and it aint right no it aint right and i was never good  
enough and it aint right no it aint right i know i did it all for love started strong without a care and as time  
went on you left me bare oh oh blinded by your faulty truth it didnt take me long to see through you oh  
oh its like youre only here to help yourself or only keep me sweet to build your wealth unfortunate for  
you my eyes see clear and then the second it goes wrong and darling youll be packed up and be gone  
is it time i just let go cause i cant do this on my own cause it aint right no it aint right and i was never  
good enough and it aint right no it aint right and all i ever did was love and it aint right no it aint right and  
i was never good enough and it aint right no it aint right i know i did it all for love i took off too fast i

jumped overboard i would have finished last so i im shoving you down theres nothing i need when youre around is it time i just let go cause i cant do this on my own cause it aint right no it aint right and i was never good enough and it aint right no it aint right and all i ever did was love and it aint right no it aint right and i was never good enough and it aint right no it aint right i know i did it all for love

## **Feminism (Quotes)**

**by Ariana Grande**

when will people stop being offended by women showing skin expressing sexuality men take their shirts off express their sexuality onstage in videos on instagram anywhere they want to all the time the double standard is so boring and exhausting with all due respect i think it's time you get your head out of your ass sic women can love their bodies too responding to a commenter who said she was like a whore in her dangerous woman video on facebook the incredible double standard that we women face on a daily basis in the industry and just in the world it's shocking i would be so amused and pardon me if this comes across as sexist but i don't think a male artist would be in this position right now sorry if i'm speaking about something that i'm passionate about i'm willing to take the brunt for fighting in what i

believe in and my fellow women are definitely something that i will always be one of the first to speak up about is this what you think girls have trouble choosing between is this men assuming that that's what girls would have to choose between you need a little brushing up on equality over here i have a long list of things i'd like to change i think judgement in general intolerance meanness double standards misogyny racism sexism you know all that shit there's lots we've got to get started on that's what we need to focus on we've got work to do responding to the question if you could use makeup or your phone one last time what would you pick on california's power 06 fm i'm tired of needing to be linked to a guy i'm not big sean's ex i'm not niall's new possible girl i'm ariana grande to the sun what i meant when i said what i said about not being sean's ex is that i am tired of living in world where women are mostly referred to as a man's past present or future property possession i do not belong to anyone but myself and neither do you i can't wait to live in a world where people are not valued by who they're dating married attached to having sex with or not seen with but by their value as an individual people are so ignorant sometimes stop trying to make people feel badly about their bodies it's okay to be different to be curvy or to be thin when did it become socially acceptable to comment on what you think is 'wrong' with other people's bodies we were having fun dancing on stage 'what's she shaking tho' i'm shaking my pretty cute petite ass next to nicki's pretty big booty both are fmg awesome how about we respect people's body boundaries and encourage each other to feel like a babe no matter how they are that would be nice so tired of watching everyone try to tear each other down on instagram gloria steinem published an article in 1969 titled 'after black power women's liberation' and 46 years later we're still not quite there yet if a woman has lots of sex or any sex for that matter she's a 'slut' if a man has sex he's a stud a bosssssss a king if a woman even talks about sex openly she is shamed but if a man talks or raps freely about all the women or more commonly used 'bitches'hoes' how lovely he's had he is regaled if a woman is seen with a friend with a penis there is immediate assumption of romance or sex and she is labeled if a man is seen with a woman his status is elevatedcelebrated on twitter

## Focus (Meaning)

**by Ariana Grande**

the first line of 'focus' is 'i know what i came to do and that ain't gonna change' what i came here to do in this world is not only to entertain but to love to share to listen to improve to learn to share music to share experience to share feelings to make people feel happy and empowered she explained to make people feel like they're not alone without using my voice to do those things i would feel empty she continued when i say 'focus on me' i'm not asking to be the center of attention i'm not asking you to focus on my face or my clothes or my body or my singing voice by 'focus on me' i literally mean focus on me focus on what i'm all about and what i believe in the more we focus on each other as people and not on what we look like what we're wearing our gender our hairstyle our sexuality the color of our skin but focus on each other on a soul level the more we realize how much we have in common the more we listen to each other the more one we become the title of ari's track might seem like an effort to get people to focus on the right things about her too since she's had such a tumultuous year ahem remember the donut incident but she insists this is about all of us you judge because you don't focus on me you don't focus on each other she explained you judge because you focus on appearance on clothes you focus on what you want from me what you want from people how you want them to wear their hair you judge me you wanna see me dressed a certain way how you wanna see their makeup their eyebrows you focus on what you think people should be like for you but when you stop and you actually focus on someone you'll see the light in them when you focus on me you see the light in me when we focus on each other we see the light in each other and even if you don't this is who we are what are we making fun of what's there to make fun of we should apologize for that

# Open Letter to Fans

by Ariana Grande

so the news is out about sam cat i felt it wasnt my place to make any sort of announcement so i kept quiet until now i want to thank nickelodeon for making a childhood dream of mine come true for being a family to me for being so accommodating and supportive of my multitasking with my music career and for of course ducing me to many of my fans however many years ago i want to thank dan schneider for allowing me to play such a special beautiful character who i hid behind for so long what i mean by that is when i was younger people loved cat so much i used to pretend to be more like her it took me a long time to be brave enough to separate myself and show people how different we actually are i think thats honestly because i admire her so much her appreciation for life and everybody she encounters her passion and genuine excitement for the little things that most people dread like school projects and work she always saw negative obstacles as opportunities to make things good i will always hold cat near and dear to my heart and appreciate her help in my personal growth from teenager to adult i know she seems like a simple daft character and she is but she played such a huge part in my life i just wanted to express my appreciation for her and share some of the things i love most about her i think a lot of people could take a page out of her book she wouldnt judge anybody by their appearance she believed the best in people she wasnt afraid of anything or anybody she never let peoples judgements hold her back from doing what she wanted acting how she wanted dressing how she wanted wanted dying her hair however she wanted she never held back her enthusiasm or joy for fear of appearing some sort of way or for fear of jinxing the good that is real which is something i personally do all the time but i wish i could shake that and celebrate every little thing like she does one of my favorite things about cat was that she never lost her sense of wonder as we grow up we become more and more jaded and fearful of how we come across we hold back a little more protect ourselves a little more and although cat goes through the same ridicule as anybody else does growing up she never changed or lost her childlike wonder to me thats the bravest most special thing about her she actually reminds me a lot of frankie in that way so i know a lot of people will think this is a lot for some dumb kids show character but to me she is actually a lot smarter stronger and braver than all the rest of us hopefully well find out one day if cat robbie ever got married if i had any say in the story from here on out id make sure they were happily married with sweet eccentric jewish artificially red headed babies cat would constantly find herself reminding aunt sam to leave the butter sock and other dangerous weapons out of the house theyd live down the street from jade and beck also happily married with purple and black haired pale grungy beautiful goth babies thank you to the cast and crew who i spent almost every day with for a good 4 or 5 years thanks for lighting us beautifully shooting us beautifully making the most incredible props yelling at us when we were running late to set keeping us on track and most of all for making it such a positive work environment the guys behind the scenes couldnt have been more pleasant or hard working and i appreciate them for that so much i cant imagine that there is a more pleasant or professional crew in hollywood thank you from the bottom of my heart to a true friend of mine dan schneider i will never take these memories or lessons learned for granted lastly thank you to my fans who have been with me since all of this started you are the most loyal dedicated and continuously loving supporters i could ever imagine weve been through so much and you are still here and weve got a long way to go thank you for believing in me accepting me and loving me i love you forever

i could write a song with my new piano i could sing about how love is a fucking battle not hard it's not hard it's not hard it's not hard it's not hard it's not hard it's not hard and i could sing about cupid and his shooting arrow in the end you'll find out that my heart was mastered by love by love it's so hard so hard real hard real hard it's that hard it's that hard but i'd rather kiss another man who plays the trombone that makes you wanna dance don't it make you wanna dance but i'd rather make a song they can play on the radio that makes you wanna grab your lover's hand so hold up and take it through the night and you should follow through to make it alright now grab each others' hands get 'em up i wanna see you rock to the piano the piano i could write a song by my new piano i could sing about how love is a fucking battle not hard it's not hard it's not hard it's not hard it's not hard it's not hard it's not hard it's not hard it's not hard and i could sing about cupid and his shooting arrow in the end you'll find out that my heart was battered real hard it's not hard so hard so hard real hard it's not hard it's not hard it's not hard but i'd rather kiss another man who plays the trombone that makes you wanna dance don't it make you wanna dance but i'd rather make a song they can play on the radio that makes you wanna grab your lover's hand so hold up and take it through the night and you should follow through to make it alright now grab each others' hands get 'em up i wanna see you rock to the piano the piano so hold up and take it through the night and you should follow through to make it alright now grab each others' hands get 'em up i wanna see you rock to the piano the piano i'd rather tell you about how i'm feeling boy and how i'm doing shit my way if i got my piano then i know i'd be okay baby so hold up and take it through the night and you should follow through to make it alright now grab each others' hands get 'em up i wanna see you rock to the piano the piano so hold up and take it through the night and you should follow through to make it alright now grab each others' hands get 'em up i wanna see you rock to the piano the piano so hold up and take it through the night and you should follow through to make it alright now grab each others' hands get 'em up i wanna see you rock to the piano the piano i could write a song by my new piano i could sing about how love is a losing battle it's not hard it's not hard it's not hard it's not hard it's not hard it's not hard it's not hard

## **Open Letter Critiquing Sexism**

**by Ariana Grande**

being empowered is not the same as being a bitch having something to say is not the same as having a bad attitude what i meant when i said what i said about not being sean's ex is that i am tired of living in a world where women are mostly referred to as a man's past present or future property possession i do not belong to anyone but myself and neither do you i have clearly not been having the boy questions in my interviews lately because i have come to the realization that i have so much more to talk about i'm currently making the best music i've ever made in my life having the best time of my life on tour with some of the greatest people i've ever known working my ass off every single day performing creating for my babes and getting the chance to meet and hug my babes all over the world every day i come from a long bloodline of female activists my aunt judy was the first italian american female president of the national press club in washington dc i think she would have been proud of me for speaking up about something that has been bothering me personally for so long gloria steinem published an article in 1969 titled after black power women's liberation and 46 years later we're still not quite there yet if a woman has a lot of sex or any sex for that matter she's a slut if a man has sex he's a stud a boss a king if a woman even talks about sex openly she is shamed but if a man talks or raps freely about all the women or more commonly used bitcheshoes how lovely he's had he is regaled if a woman is seen with a friend with a penis there is an immediate assumption of romance or sex and she is labeled if a man is seen with a woman his status is elevated celebrated aww shiiit he smashed i know y'all already know this but the double standard and misogyny are still ever present i can't wait to live in a world where people are not valued by who they're dating married to attached to having sex with or not seen with but by their value as an individual i want the people reading this to know that they are more than enough on their own i want the media to please help me with this please support each other i'm saying this after literally 8 years of feeling like i constantly had to have a boy by my side after being on my own now for a few months i am realizing that that's just not the case i have never felt more present grounded and satisfied i've never laughed harder or had more fun or enjoyed my life more one more thought my honeymoon diaries are my way of sharing absolutely as much as i can with my fans that is something i have done since day one and never plan on changing it is a safe environment for me to be myself and share funny special personal things with my fans and to laugh about silly things i've done things i'm going through i don't plan on monitoring or changing that because there are more eyes on me now than there were before i love y'all with all my heart you've accepted and celebrated me not only as an artist but as a person since day one and nothing will change that or change me any woman who chooses to behave like a full human being should be warned that the armies of the status quo will treat her as something of a dirty joke she will need her sisterhood gloria steinem

## **Vienna (cover song)**

**by Ariana Grande**

slow down you crazy child you're so ambitious for a juvenile but then if you're so smart then tell me why are you still so afraid where's the fire what's the hurry about you'd better cool it off before you burn it out

you've got so much to do and only so many hours in a day but you know that when the truth is told that you can get what you want or you get old you're gonna kick off before you even get halfway through when will you realize vienna waits for you slow down you're doing fine you can't be everything you want to be before your time although it's so romantic on the borderline tonight tonight too bad but it's the life you lead you're so ahead of yourself that you forgot what you need though you can see when you're wrong you know you can't always see when you're right you're right you've got your passion you've got your pride but don't you know that only fools are satisfied dream on but don't imagine they'll all come true when will you realize vienna waits for you slow down you crazy child and take the phone off the hook and disappear for awhile it's all right you can afford to lose a day or two when will you realize vienna waits for you and you know that when the truth is told that you can get what you want or you can just get old you're gonna kick off before you even get half through why don't you realize vienna waits for you when will you realize vienna waits for you

oh takut belajar untuk bersyukur untuk diriku sendiri oh oh oh kamu menyukai bibirku karena bibir ini mengatakan hal-hal yang selalu kita takut aku bisa merasakannya mulai mereda belajar untuk percaya pada apa yang menjadi milikku paduan suara aku ingin mencintaiku ooh seperti kamu mencintaiku ooh ooh untuk semua kecantikanku dan semua keburukanku juga aku ingin melihat diriku dari sudut pandangmu aku ingin mempercayai diriku percayalah seperti kamu mempercayai percayalah ooh karena tidak ada yang pernah mencintaiku sepertimu aku ingin melihat diriku dari sudut pandangmu aku tidak bisa percaya atau melihatnya sendiri ketahuilah bahwa aku tidak sabar tapi sekarang aku di sini jatuh jatuh membeku perlahan mencair membuatku benar aku tidak akan membuatmu menunggu menunggu semua bebanku memudar dengan aman bebanku memudar dan jika matakmu menipu diriku tidak akan membiarkannya menyimpang terlalu jauh paduan suara aku ingin mencintai diriku ooh seperti kamu mencintaiku ooh ooh untuk semua kecantikanku dan semua keburukanku juga aku ingin melihat diriku dari sudut pandangmu aku ingin mempercayai diriku ooh percayalah seperti kamu mempercayai sayang percayalah karena tidak ada yang pernah mencintaiku sepertimu aku ingin melihat diriku dari sudut pandangmu oh yeah

## If I Were a Boy

### by Beyoncé

if i were a boy even just for a day i'd roll out of bed in the morning and throw on what i wanted then go  
drink beer with the guys and chase after girls i'd kick it with who i wanted and i'd never get confronted  
for it 'cause they'd stick up for me if i were a boy i think i could understand how it feels to love a girl i  
swear i'd be a better man i'd listen to her 'cause i know how it hurts when you lose the one you wanted  
'cause he's taken you for granted and everything you had got destroyed if i were a boy i would turn off  
my phone tell everyone it's broken so they'd think that i was sleepin' alone i'd put myself first and make  
the rules as i go 'cause i'd know that she'd be faithful waitin' for me to come home to come home if i  
were a boy i think i could understand how it feels to love a girl i swear i'd be a better man i'd listen to her  
'cause i know how it hurts when you lose the one you wanted wanted 'cause he's taken you for granted  
granted and everything you had got destroyed it's a little too late for you to come back say it's just a  
mistake think i'd forgive you like that if you thought i would wait for you you thought wrong but you're  
just a boy you don't understand yeah you don't understand oh how it feels to love a girl someday you'll  
wish you were a better man you don't listen to her you don't care how it hurts until you lose the one you  
wanted 'cause you've taken her for granted and everything you have got destroyed but you're just a boy

## **Pray You Catch Me**

**by Beyoncé**

you can taste the dishonesty it's all over your breath as you pass it off so cavalier but even that's a test  
constantly aware of it all my lonely ear pressed against the walls of your world pray to catch you  
whispering i pray you catch me listening i'm prayin' to catch you whispering i pray you catch me i'm  
prayin' to catch you whispering i pray you catch me listening i pray you catch me nothing else ever  
seems to hurt like the smile on your face when it's only in my memory it don't hit me quite the same  
maybe it's a cause for concern but i'm not at ease keeping my head to the curb pray to catch you  
whispering i pray you catch me listening i pray to catch you whispering whisper whisper i pray you catch  
me whisper whisper i pray you catch me i pray you catch me pray you i'm praying you catch me what  
are you doing my love

## **Denial (Poem)**

**by Beyoncé**

i tried to change closed my mouth more tried to be soft prettier less awake fasted for 60 days wore white abstained from mirrors abstained from sex slowly did not speak another word and that time my hair i grew past my ankles i slept on a mat on the floor i swallowed a sword i levitated into the basement confessed my sins and was baptized in a river got on my knees and said amen and said i mean i whipped my own back and asked for dominion at your feet i threw myself into a volcano i drank the blood and drank the wine i sat alone in begged and bent at the waist for god i crossed myself in thought i saw the devil i grew thickened skin on my feet i bathed in bleach and plugged my menses with the pages from the holy book but still inside me coiled deep was the need to know are you cheating are you cheating on me

## **I Care**

**by Beyoncé**

i told you how you hurt me baby but you don't care now i'm crying and deserted baby but you don't care  
ain't nobody tell me this is love when you're immune to all my pain i need you to tell me this is love you  
don't care well that's okay well i care i know you don't care too much but i still care baby oh i care i know  
you don't care too much but i still care baby ever since you knew your power you made me cry and now  
everytime our love goes sour you won't sympathize you see these tears falling down to my ears i swear  
you like when i'm in pain yeah i try to tell you all my fears you still don't care that's okay well i care i  
know you don't care too much but i still care baby oh i care i know you don't care too much but i still  
care baby boy maybe if you cared enough i wouldn't have to care so much what happened to our trust  
now you're just given up you used to be so in love now you don't care no more interlude oooh oooh

## **Poison**

**by Beyoncé**

you're bad for me i clearly get it i don't see how something good could come from loving you the death of me must be your mission 'cause with every hug and kiss you're snatching every bit of strength that i'm gon' need to fight off the inevitable and it's a heartbreakin' situation i'm up in but i can't control you're just like poison slowly moving through my system breaking all of my defenses with time you're just like poison and i just don't get it how can something so deadly feel so right i'm not sure of what to do it's a catch 'cause the cure is found in you i don't want it but i do you're just like poison my affliction i'm addicted i can't lie kiss me one more time before i die you ain't right take me high then that high it subsides and my body flatlines then you come to revive wait wait wait i'm alive but how long will it last will it all come crashing down how many doses am i needing now what's the prognosis will you be around or am i just another victim of an assassin that broke my heart down baby you're just like poison slowly moving through my system breaking all of my defenses with time you're just like poison and i just don't get it how can something so deadly feel so right i'm not sure of what to do it's a catch 'cause the cure is found in you i don't want it but i do you're just like poison my affliction i'm addicted i can't lie kiss me one more time before i die it's just not my body no it's my mind you don't know how many times i told myself this can't do and that i don't need you no i don't need you no it's so unfair that i find myself right back in your care and what's good is that when you're not always there there there you're no good for my health my health you're just like poison whoa whoa whoa you're just like poison whoa whoa whoa you're just like poison slowly moving through my system breaking all of my defenses with time you're just like poison and i just don't get it how can something so deadly feel so right i'm not sure of what to do it's a catch 'cause the cure is found in you i don't want it but i do you're just like poison my affliction i'm addicted i can't lie baby kiss me one more time you're just like poison slowly moving through my system breaking all of my defenses with time you're just like poison and i just don't get it how can something so deadly feel so right i'm not sure of what to do it's a catch 'cause the cure is found in you i don't want it do

you're just like poison i'm addicted i can't lie kiss me one more time before i die

## **Disappear**

**by Beyoncé**

if i begged and if i cried would it change the sky tonight would it give me some light should i wait for you  
to call is there any hope at all are you drifting by when i think about it i know that i was never there or  
even cared the more i think about it the less that i was able to share with you i try to reach for you i can  
almost feel you you're nearly here and then you disappear disappear disappear disappear you  
disappear disappear disappear disappear and when i lie all by myself i see your face i hear your voice  
my heart stays faithful and time has come and time has passed if it's good it's got to last it feels so right  
when i think about it i know that i was never there or even cared the more i think about it the less that i  
was able to share with you i try to reach for you i can almost feel you you're nearly here and then you  
disappear disappear disappear disappear you disappear disappear disappear disappear you you  
disappear disappear disappear disappear i missed all the signs one at a time you were ready what did i  
know starting our lives now my love i'm ready to show when i think about it i know that i was never there  
or even cared the more i think about it the less that i was able to share with you i try to reach for you i  
can almost feel you you're nearly here and then you disappear you disappear you disappear you

# Yours And Mine

by Beyoncé

narration beyoncé i sometimes wish i could just be anonymous and walk down the street just like everyone else before i was famous i was the girl on the heel with the i was the girl who just wanted a beautiful view of the beach and now that i'm famous it's really really difficult to do very simple things i think it's the hardest thing to give up but my mother always taught me to be strong and to never be a victim never make excuses never expect anyone else to provide for me things i know i can provide for myself i have dreams and i feel like i have a power to actually make those dreams a reality when you're famous no one looks at you as a human anymore you become the property of the public there's nothing real about it just look at these dazzling women the finest representatives of our nation ready to reach for the stars and grab the crown you can't put your finger on who i am i can't put my finger on who i am i am complicated i grew up with a lot of conflict and drama's and i've been through a lot just like everyone else my escape was always music and i'm so lucky that that's my job but if i accomplished all of these things and had no one to share with it would be worth nothing you know you need something real in order for any of this stuff to matter you have to have something that is forever something that's invisible i was brought up seeing my mother try to please and make everyone comfortable and i always felt like it was my job to fix the problem people pleaser but i'm no longer afraid of conflict and i don't think conflict is a bad thing because i know that when you grow up when you learn a few things you're no longer afraid of letting go you're no longer afraid of the unknown you're no longer afraid of going to certain places in your body and your mind and your soul that may make you feel uncomfortable and it all starts with if you could look at yourself in the mirror and say i like that person you know if i hadn't gone through you know some of the painful experiences in my life i would not be me and i feel like my body is borrowed and this life is very temporary i watched my friends body deteriorate and to see some one pass on so gracefully put everything into perspective we do not value ourselves enough especially young people don't really appreciate how brilliant our bodies are i've always been very very specific and very choosy very choosy about what i do with my body and who i want to share that with people feel like they lose something when they get married but it doesn't have to be that way there's nothing more exciting than having a witness to your life i always considered myself a feminist although i was always afraid of that word because people put so much on it when honestly it's very simple it's just when you know a person that believes in equality for men and women men and women balance each other out and we have to get to a point where we are comfortable with appreciating each other i have a lot of empathy for men and the pressures that they go through and the cultures that have been created especially for africanamerican men i have the same empathy for women and the pressures we go through the woman has to provide so many things for their children i consider myself a humanist you know everybody's not good at everything you know it's ok to depend on someone it's actually what we're supposed to do we're supposed to depend on each other and when you find the person that you trust and you love and you feel is going to respect you and take all of the shit you have and turn it around and bring out the best in you and feed you it is the most powerful thing you can feel in your life happiness comes from you no one else can make you happy you make you happy and one thing that's for sure the love i have for music for my husband for my child is something that will last far beyond my life

## **Si Yo Fuera un Chico**

**by Beyoncé**

letra de si yo fuera un chico verso si yo fuera un chico sólo por una vez yo me vestiría como quiero con  
lo que vea primero y me voy saldría a buscar chicas por montón mis amigos que son leales siempre  
van a acompañarme hasta el fin cada noche a mentir coro si yo fuera un chico sé que podría saber  
comprender mucho mejor lo que es amar a una mujer sabría escuchar pues conozco el dolor de perder  
a quien se quiere porque ignoras lo que tienes y quedas sin saber que pasó verso si yo fuera un chico  
pero ves no lo soy los chicos son de un molde y nosotras somos de corazón se piensan que son los  
del sexo superior pero cuando lo queremos nos vence nuestra seducción coro si yo fuera un chico sé  
que podría saber comprender mucho mejor lo que es amar a una mujer sabría escuchar pues conozco  
el dolor de perder a quien se quiere porque ignoras lo que tienes y quedas sin saber que pasó puente  
es muy tarde ya ves para regresar perdonarte otra vez ya no lo vas a lograr el lugar que ocupabas tú  
ya no está más coro pero eres un chico que le vas a hacer no puedes comprender que se siente al  
comprender mejor y amar en serio a una mujer no sabes escuchar no te importa el dolor hasta que  
pierdes a quien quieres porque ignoras lo que tienes y quedas sin saber que pasó pero eres un chico

## **Honesty**

**by Beyoncé**

if you search for tenderness it isn't hard to find you can have the love you need to live but if you look for truthfulness you might just as well be blind it always seems to be so hard to give honesty is such a lonely word everyone is so untrue honesty is hardly ever heard and mostly what i need from you i can always find someone to say they sympathize if i wear my heart out on my sleeve but i don't want some pretty face to tell me pretty lies all i want is someone to believe honesty is such a lonely word everyone is so untrue honesty is hardly ever heard and mostly what i need from you i can find a lover i can find a friend i can have security until the bitter end anyone can comfort me with promises again i know i know when i'm deep inside of me don't be too concerned i won't ask for nothin' while i'm gone but when i want sincerity tell me where else can i turn because you're the one that i depend upon honesty is such a lonely word everyone is so untrue honesty is hardly ever heard and mostly what i need from you

## **Gender Equality is a Myth!**

### **by Beyoncé**

we need to stop buying into the myth about gender equality it isn't a reality yet today women make up  
half of the us workforce but the average working woman earns only 77 percent of what the average  
working man makes but unless women and men both say this is unacceptable things will not change  
men have to demand that their wives daughters mothers and sisters earn more commensurate with  
their qualifications and not their gender equality will be achieved when men and women are granted  
equal pay and equal respect humanity requires both men and women and we are equally important and  
need one another so why are we viewed as less than equal these old attitudes are drilled into us from

the very beginning we have to teach our boys the rules of equality and respect so that as they grow up gender equality becomes a natural way of life and we have to teach our girls that they can reach as high as humanly possible we have a lot of work to do but we can get there if we work together women are more than 50 percent of the population and more than 50 percent of voters we must demand that we all receive 100 percent of the opportunities

## “Self-Titled” Part 2 . Imperfection

**by Beyoncé**

there's a moment where things click when i was in the studio i was threading the songs together and i thought of this performance which was a really defining moment in my life as a child in my mind we would perform on star search we would win we would get a record deal and that was my dream at the time there's no way in the world i would ever imagine losing as a possibility you know i was only 9 years old so at that time you don't realise that you could actually work super hard and give everything you have and lose it was the best message for me when i put ed macmahon ducing us as the hiphop rapping girls' tyme it clicked something in my mind i feel like something about the aggression of bow down and the attitude of flawless the reality is sometimes you lose and you're never too good to lose you're never too big to lose you're never too smart to lose it happens and it happens when it needs to happen and you have to embrace those things i was scrolling through videos about feminism on youtube and i ran across this video of this incredible nigerian author chimamanda ngozi adichie everything she said is exactly how i feel my message behind this album is finding the beauty in imperfection i had this image of this trophy and me accepting these awards and kind of training myself to be this champion and at the end of the day when you go through all of these things is it worth it i mean you get this trophy and you're like 'i basically starved i have neglected all of the people that i love i've conformed to what everybody else thinks i should be and i have this trophy what does that mean' the trophy represents all of the sacrifices i made as a kid all of the time that i lost being on the road in the studios as a child and i just wanna throw that shit up i have a lot of awards and i have a lot of these things that i'm amazing and i'm i worked my ass off i worked harder then probably everybody i know to get those things but nothing feels like my child saying 'mommy' no nothing feels like when i look at my husband in the eyes nothing feels like when i'm respected when i get on the stage and i see i'm changing people's lives those are the things that matter and at this point in my life that's what i'm striving for growth love happiness fun enjoying your life it's short that's the message

## **Stop Sign**

**by Beyoncé**

i like to feel so high and you feel good feeling low i like my colors vivid and you paint your colors gold i like to see the world and you like your weekends home but i've been staying behind while you refused to go cause you're such a burden but you're the weight up off my shoulders cause even though i'm hurting it still feels like it's time i'm growing when i thought that we'd grow up and grow together the same time guess i passed you by at that old stop sign at that old stop sign you like to sleep all day and i like my minutes i like trips to the movies you watch tv all night long i like to go out dancing and you go out just to hang and i've been right beside you losing me and doing the same cause you're such a burden but you're the weight up off my shoulders cause even though i'm hurting it still feels like it's time i'm growing when i thought that we'd grow up and grow together the same time guess i passed you by at that old stop sign at that old stop sign i looked around and baby you were gone where did i lose you

honey i even slowed down thought you'd follow but you took your own roads honey cause i've been traveling traveling traveling only to find that i'm making this trip alone and i've been staying behind while you refused to go cause you're such a burden but you're the weight up off my shoulders cause even though i'm hurting it still feels like it's time i'm growing when i thought that we'd grow up and grow together the same time guess i passed you by at that old stop sign at that old stop sign

## **2017 Grammy's Best Urban Contemporary Album Speech**

**by Beyoncé**

thank you so much hi baby thank you to the grammy voters for the incredible honor thank you to everyone who worked so hard to beautifully capture the profundity of deep southern culture i thank god for my family my wonderful husband my beautiful daughter my fans for bringing me so much happiness and support we all experience pain and loss and often we become inaudible my intention for the film and album was to create a body of work that would give a voice to our pain our struggles our darkness and our history to confront issues that make us uncomfortable it's important to show images to my children to reflect their beauty so they can grow up in a world where they look in the mirror first at their own families as well as the news the super bowl the olympics the white house and the grammy's and see themselves and have no doubt that they're beautiful intelligent and capable this is something i want for every child of every race and i feel its vital that we learn from the past and recognize our tendencies to repeat our mistakes thank you again for honoring lemonade have a beautiful evening thank you for tonight this is incredible

## **If I Were a Boy (Remix)**

**by Beyoncé**

beyoncé if i were a boy even just for a day i'd roll out of bed in the morning and throw on what i wanted then go drink beer with the guys and chase after girls i'd kick it with who i wanted and i'd never get confronted for it 'cause they'd stick up for me beyoncé if i were a boy i think i could understand how it feels to love a girl i swear i'd be a better man i'd listen to her 'cause i know how it hurts when you lose the one you wanted 'cause he's taken you for granted and everything you had got destroyed r kelly if you were a boy then girl you'd understand you need to stop listenin' to your friends love respect and trust your man so i go to clubs with the guys and sometimes flirt with the girls i should be able to roll out as long as i'm comin' home to you and give you the world pre r kelly but you're not a boy so you don't have a clue babe how i work and pay the bills how everything i do is for you hey hey beyoncé i'd listen to her 'cause i know how it hurts when you lose the one you wanted 'cause he's taken you for granted and everything you had got destroyed beyoncé r kelly if i were a boy if i were a girl i would turn off my phone i wouldn't play games tell everyone it's broken so they'd think that i was sleeping alone girl you know that's wrong i'd put myself first and make the rules as i go 'cause i know that she'd be faithful waiting for me to come home to come home post r kelly but you're not a boy so you can't understand you are not a perfect woman and i am not a perfect man beyoncé r kelly i'd listen to her 'cause i know how it hurts and i know how you feel when you lose the one you wanted 'cause he's taken you for granted and everything you had got destroyed said i'm sorry beyoncé r kelly it's a little too late for you to come back but i can't let you go 'cause i'm too attached if you thought i would wait for you you thought wrong beyoncé but you're just a boy

## **“Self-Titled” Part 1 . The Visual Album**

**by Beyoncé**

i see music it's more than just what i hear when i'm connected to something i immediately see a visual or a series of images that are tied to a feeling or emotion a memory from my childhood thoughts about life my dreams or my fantasies and they're all connected to the music and i think that's one of the reasons why i wanted to do a visual album i wanted people to hear the songs with the story that's in my head cause it's what makes it mine that vision in my brain is what i want people to experience the first time i feel like right now people experience music differently i remember seeing thriller on tv with my family it was an event we all sat around the tv and now looking back i'm so lucky i was born around that time i miss that immersive experience now people only listen to a few seconds of a song on their ipods they don't really invest in a full album it's all about the single and the hype there's so much that gets between the music and the artist and the fans i felt like 'i don't want anybody to give the message when my record is coming out i just want this to come out when it's ready and from me to my fans' i told my team 'i wanna shoot a video for every song and put them all out at the same time' everyone thought i was crazy but we're actually doing it it's happening i wanted to make this body of work and i feel like it's something that's lost in pop music i wanted people to hear things differently and have a different first impression not just listen to a ten second clip but see the whole vision of the album it was important that we made this a movie we made this an experience i wanted everyone to see the whole picture and to see how personal everything is to me i would make my best art and just put it out and that's that's why it's out today

we are sick and tired of the killings of young men and women in our communities it is up to us to take a  
stand and demand that they stop killing us we don't need sympathy we need everyone to respect our  
lives we're going to stand up as a community and fight against anyone who believes that murder or any  
violent action by those who are sworn to protect us should consistently go unpunished these robberies  
of lives make us feel helpless and hopeless but we have to believe that we are fighting for the rights of  
the next generation for the next young men and women who believe in good this is a human fight no  
matter your race gender or sexual orientation this is a fight for anyone who feels marginalized who is  
struggling for freedom and human rights this is not a plea to all police officers but toward any human  
being who fails to value life the war on people of color and all minorities needs to be over fear is not an  
excuse hate will not win we all have the power to channel our anger and frustration into action we must  
use our voices to contact the politicians and legislators in our districts and demand social and judicial  
changes while we pray for the families of alton sterling and philando castile we will also pray for an end  
to this plague of injustice in our communities click in to contact the politicians and legislators in your  
area your voice will be heard beyoncé

## **If I Were a Boy/You Oughta Know (Live)**

**by Beyoncé**

if i were a boy even just for a day i'd roll outta bed in the morning and throw on what i wanted and go drink beer with the guys and chase after girls id kick it with who i wanted and i'd never get confronted for it cause they'd stick up for me if i were a boy i think i could understand how it feels to love a girl i swear id be a better man i'd listen to her cause i know how it hurts when you lose the one you wanted cause he's taken you for granted and everything you had got destroyed if i were a boy i would turn off my phone tell everyone it's broken so they'd think that i was sleepin' alone i'd put myself first and make the rules as i go cause i know that she'd be faithful waitin for me to come home to come home if i were a boy i think i could understand how it feels to love a girl i swear id be a better man i'd listen to her cause i know how it hurts when you lose the one you wanted cause hes taken you for granted and everything you had got destroyed it's a little too late for you to come back say it's just a mistake think i'd forgive you like that if you thought i would wait for you you thought wrong but youre just a boy you don't understand yeah you don't understand how it feels to love a girl someday you wish you were a better man you don't listen to her you don't care how it hurts until you lose the one you wanted cause you've taken her for granted and everything you have got destroyed but you're just a boy i want you to know that i'm happy for you i wish nothing but the best for you both an older version of me is she perverted like me would she go down on you in a theatre does she speak eloquently and would she have your baby i'm sure she'd make a really excellent mother cause the love that you gave that we made wasn't able to make it enough for you to be open wide no and every time you speak her name does she know how you told me you'd hold me until you died 'til you died but you're still alive and i'm here to remind you of the mess you left when you went away it's not fair to deny me of the cross i bear that you gave to me you you you oughta know you seem very well things look peaceful i'm not quite as well i thought you should know did you forget about me mr duplicity i hate to bug you in the middle of dinner it was a slap in the face how quickly i was replaced are you thinking of me when you fuck her cause the love that you gave that we made wasn't able to make it enough for you to be open wide no and every time

you speak her name does she know how you told me you'd hold me until you died 'til you died but you're still alive and i'm here to remind you of the mess you left when you went away it's not fair to deny me of the cross i bear that you gave to me you you you oughta know but you're just a boy yeah you don't understand until you lose the one you wanted cause you've taken her for granted and everything you have got destroyed but you're just a boy

heart you're the only one and though there are times when i hate you 'cause i can't erase the times that  
you hurt me and put tears on my face and even now while i hate you it pains me to say i know i'll be  
there at the end of the day i don't wanna be without you babe i don't want a broken heart don't wanna

deserving me and still you're in my heart but you're the only one and yes there are times when i hate  
you but i don't complain 'cause i've been afraid that you would walk away oh but now i don't hate you

## **Flaws and All (Beyoncé Experience Live)**

**by Beyoncé**

i'm a train wreck in the morning i'm a bitch in the afternoon every now and then without warning i can be really mean towards you i'm a puzzle yes indeed ever complex in every way and all the pieces aren't even in the box and yet you see the picture clear as day hook i don't know why you love me and that's why i love you you catch me when i fall accept me flaws and all and that's why i love you and that's why

i love you and that's why i love you i neglect you when i'm working when i need attention i tend to nag  
i'm a host of imperfection and you see past all that i'm a peasant by some standards but in your eyes  
i'm a queen you see potential in all my flaws and that's exactly what i mean hook i don't know why you  
love me and that's why i love you you catch me when i fall accept me flaws and all and that's why i love  
you and yes that's why i love you and that's why i love you i'm a train wreck in the morning i'm a bitch in  
the afternoon every now and then without warning i can be really mean towards you i don't know why  
you love me and that's why i love you you catch me when i fall accept me flaws and all and that's why i  
love you

**by Beyoncé**

remember those walls i built well baby they're tumbling down and they didn't even put up a fight they  
didn't even make a sound i found a way to let you in but i never really had a doubt standing in the light  
of your halo i've got my angel now it's like i've been awakened every rule i had you breakin' it's the risk  
that i'm takin' i ain't never gonna shut you out everywhere i'm looking now i'm surrounded by your  
embrace baby i can see your halo you know you're my saving grace you're everything i need and more  
it's written all over your face baby i can feel your halo pray it won't fade away i can feel your halo halo  
halo i can see your halo halo halo i can feel your halo halo halo i can see your halo halo halo woah hit  
me like a ray of sun burning through my darkest night you're the only one that i want think i'm addicted  
to your light i swore i'd never fall again but this don't even feel like fallin' gravity can't forget to pull me  
back to the ground again it's like i've been awakened every rule i had you breakin' the risk that i'm takin'  
i'm never gonna shut you out everywhere i'm looking now i'm surrounded by your embrace baby i can  
see you halo you know you're my saving grace you're everything i need and more it's written all over  
your face baby i can feel your halo pray it won't fade away i can feel your halo halo halo i can see your

## **Denial (Hold Up, Beyoncé, Poem)**

**by Beyoncé**

i tried to change closed my mouth more tried to be soft prettier less awake fasted for 60 days wore  
white abstained from mirrors abstained from sex slowly did not speak another word and that time my  
hair i grew past my ankles i slept on a mat on the floor i swallowed a sword i levitated into the basement  
confessed my sins and was baptized in a river got on my knees and said amen and said i mean i  
whipped my own back and asked for dominion at your feet i threw myself into a volcano i drank the  
blood and drank the wine i sat alone in begged and bent at the waist for god i crossed myself in thought  
i saw the devil i grew thickened skin on my feet i bathed in bleach and plugged my menses with the  
pages from the holy book but still inside me coiled deep was the need to know are you cheating are you  
cheating on me

## **WHEN I WAS OLDER**

**by Billie Eilish**

when i was older i was a sailor on an open sea but now i'm underwater and my skin is paler than it should ever be  
hmm verse i'm on my back again dreaming of a time and place where you and i remain the best of friends  
even after all this ends can we pretend i'm on my i'm on my back again it's seeming more and more like all we ever do is see how far it bends before it breaks in half and then we bend it back again  
pre guess i got caught in the middle of it yes i've been taught got a little of it in my blood in my blood memories burn like a forest fire heavy rain turns any funeral pyre to mud in the flood  
when i was older i was a sailor on an open sea but now i'm underwater and my skin is paler than it should ever be i'm watching movies back to back in black and white i never seen anybody do it like i do it any better  
been goin' over you i'm overdue for new endeavors nobody lonely like i'm lonely and i don't know whether you'd really like it in the limelight you'd sympathize with all the bad guys i'm still a victim in my own right but i'm the villain in my own eyes yeah when i was older i was a sailor on an open sea

## **The End of the World**

**by Billie Eilish**

breathe the air again it's a beautiful day i wish this moment would stay with the earth some primal paradise but there you go again saying everything ends saying you can't depend on anything or anyone  
if the end of the world was near where would you choose to be if there was five more minutes of air would you panic and hide or run for your life or stand here and spend it with me if we had five more minutes would i could i make you happy and we would live again in the simplest of ways living day after day like some primal animals we would love again under glorious suns with the freedom that comes with the truth  
if the end of the world was near where would you choose to be if there was five more minutes of air would you panic and hide or run for your life or stand here and spend it with me if we had five more minutes would i could i make you happy so it finally came to pass i saw the end of the world saw the madness unfold like some primal burial and i looked back upon armageddon and the moment of truth between you and me  
if we had five more minutes of air to breathe and we cried all through it but you spent them with me on our last few drags of air we agree i was and you were happy

## **NOT MY RESPONSIBILITY**

**by Billie Eilish**

do you know me really know me you have opinions about my opinions about my music about my clothes about my body some people hate what i wear some people praise it some people use it to shame others some people use it to shame me but i feel you watching always and nothing i do goes unseen so while i feel your stares your disapproval or your sigh of relief if i lived by them i'd never be able to move would you like me to be smaller weaker softer taller would you like me to be quiet do my shoulders provoke you does my chest am i my stomach my hips the body i was born with is it not what you wanted if i wear what is comfortable i am not a woman if i shed the layers i'm a slut though you've never seen my body you still judge it and judge me for it why we make assumptions about people based on their size we decide who they are we decide what they're worth if i wear more if i wear less who will decide what that makes me what that means is my value based only on your perception or is your opinion of me not my responsibility

could roses bloom drop could roses could roses could roses bloom could roses bloom retrace my lips  
erase your touch it's all too much for me blow away like smoke in air how can you die carelessly our  
love is six feet under i can't help but wonder if our grave was watered by the rain our love is six feet  
under i can't help but wonder if our grave was watered by the rain drop would roses bloom could roses

## **ocean eyes (GOLDHOUSE Remix)**

**by Billie Eilish**

i've been watching you for some time can't stop staring at those ocean eyes burning cities and napalm  
skies fifteen flares inside those ocean eyes no fair you really know how to make me cry when you give  
me those ocean eyes i'm scared i've never fallen from quite this high falling into your ocean eyes those  
ocean eyes i've been walking through a world gone blind can't stop thinking of your diamond mind  
careful creature made friends with time you left her lonely with a diamond mind and those ocean eyes  
no fair you really know how to make me cry when you give me those ocean eyes i'm scared i've never  
fallen from quite this high falling into your ocean eyes those ocean eyes no fair you really know how to  
make me cry when you give me those ocean eyes i'm scared i've never fallen from quite this high falling  
into your ocean eyes those ocean eyes

## **Paparazzi Instagram Monologue**

**by Billie Eilish**

so i just wanted to say something real quick which is yesterday i was at kimmel which was amazing and when i left i had to go to a rehearsal so to walk to the car there was an alley that i walked through like 500 feet to my left was a group of fans and then like 500 feet to my right was what i thought was fans and paparazzi i started i went to the left side i walked all the way over to them and hugged them all i took pictures and talked to them for a second didn't sign anything because i like don't do that that's something i don't do because i used to and i realised all anyone did was sell everything that i signed so i stopped doing that it's kind of a policy of mine that i don't so i talked to them hugged them all i went to the other side and as i got closer like they were cheering for me and stuff and shouting for my name and stuff and so i walked and as i got closer i kind of realised that it was pretty much all paparazzi and ebayers which is what we call people that just take my signature and sell it and couldn't give less of a fuck about me at all but i didn't want to like be disrespectful at all so i went up to them all and i like tried to get like hugs and try to touch all of their hands like do that down the line or whatever and i started to do that nobody put their hands out nobody tried to hug me backi hugged one girl at the end and so she was really sweet but then i tried to walk like a couple feet across from where they were not where the first group was but like in the same area that i was in because i thought that's where there were fans

when i looked over there they were gone and i was like ok well i guess nobody here really wants anything from me besides a fucking autograph which i don't do because these bitches will sell that shit like i'll sign something if it's like for a special occasion or if somebody's in need or whatever of course i'm gonna do that but i have this whole thing about not signing things because i just want to be there i'd way rather get a hug and talk to you than take a picture with you and fucking sign something so you can sell that shit i don't do that and i've tried to make that clear like a billion times and i said it before i went over to them anyway i started to walk away because i realised none of these people actually cared about anything that had to do with me as a person um and so i walked away as i started to walk away back to the car they all started to boo me and then they all started calling me a little bitch and saying i'm gonna lose my grammy nominations and you know what a little fucking you know whatever just cursing me out and shit damn dude like then i started hearing them comparing they kept being like lorde would have stopped i'm like i did stop i walked 500 feet i walked like 000 feet to come say hi to you and give some hugs and y'all are booing me and calling me a little bitch like the fact that people can switch up like that clicks fingersdamn like wait outside for you and then immediately they don't get what they want and they boo you and fucking curse at you i'm like bro i'm 7 you're oh my god this shit is exasperated whoo i turned around ready to fucking pounce and then i got told to just ignore it and not give a reaction which is probably good and it's probably stupid dumb of me making these videos but mmanyway the only reason i'm making this video is because i saw a video of this all happening and i just wanted to clarify what actually happened because if you watch the video it literally looks like i'm watching by a bunch of fans and like completely ignoring them and not saying hi to them which is not at all what happened i literally walked from the other side of the alley which was like 000 feet which is fine i'm like happy to do it but i walked over there literally only to say hi only to hug people i literally went over and i was like i don't want pictures i want to hug and i got pictures of me shoved into my fucking face and no love whatsoever so i left and then i got booed and got called a little bitch and got told that i'm gonna lose my grammys i probably am gonna lose the grammys but it's okay though i'm not worried about that it's the nomination that counts anyway i don't know i just wanted to i don't even know i went back to the other side where the real fans were and i was like guys they booed me and they were very sweet you guys are my friends i love you a lot and to the grown men that booed me and called me a little bitch i hope the best for you i hope you can find someone else you can use to make money off of and belittle so yeah all the best love you paparazzi

## Six Feet Under[killer frost remix]

**by Billie Eilish**

help i lost myself again but i remember you don't come back it won't end well but i wish you'd tell me to  
our love is six feet under i can't help but wonder if our grave was watered by the rain would roses bloom  
could roses bloom again retrace my lips erase your touch it's all too much for me blow away like smoke  
in air how can you die carelessly our love is six feet under i can't help but wonder if our grave was  
watered by the rain would roses bloom could roses bloom they're playing our sound laying us down  
tonight and all of these clouds crying us back to life but you're cold as a knife six feet under i can't help  
but wonder if our grave was watered by the rain bloom bloom again help i lost myself again but i  
remember you

## Hostage[killer frost remix]

**by Billie Eilish**

a wall give you a ball and chain it's not like me to be so mean you're all i wanted just let me hold you like a hostage gold on your fingertips fingertips against my cheek gold leaf across your lips kiss me until i can't speak 4 gold chain beneath your shirt the shirt that you let me wear home gold's fake and real love hurts and nothing hurts when i'm alone when you're with me and we're alone and let me crawl inside your veins i'll build a wall give you a ball and chain it's not like me to be so mean you're all i wanted just let me hold you hold you like a hostage

you could say i lived a crazy life for a man so young the kind that made me question my faith now i'm looking back just wondering where the time has gone but i guess it's just the price you pay i've already loved more than i thought i could love someone i've already felt my heart break yeah i've already fell so many times but i got back up but at least i did it all my way i've been through it all yeah i've been through it all yeah you won't see me crying if tomorrow never comes god only knows i've been through it all growing up in this wild city you had to fight or run now you know why i'm not afraid yeah maybe it's my recklessness that got me in trouble but at least i did it all my way i've been through it all yeah i've been through it all yeah you won't see me crying if tomorrow never comes god only knows i've been

through it all ooh oohooh oohooh oohooh yeah i've been through it all ooh oohooh oohooh oohooh  
yeah yeah oh mmhmmh mmhmmh i've been through it all yeah i've been through it all yeah you won't

## **Kiss Me**

**by Charlie Puth**

i should have told you how i really feel a little in advance then i wouldve had some time to go and work  
it out i think ive lost my chance pre for the last three years i just hid it so well hoping that youd figure it  
out because i never could tell it straight to your face never have i ever woken up in a cold hard sweat  
from a dream wondering if youd ever say goodbye if i didnt say it first im done playing these games i  
cant believe what im about to say i wont tell you goodbye with my love left behind kiss me before i  
fucking lose my mind no no more nights drink until my loneliness up till two am no no more waiting  
pacing 'round the bar hoping that you might walk in pre for the last three years i just hid it so well hoping  
that youd figure it out because i never could tell it straight to your face never have i ever woken up in a  
cold hard sweat from a dream wondering if youd ever say goodbye if i didnt say it first im done playing  
these games i cant believe what im about to say no i wont tell you goodbye with my love left behind kiss  
me before i fucking lose my mind ooooh ooh ooh oooooh ooh ooh ooh im done playing these  
games i cant believe what im about to say 'cause i would rather die than feeling this inside tricks played  
on my mind no i would rather die than just tell you goodbye with my love left behind kiss me before i  
fucking lose my mind

## **Some Type of Love**

**by Charlie Puth**

when i'm old and grown i won't sleep alone whoa oh every single moment will be faded into you that's  
some type of love that's some type of love and i won't sing the blues 'cause all i need is you whoa oh  
every single question will be answered all by you that's some type of love that's some type of love when  
the world's on fire we won't even move there is no reason if i'm here with you and when it's said and  
done i'll give me to you that's some type of love that's some type of love when we're old and gray yeah  
and our faces changed whoa oh there won't be a moment when my heart don't feel the same that's  
some type of love that's some type of love listen and every story ends but we could still pretend yeah  
yeah every single moment will be just as we had planned it was some type of love that's some type of  
love when the world's on fire we won't even move there is no reason if i'm here with you and when it's  
said and done i'll give me to you that's some type of love that's some type of love i'll be with you give  
me to you baby that's some type of love that's some type of love when the world's on fire we won't even  
move there is no reason if i'm here with you and when it's said and done i'll give me to you that's some  
type of love that's some type of love

## **Free**

**by Charlie Puth**

they'll never know just who you are but they can't turn your bright star dark they'll try to hold your spirit  
down couldn't do it then can't do it now they'll try to tell you who to be but they can't change the way you  
feel pre can't tame a wild heart you are free free free as the grass that's right under your feet free as the  
sky underneath your wings free as the wind and the river flowin' to the sea free as the feelin' they can't  
take from you no walls can keep your heart from your dream free as just knowing that you were born to  
to be free free free free they'll try to tell you where to go try to put chains around your soul but they  
could never hold you back 'cause you were built too strong for that pre can't tame a wild heart free as  
the grass that's right under your feet free as the sky underneath your wings free as the wind and the  
river flowin' to the sea free free oh no one's ever putting out that fire inside feelin' free's the only way

you feel alive with the wind at your back running fast and free free as the grass that's right under your feet free as the sky underneath your wings free as the wind and the river flowin' to the sea free as the feelin' they can't take from you no walls can keep your heart from your dream free as just knowing that you were born to to be free yeah free free yeah free free free free oh free

backseat's gonna be our bed she ripped off the grass and threw it on my face i pushed her over laughing right away she said the moonlight makes the windows in your eyes kiss her inside out with no goodbye bye i remember waking up in the middle of the night on the brick shear highway it's not right but oh i can't fight it anymore do you remember waking up in the middle of the night on the brick shear highway oh it's not right yeah i can't fight it anymore i can't fight i can't fight it anymore

## **Violet Hill**

### **by Coldplay**

it was a long and dark december from the rooftops i remember there was snow white snow clearly i remember from the windows they were watching while we froze down below when the future's architected by a carnival of idiots on show you'd better lie low if you love me won't you let me know was a long and dark december when the banks became cathedrals and a fox became god priests clutched onto bibles hollowed out to fit their rifles and a cross was held aloft bury me in armor when i'm dead and hit the ground my nerves are poles that unfroze and if you love me won't you let me know i don't want to be a soldier who the captain of some sinking ship would stow far below so if you love me why'd you let me go i took my love down to violet hill there we sat in snow all that time she was silent still so if you love me won't you let me know if you love me won't you let me know

a rebel song don't want to see another generation drop i'd rather be a comma than a full stop maybe i'm  
in the black maybe i'm on my knees maybe i'm in the gap between the two trapezes but my heart is  
beating and my pulses start cathedrals in my heart pre as we saw oh this light i swear you emerge  
blinking into to tell me it's alright as we soar walls every siren is a symphony and every tear's a waterfall

## **Speed of Sound**

**by Coldplay**

how long before i get in before it starts before i begin how long before you decide before i know what it  
feels like where to where do i go if you never try then you'll never know how long do i have to climb up  
on the side of this mountain of mine look up i look up at night planets are moving at the speed of light  
climb up up in the trees every chance that you get is a chance you seize how long am i gonna stand  
with my head stuck under the sand i'll start before i can stop before i see things the right way up hook  
all that noise and all that sound all those places i got found and birds go flying at the speed of sound to  
show you how it all began birds came flying from the underground if you could see it then you'd  
understand ideas that you'll never find all the inventors could never design the buildings that you put up  
japan and china all lit up the sign that i couldn't read or a light that i couldn't see some things you have

to believe but others are puzzles puzzling me hook all that noise and all that sound all those places i got found and birds go flying at the speed of sound to show you how it all began birds came flying from the underground if you could see it then you'd understand ah when you see it then you'll understand all those signs i knew what they meant some things you can invent some get made and some get sent hook birds go flying at the speed of sound to show you how it all began birds came flying from the underground if you could see it then you'd understand ah when you see it then you'll understand

time only can lead you on still it's such a beautiful night love don't let me go won't you take me where  
the street lights glow i can hear it coming like a serenade of sound now my feet won't touch the ground  
gravity release me and don't ever hold me down now my feet won't touch the ground

## **We All Fall in Love Sometimes**

**by Coldplay**

wise men say looks like rain today crackled on the speakers and trickled down the steepy subway  
trains heavy eyes could hardly hold us aching legs that often told us it's all worth it we all fall in love  
sometimes the full moon's bright starlight filled the evening we wrote it and i played it something's  
happened it's so strange this feeling naive notions that were childish simple tunes that tried to hide it  
but when it comes we all fall in love sometimes did we didn't we should we couldn't we i'm not sure  
'cause sometimes we're so blind struggling through the day when even your best friend says don't you  
find we all fall in love sometimes wise men say looks like rain today crackled on the speakers trickled  
down the sleepy subway trains heavy eyes could hardly hold us aching legs that often told us it's all  
worth it we all fall in love sometimes we all fall in love sometimes we all fall in love sometimes we all fall  
in love sometimes

**by Coldplay**

charlie chaplin i'm sorry but i don't want to be an emperor that's not my business i don't want to rule or  
conquer anyone i should like to help everyone if possible jew gentile black man white we all want to  
help one another human beings are like that we want to live by each other's happiness not by each  
other's misery we don't want to hate and despise one another in this world there's room for everyone  
and the good earth is rich and can provide for everyone to those who can hear me i say do not despair  
the misery that is now upon us is but the passing of greed the bitterness of men who fear the way of  
human progress the hate of men will pass and dictators die and the power they took from the people  
will return to the people the kingdom of god is within man not one man nor a group of men but in all  
men in you you the people have the power the power to create machines the power to create  
happiness you the people have the power to make this life free and beautiful to make this life a  
wonderful adventure a wonderful adventure oh i think i landed in a world i hadn't seen when i'm feeling

sometimes i just want it to slow down and we're separated now i'm down but i love it when you come  
over to the house i love it when you come over to my house then there was rain and i spent the night  
with the queen of spain my lonely little heart well it broke again time so vicious singing the deeper that  
the knife goes in the more you win you end up with less than where you begin the deeper that the knife  
goes in ooooooh oh rainy day come round sometimes i just want it to slow down and we're separated  
now i'm down but i love it when you come over to the house i love it when you come over to my house  
but i love it when you come over to the house i love it when you come over to my house x

climb up a ladder look up and you see birds blind as each other how long can we suffer we're as blind  
as each other on the cloud that you're sitting there's one born every minute so much to discover i've  
become a believer sisters and brothers who fight one another will mourn and deceive us will find us and  
keep us take us or leave us 4 how soon is now only how long is never i'm nothing but normal we're  
something together come on and stick together on the cloud that you're sitting there's one born every

## **Gold in Them Hills**

**by Coldplay**

i know it doesn't seem that way but maybe it's the perfect day even though the bills are piling and  
maybe lady luck ain't smiling but if we'd only open our eyes we'd see the blessings in disguise that all  
the rain clouds are fountains though our troubles seem like mountains there's gold in them hills there's  
gold in them hills so don't lose heart give the day a chance to start every now and then life says where  
do you think you're going so fast we're apt to think it cruel but sometimes it's a case of cruel to be kind  
and if we'd get up off our knees why then we'd see the forest for the trees and we'd see the new sun  
rising over the hills on the horizon there's gold in them hills there's gold in them hills so don't lose faith  
give the world a chance to say a word or two my friend there's no telling how the day might end and  
we'll never know until we see that there's gold in them hills there's gold in them hills so don't lose heart  
give the day a chance to start there's gold in them hills there's gold in them hills

i turn the music up i got my records on from underneath the rubble sing a rebel song don't want to see  
another generation drop i'd rather be a comma than a full stop maybe i'm in the black maybe i'm on my  
knees maybe i'm in the gap between the two trapezes but my heart is beating and my pulses start  
cathedrals in my heart pre as we saw oh this light i swear you emerge blinking into to tell me it's alright  
as we soar walls every siren is a symphony and every tear's a waterfall is a waterfall oh is a waterfall oh  
oh oh is a is a waterfall every tear is a waterfall oh oh oh so you can hurt hurt me bad but still i'll raise  
the flag pre as we saw oh this light i swear you emerge blinking into to tell me it's alright as we soar  
walls every siren is a symphony and every tear's a waterfall is a waterfall oh is a waterfall oh oh oh is a  
is a waterfall every tear is a waterfall oh oh oh so you can hurt hurt me bad but still i'll raise the flag

## **Where the Wild Roses Grow**

**by Coldplay**

kylie minogue they call me the wild rose but my name was elisa day why they call me it i do not know  
for my name was elisa day chris martin from the first day i saw her i knew she was the one she stared  
in my eyes and smiled for her lips were the colour of the roses that grew down the river all bloody and  
wild kylie minogue when he knocked on my door and entered the room my trembling subsided in his  
sure embrace he would be my first man and with a careful hand he wiped at the tears that ran down my  
face chris on the second day i brought her a flower she was more beautiful than any woman i'd seen i  
said do you know where the wild roses grow so sweet and scarlet and free 4 kylie on the second day he  
came with a single red rose said will you give me your loss and your sorrow i nodded my head as i lay  
on the bed he said if i show you the roses will you follow 5 kylie on the third day he took me to the river  
he showed me the roses and we kissed and the last thing i heard was a muttered word as he knelt  
stood smiling above me with a rock in his fist 6 chris on the last day i took her where the wild roses  
grow and she lay on the bank the wind light as a thief and i kissed her goodbye said all beauty must die  
and lent down and planted a rose between her teeth

## **How You See the World (Live from Earls Court)**

**by Coldplay**

they put the world in a tin can black market contraband and it hurt just a little bit when they sliced and  
packaged it in a long black trench coat two hands around the throat oh you wanna get it right  
sometimes there's so much to be scared of and not much to make sense of how did the clowns ever  
get control oh if you hear can you let me know how can they invade it oh when it's so complicated oh  
you wanna get it right sometimes you just wanna get it right sometimes that's how you see the world

how many times can you say you can't believe what you heard that's how you see the world don't you worry yourself you're not gonna get hurt oooh is there's something missing there's nobody listening are you're running in a circle how can you be too careful we don't wanna be mantrapped we don't wanna be shrinkwrapped oh just wanna get it right sometimes we just wanna get it right sometimes that's how you see the world how many times have you heard that you can't believe a word that's how you see the world oh don't you worry yourself 'cause nobody can hurt you that's how you see the world that's how you see the world

**by Coldplay**

i used to rule the world seas would rise when i gave the word now in the morning i sleep alone sweep the streets i used to own i used to roll the dice feel the fear in my enemy's eyes listen as the crowd would sing now the old king is dead long live the king one minute i held the key next the walls were closed on me and i discovered that my castles stand upon pillars of salt and pillars of sand i hear

jerusalem bells aringing roman cavalry choirs are singing be my mirror my sword and shield my missionaries in a foreign field for some reason i can't explain once you go there was never never an honest word and that was when i ruled the world it was the wicked and wild wind blew down the doors to let me in shattered windows and the sound of drums people couldn't believe what i'd become revolutionaries wait for my head on a silver plate just a puppet on a lonely string oh who would ever want to be king i hear jerusalem bells aringing roman cavalry choirs are singing be my mirror my sword and shield my missionaries in a foreign field for some reason i can't explain i know saint peter won't call my name never an honest word but that was when i ruled the world i hear jerusalem bells aringing roman cavalry choirs are singing be my mirror my sword and shield my missionaries in a foreign field for some reason i can't explain i know saint peter won't call my name never an honest word but that was when i ruled the world

## **Suzanne**

**by Coldplay**

suzanne takes you down to her place near the river you can hear the boats go by you can spend the night beside her and you know that she's half crazy but that's why you want to be there and she feeds you tea and oranges that come all the way from china and just when you mean to tell her that you have no love to give her then she gets you on her wavelength and she lets the river answer that you've always been her lover and you want to travel with her and you want to travel blind and you know that she will trust you for you've touched her perfect body with your mind and jesus was a sailor when he walked upon the water and he spent a long time watching from his lonely wooden tower and when he knew for certain only drowning men could see him he said all men will be sailors then until the sea shall free them but he himself was broken long before the sky would open forsaken almost human he sank beneath your wisdom like a stone and you want to travel with him and you want to travel blind and you think maybe you'll trust him for he's touched your perfect body with his mind now suzanne takes your hand and she leads you to the river she is wearing rags and feathers from salvation army counters and the sun pours down like honey on our lady of the harbour and she shows you where to look among the garbage and the flowers there are heroes in the seaweed there are children in the morning they are leaning out for love and they will lean that way forever while suzanne holds the mirror and you want to travel with her and you want to travel blind and you know that you can trust her for she's touched your perfect body with her mind

what if there was no light nothing wrong nothing right what if there was no time and no reason or rhyme  
what if you should decide that you don't want me there by your side that you don't want me there in  
your life what if i got it wrong and no poem or song could put right what i got wrong or make you feel i  
belong what if you should decide that you don't want me there by your side that you don't want me  
there in your life hook ooooooh that's right let's take a breath jump over the side ooooooh that's right how  
can you know it if you don't even try ooooooh that's right every step that you take could be your biggest

come up to meet you tell you i'm sorry you don't know how lovely you are i had to find you tell you i  
need you tell you i set you apart tell me your secrets and ask me your questions oh let's go back to the  
start running in circles coming up tails heads on a science apart nobody said it was easy it's such a  
shame for us to part nobody said it was easy no one ever said it would be this hard oh take me back to  
the start i was just guessing at numbers and figures pulling the puzzles apart questions of science  
science and progress do not speak as loud as my heart tell me you love me come back and haunt me  
oh and i rush to the start running in circles chasing our tails coming back as we are nobody said it was  
easy oh it's such a shame for us to part nobody said it was easy no one ever said it would be so hard  
i'm going back to the start ohohh oohohhohohh aahohh oohohhohohh ohohh oohohhohohh ohohh  
oohohhohohh

lining the cloud oh and i oh and i i wonder what it's all about i wonder what it's all about everything i  
know is wrong everything i do it just comes undone and everything is torn apart oh and that's the

hardest part that's the hardest part yeah that's the hardest part that's the hardest part

## **Viva La Vida (Grant's Uplifting original mix)**

**by Coldplay**

i used to rule the world seas would rise when i gave the word now in the morning i sleep alone sweep the streets i used to own i used to roll the dice feel the fear in my enemy's eyes listen as the crowd would sing now the old king is dead long live the king one minute i held the key next the walls were closed on me and i discovered that my castles stand upon pillars of salt and pillars of sand i hear jerusalem bells aringing roman cavalry choirs are singing be my mirror my sword and shield my missionaries in a foreign field for some reason i can't explain once you go there was never never an honest word and that was when i ruled the world it was the wicked and wild wind blew down the doors to let me in shattered windows and the sound of drums people couldn't believe what i'd become revolutionaries wait for my head on a silver plate just a puppet on a lonely string oh who would ever want to be king i hear jerusalem bells aringing roman cavalry choirs are singing be my mirror my sword and shield my missionaries in a foreign field for some reason i can't explain i know saint peter won't call my name never an honest word but that was when i ruled the world i hear jerusalem bells aringing roman cavalry choirs are singing be my mirror my sword and shield my missionaries in a foreign field for some reason i can't explain i know saint peter won't call my name never an honest word but that was when i ruled the world

## **White Shadows (Morgan Page Bootleg remix)**

**by Coldplay**

when i was a young boy i tried to listen and i want to feel like that little white shadows blink and miss them part of a system i am if you ever feel like something's missing things you'll never understand little white shadows sparkle and glisten part of a system a plan all this noise i'm waking up all this space i'm taking up all this sound is breaking up oh maybe you'll get what you wanted maybe you'll stumble upon it everything you ever wanted in a permanent state maybe you'll know when you see it maybe if you say it you'll mean it and when you find it you keep it in a permanent state a permanent state when i was a young boy i tried to listen don't you want to feel like that you're part of the human race all of the stars and the outer space part of the system a plan all this noise i'm waking up all this space i'm taking up i

cannot hear you're breaking up oh maybe you'll get what you wanted maybe you'll stumble upon it  
everything you ever wanted in a permanent state maybe you'll know when you see it maybe if you say it  
you'll mean it and when you find it you keep it in a permanent state a permanent state swimming on a  
sea of faces the tide of the human race and so an answer now is what i need i see it in the new sun  
rising i see it break on your horizon oh come on love stay with me

## **Talk (François Kevorkian dub)**

**by Coldplay**

oh brother i can't i can't get through i've been tryin' hard to reach you 'cause i don't know what to do oh  
brother i can't believe it's true i'm so scared about the future and i wanna talk to you oh i wanna talk to  
you you could take a picture of something you see and in the future where would i be you could climb a  
ladder up to the sun or write a song nobody had sung or do something that's never been done are you  
lost or incomplete do you feel like a puzzle you can't find your missing piece tell me how you feel well i  
feel like they're talkin' in a language i don't speak and they're talking it to me so you take a picture of  
something you see and in the future where will i be you could climb a ladder up to the sun or write a  
song nobody had sung or do something that's never been done do something that's never been done  
so you don't know where you're going and you wanna talk and you feel like you're going where you've  
been before you'll tell anyone who'll listen but you feel ignored but nothing's really makin' any sense at  
all let's talk let's talk let's talk let's talk

## **Thinking 'Bout You**

**by Dua Lipa**

am and my neighbors hate me music blasting shaking these walls this time mary jane won't save me  
i've been working later i've been drinking stronger i've been smoking deeper but the memories won't  
stop i can't stop thinking 'bout you i can't stop thinking 'bout you i can't get high i can't get by i can't get  
through i can't stop thinking 'bout you like poison coursing through me so clear my vision is blurred the  
haze won't put my mind at ease i've been sleeping later i've been breathing stronger i've been digging  
deeper but the memories won't stop i can't stop thinking 'bout you i can't stop thinking 'bout you i can't  
get high i can't get by i can't get through i can't stop thinking 'bout you i want you all say it before you  
run out of time i want you all say it before it's too late i want you all say what i am feeling now i want you  
all waiting is insane i can't stop thinking 'bout you i can't stop thinking 'bout you i can't get high i can't  
get by i can't get through i can't stop thinking 'bout you i can't stop thinking 'bout you i can't get high i  
can't get by i can't get through i can't stop thinking 'bout you

## **Boys Will Be Boys**

**by Dua Lipa**

it's second nature to walk home before the sun goes down and put your keys between your knuckles  
when there's boys around isn't it funny how we laugh it off to hide our fear when there's nothing funny  
here ah sick intuition that they taught us so we won't freak out we hide our figures doing anything to  
shut their mouths we smile away to ease the tension so it don't go south but there's nothing funny now  
ah pre when will we stop saying things 'cause they're all listening no the kids ain't alright oh and they do  
what they see 'cause it's all on tv oh the kids ain't alright boys will be boys will be boys will be boys will  
be boys but girls will be women boys will be boys will be boys will be boys will be boys but girls will be  
women i'm sure if there's something that i can't find the words to say i know that there will be a man  
around to save the day and that was sarcasm in case you needed it mansplained i should've stuck to  
ballet ah pre when will we stop saying things 'cause they're all listening no the kids ain't alright oh and  
they do what they see 'cause it's all on tv oh the kids ain't alright boys will be boys will be boys will be  
boys will be boys but girls will be women boys will be boys will be boys will be boys will be boys but girls  
will be women if you're offended by this song you're clearly doing something wrong if you're offended by  
this song then you're probably saying boys will be boys will be boys will be boys will be boys but girls  
will be women pre when will we stop saying things 'cause they're all listening no the kids ain't alright oh  
and they do what they see 'cause it's all on tv oh the kids ain't alright boys will be boys will be boys will  
be boys will be boys but girls will be women boys will be boys will be boys will be boys will be boys but  
girls will be women

## **Genesis**

**by Dua Lipa**

in the beginning god created heaven and earth for what it's worth i think that he might've created you  
first just my opinion your body is the one paradise that i wanna fly to every day and every night pre i've  
been sick and tired of running chasing all of the flashing lights these late nights don't mean nothing so i  
just wanna apologize i'm sorry so sorry i'm sorry yeah i need your love and i'm dying for the rush 'cause  
my heart ain't got enough i need your touch this is getting serious tell me that it's not the end of us how  
can we go back to the beginning how can we go back to the beginning without you i've got no air to  
breathe in how can we go back to the beginning don't matter what's written we can start all over again  
all over again oh how can i get you all over my skin my deep intuition tells me that i'm doing you wrong  
if i don't come home just say you forgive me and don't let me go pre i've been sick and tired of running  
chasing all of the flashing lights these late nights don't mean nothing so i just wanna apologize i'm sorry  
so sorry i'm sorry yeah i need your love and i'm dying for the rush 'cause my heart ain't got enough i  
need your touch this is getting serious tell me that it's not the end of us how can we go back to the  
beginning how can we go back to the beginning without you i've got no air to breathe in how can we go  
back to the beginning you know i'll roar like a lion for you you know i'll keep trying 'til the sun starts  
rising i need your love and i'm dying for the rush 'cause my heart ain't got enough i need your touch this  
is getting serious tell me that it's not the end of us how can we go back to the beginning how can we go  
back to the beginning without you i've got no air to breathe in how can we go back to the beginning

## No Goodbyes

### by Dua Lipa

maybe one day i can see you we can smile and wave and it'll be okay maybe one day it'll be cool we could just be friends without the complications that it brings when we start saying things yeah i hurt you and you hurt me yeah we did some things that we can never take back and we tried hard just to fix it but we broke it more and so i guess some things are not meant to last is it too much to ask for tonight let's love like there's no goodbyes no goodbyes just for tonight pretend that it's all alright all alright why don't

we hold each other use each other whisper pretty lies just for tonight let's love like there's no goodbyes  
no goodbyes post no goodbyes no goodbyes no goodbyes eh in a dark room we don't have to see the  
light of truth between me and you we can stay blind in the meantime let our bodies say what we can  
never seem to communicate even though it's too late for tonight let's love like there's no goodbyes no  
goodbyes just for tonight pretend that it's all alright all alright why don't we hold each other use each  
other whisper pretty lies just for tonight let's love like there's no goodbyes no goodbyes post no  
goodbyes no goodbyes no goodbyes eh no goodbyes no goodbyes no goodbyes no goodbyes no  
goodbyes eh maybe one day i'll see you just smile and wave and be okay for tonight let's love like  
there's no goodbyes for tonight pretend that it's all alright all alright why don't we hold each other use  
each other whisper pretty lies just for tonight let's love like there's no goodbyes no goodbyes no  
goodbyes no goodbyes no goodbyes eh no goodbyes no goodbyes no goodbyes eh

## **Garden**

**by Dua Lipa**

remember when we swam in the ocean now we know what's deep inside remember when we ran in the  
open now we know what's in the wild used to think that this love was heaven sent how did we get lost  
can't get back again tell me is there light on the outside so are we leaving this garden of eden are we  
leaving this garden of eden used to walk around your apartment nothing but a smile on me but tonight  
i'm so self conscious isn't it so clear to see nothing's ever perfect in paradise don't know what it's worth  
'til you pay the price when you bite your tongue does it draw blood so are we leaving this garden of  
eden are we leaving this garden of eden now i know what i know but its hard to find the meaning where  
do we go 'cause we don't believe in this garden of eden eden eden eden this garden of eden eden eden  
eden i have cried for you and i'll ride for you i would die for you but would you do that for me tell the  
truth what you wanna do is it me and you are you with me honey i have cried for you and i'll ride for you

i would die for you but would you do that for me tell the truth what you wanna do is it me and you are you with me so are we leaving this garden of eden are we leaving this garden of eden now i know what i know but it's hard to find the meaning where do we go 'cause we don't believe in this garden of eden eden eden eden this garden of eden eden eden eden remember when we swam in the ocean now we know what's deep inside remember when we ran in the open so are we leaving are we leaving this garden of eden are we leaving are we leaving this garden of eden now i know what i know but it's hard to find the meaning where do we go 'cause we don't believe in this garden of eden eden eden eden this garden of eden eden eden eden

## **For Julian**

**by Dua Lipa**

what would you do what would you do if i handed you a drug that'd teach you something new what  
would you feel what would you feel if i took over the fake and made them all real what would you say  
what would you say if i told you it's actually gon' be a good day maybe all things happen for a reason  
you just need to get over this dry season but the only drug you need is believing maybe god does  
answer all your prayers maybe need to let go of the fear of being let down from the people you keep  
near maybe it's because you're running low on gear maybe god does answer all your prayers what do  
you need what do you need to show you there's better things to life than good weed what do you hear  
what do you hear what do you hear when i tell you i'm always near i made it pretty clear what do you  
see what do you see when you find out the best things in life are all free you got a friend in me maybe  
all things happen for a reason you just need to get over this dry season but the only drug you need is  
believing maybe god does answer all your prayers maybe need to let go of the fear of being let down  
from the people you keep near maybe it's because you're running low on gear maybe god does answer  
all your prayers and i'm still here and i'm holding hard onto your hand but it still feels like you're never  
gonna understand one can drown alone but we can swim together maybe all things happen for a  
reason you just need to get over this dry season but the only drug you need is believing maybe god  
does answer all your prayers and let go of the fear of being let down from the people you keep near is it  
because you're running low on gear maybe god does answer all your prayers

**Here**

## by Dua Lipa

i'm sorry if i seem uninterested or i'm not listenin' or i'm indifferent truly i ain't got no business here but since my friends are here i just came to kick it but really i would rather be at home all by myself not in this room with people who don't even care about my wellbeing i don't dance don't ask i don't need a boyfriend so you can go back please enjoy your party i'll be here somewhere in the corner under clouds of marijuana with this boy who's hollering i can hardly hear over this music i don't listen to and i don't wanna get with you so tell my friends that i'll be over here ohohoh here ohohoh here oh i ask myself what am i doin' here ohohoh here ohohoh here and i can't wait 'til we can break up outta here excuse me if i seem a little unimpressed with this an antisocial pessimist but usually i don't mess with this and i know you mean only the best and your intentions aren't to bother me but honestly i'd rather be somewhere with my people we can kick it and just listen to some music with a message like we usually do and we'll discuss our big dreams how we plan to take over the planet so pardon my manners i hope you'll understand that i'll be her not there in the kitchen with the girl who's always gossiping about her friends so tell them i'll be here right next to the boy who's throwin' up 'cause he can't take what's in his cup no more oh god why am i here ohohoh here ohohoh here oh i ask myself what am i doin' here ohohoh here ohohoh here and i can't wait 'til we can break up outta here hours later congregatin' next to the refrigerator some girl talkin' 'bout her haters she ain't got none how did it ever come to this i shoulda never come to this so holla at me i'll be in the car when you're done i'm standoffish don't want what you're offerin' and i'm done talkin' awfully sad it had to be that way so tell my people when they're ready that i'm ready and i'm standin' at the tv with my beanie low yo i'll be over here ohohoh here ohohoh here ask myself what am i doin' here ohohoh here ohohoh here hmm ohohoh here here hmm here here are we over here

## **Save Someone**

**by Dua Lipa**

**by Dua Lipa**

you don't know what you've lost 'til it's gone you can't hear the silence up to this lung you can't tie heartstrings when they're left undone you can't go back when you've left too long i tried to push us to the very end i needed a lover more than a friend but i hit the limit i didn't intend and i just wanna make amends pre wish that you would hold on hold on hold on hold onto me hold on hold on hold on hold onto me hold on hold on hold on hold onto me now yeah i put myself between a bullet and a heartbreak and now i'm staring at the emptiness that i've made i put myself between a bullet and a heartbreak and all i wanted was you but i shot love down down down down down down down in the darkness i hear your voice memories of us i feel destroyed my mind is playing tricks and i have no choice without you my heart makes no noise pre wish that you would hold on hold on hold on hold onto me hold on hold on hold on hold onto me hold on hold on hold on hold onto me now yeah i put myself between a bullet and a heartbreak and now i'm staring at the emptiness that i've made i put myself between a bullet and a heartbreak and all i wanted was you but i shot love down down down down down down down all i needed was you all i wanted was you all i needed was you i put myself between a bullet and a heartbreak and now i'm staring at the emptiness that i've made i put myself between a bullet and a heartbreak and all i wanted was you but i shot love down down down down down down down

## **Runnin' Out\***

**by Dua Lipa**

lyrics from snippet imma hate it when i'm picking up you i just don't wanna breathe the same air choking  
on your smoke smashing on your mirrors gonna vacate the fake so i see clearer running out of ways to  
love you i'm running out of ways to care don't you wear your own mouth walking around and throwing  
shade caught up in your mind games but did i think you'd ever change i'm running out of ways to love  
you i'm running out of ways to care imma hate it when i'm picking up you i just don't wanna breathe the  
same air i'm running out of ways to love you i'm running out of ways to care imma hate it when i'm  
picking up you i just don't wanna breathe the same air choking on your smoke smashing on your  
mirrors gonna vacate the fake so i see clearer running out of ways to love you i'm running out of ways  
to care and i tried and i tried and i tried but it just doesn't feel right like a night like a night like a night  
with a sunrise i'm running out of ways to love you i'm running out of ways to care imma hate it when i'm

picking up you i just don't wanna breathe the same air you are looking two faced you need another pair of shades

**by Dua Lipa**

what would i do without your smart mouth drawin' me in and you kickin' me out got my head spinnin' no  
kiddin' i can't pin you down what's goin' on in that beautiful mind i'm on your magical mystery ride and  
i'm so dizzy don't know what hit me but i'll be alright pre my head's underwater but i'm breathing fine  
you're crazy and i'm out of my mind 'cause all of me loves all of you love your curves and all your edges  
all your perfect imperfections give your all to me i'll give my all to you you're my end and my beginning  
even when i lose i'm winning 'cause i give you all of me and you give me all of you oh how many times  
do i have to tell you even when you're crying you're beautiful too the world is beating you down i'm  
around through every mood you're my downfall you're my muse my worst distraction my rhythm and  
blues i can't stop singing it's ringing in my head for you pre my head's underwater but i'm breathing fine  
you're crazy and i'm out of my mind 'cause all of me loves all of you love your curves and all your edges  
all your perfect imperfections give your all to me i'll give my all to you you're my end and my beginning  
even when i lose i'm winning 'cause i give you all of me and you give me all of you oh give me all of you  
cards on the table we're both showing hearts risking it all though it's hard 'cause all of me loves all of  
you love your curves and all your edges all your perfect imperfections give your all to me i'll give my all  
to you you're my end and my beginning even when i lose i'm winning 'cause i give you all of me and you  
give me all of you oh

## Thinking 'Bout You (Demo)

by Dua Lipa

am and my neighbors hate me music blasting shaking these walls this time mary jane won't save me  
i've been working later i've been drinking stronger i've been smoking deeper but the memories won't  
stop i can't stop thinking 'bout you i can't stop thinking 'bout you i can't get high i can't get by i can't get  
through i can't stop thinking 'bout you like poison coursing through me so clear my vision is blurred the  
haze won't put my mind at ease i've been sleeping later i've been breathing stronger i've been digging  
deeper but the memories won't stop i can't stop thinking 'bout you i can't stop thinking 'bout you i can't  
get high i can't get by i can't get through i can't stop thinking 'bout you i want you all say it before you  
run out of time i want you all say it before it's too late i want you all say what i am feeling now i want you

me at all so if you don't wanna see me dancing with somebody if you wanna believe that anything could  
stop me don't show up don't come out don't start caring about me now walk away you know how don't  
start caring about me now aren't you the guy who tried to hurt me with the word goodbye though it took  
some time to survive you i'm better on the other side i'm all good already so moved on it's scary i'm not  
where you left me at all so if you don't wanna see me dancing with somebody if you wanna believe that  
anything could stop me don't don't don't don't show up don't come out don't start caring about me now  
walk away you know how don't start caring about me now 'bout me now 'bout me up up don't come out  
out out don't show up up up don't start now oh up up don't come out out i'm not where you left me at all  
so if you don't wanna see me dancing with somebody if you wanna believe that anything could stop me

don't show up don't show up don't come out don't come out don't start caring about me now 'bout me  
now walk away walk away you know how you know how don't start caring about me now so up up don't

up up up walk away walk away oh

**by Ed Sheeran**

i found a love for me oh darling just dive right in and follow my lead well i found a girl beautiful and  
sweet oh i never knew you were the someone waiting for me 'cause we were just kids when we fell in  
love not knowing what it was i will not give you up this time but darling just kiss me slow your heart is all  
i own and in your eyes you're holding mine baby i'm dancing in the dark with you between my arms  
barefoot on the grass listening to our favourite song when you said you looked a mess i whispered  
underneath my breath but you heard it darling you look perfect tonight well i found a woman stronger  
than anyone i know she shares my dreams i hope that someday i'll share her home i found a love to  
carry more than just my secrets to carry love to carry children of our own we are still kids but we're so in  
love fighting against all odds i know we'll be alright this time darling just hold my hand be my girl i'll be  
your man i see my future in your eyes baby i'm dancing in the dark with you between my arms barefoot  
on the grass listening to our favorite song when i saw you in that dress looking so beautiful i don't  
deserve this darling you look perfect tonight baby i'm dancing in the dark with you between my arms  
barefoot on the grass listening to our favorite song i have faith in what i see now i know i have met an  
angel in person and she looks perfect i don't deserve this you look perfect tonight

**by Ed Sheeran**

i took the supermarket flowers from the windowsill i threw the day old tea from the cup packed up the photo album matthew had made memories of a life that's been loved took the get well soon cards and stuffed animals poured the old ginger beer down the sink dad always told me don't you cry when you're

down but mum there's a tear every time that i blink pre oh i'm in pieces it's tearing me up but i know a heart that's broke is a heart that's been loved so i'll sing hallelujah you were an angel in the shape of my mum when i fell down you'd be there holding me up spread your wings as you go when god takes you back he'll say hallelujah you're home i fluffed the pillows made the beds stacked the chairs up folded your nightgowns neatly in a case john says he'd drive then put his hand on my cheek and wiped a tear from the side of my face pre i hope that i see the world as you did 'cause i know a life with love is a life that's been lived so i'll sing hallelujah you were an angel in the shape of my mum when i fell down you'd be there holding me up spread your wings as you go when god takes you back he'll say hallelujah you're home hallelujah you were an angel in the shape of my mum you got to see the person i have become spread your wings and i know that when god took you back he said hallelujah you're home

loving can hurt loving can hurt sometimes but it's the only thing that i know when it gets hard you know it can get hard sometimes it is the only thing that makes us feel alive pre we keep this love in a

photograph we made these memories for ourselves where our eyes are never closing our hearts were never broken and time's forever frozen still so you can keep me inside the pocket of your ripped jeans holding me close until our eyes meet you won't ever be alone wait for me to come home loving can heal loving can mend your soul and it's the only thing that i know know i swear it will get easier remember that with every piece of ya and it's the only thing to take with us when we die pre we keep this love in a photograph we made these memories for ourselves where our eyes are never closing our hearts were never broken and time's forever frozen still so you can keep me inside the pocket of your ripped jeans holding me close until our eyes meet you won't ever be alone and if you hurt me that's okay baby only words bleed inside these pages you just hold me and i won't ever let you go wait for me to come home wait for me to come home wait for me to come home wait for me to come home oh you can fit me inside the necklace you got when you were 6 next to your heartbeat where i should be keep it deep within your soul and if you hurt me that's okay baby only words bleed inside these pages you just hold me and i won't ever let you go when i'm away i will remember how you kissed me under the lamppost back on sixth street hearing you whisper through the phone wait for me to come home

## **Don't**

**by Ed Sheeran**

i met this girl late last year she said don't you worry if i disappear i told her i'm not really looking for another mistake i called an old friend thinking that the trouble would wait but then i jumped right in a week later returned i reckon she was only looking for a lover to burn but i gave her my time for two or three nights then i put it on pause until the moment was right i went away for months until our paths crossed again she told me i was never looking for a friend maybe you could swing by my room around ten baby bring the lemon and a bottle of gin we'll be in between the sheets till the late am baby if you wanted me then you should have just said she's singing don't fuck with my love that heart is so cold all over my home i don't wanna know that babe don't fuck with my love i told her she knows take aim and reload i don't wanna know that babe and for a couple weeks i only wanna see her we drink away the days with a takeaway pizza before a text message was the only way to reach her now she's staying at my place and loves the way i treat her singing out aretha all over the track like a feature and never wants to sleep i guess that i don't want to either but me and her we make money the same way four cities two planes the same day and those shows have never been what it's about but maybe we'll go together and just figure it out i'd rather put on a film with you and sit on a couch but we should get on a plane or we'll be missing it now wish i'd have written it down the way that things played out when she was kissing him how i was confused about now she should figure it out while i'm sat here singing don't fuck with my love that heart is so cold all over my home i don't wanna know that babe don't fuck with my love i told her she knows take aim and reload i don't wanna know that babe knock knock knock on my hotel door i don't even know if she knows what for she was crying on my shoulder i already told ya trust and respect is what we do this for i never intended to be next you bastard but you didn't need to take him to bed that's all and i never saw him as a threat you bastard until you disappeared with him to have sex of course it's not like we were both on tour we were staying on the same fucking hotel floor and i wasn't looking for a promise or commitment but it was never just fun and i thought you were different this is not the way you realised what you wanted it's a bit too much too late if i'm honest and all this time god knows i'm singing don't fuck with my love that heart is so cold all over my home i don't wanna know

that babe don't fuck with my love i told her she knows take aim and reload i don't wanna know that babe  
don't fuck with my love that heart is so cold all over my home i don't wanna know that babe don't fuck

## **I See Fire**

**by Ed Sheeran**

oh misty eye of the mountain below keep careful watch of my brothers' souls and should the sky be  
filled with fire and smoke keep watching over durin's sons if this is to end in fire then we should all burn  
together watch the flames climb high into the night calling out father oh stand by and we will watch the  
flames burn auburn on the mountain side and if we should die tonight we should all die together raise a  
glass of wine for the last time calling out father oh prepare as we will watch the flames burn auburn on  
the mountain side desolation comes upon the sky now i see fire inside the mountain i see fire burning  
the trees and i see fire hollowing souls i see fire blood in the breeze and i hope that you remember me  
oh should my people fall then surely i'll do the same confined in mountain halls we got too close to the  
flame calling out father oh hold fast and we will watch the flames burn auburn on the mountain side  
desolation comes upon the sky now i see fire inside the mountain i see fire burning the trees and i see  
fire hollowing souls i see fire blood in the breeze and i hope that you remember me and if the night is  
burning i will cover my eyes for if the dark returns then my brothers will die and as the sky's falling down  
it crashed into this lonely town and with that shadow upon the ground i hear my people screaming out  
now i see fire inside the mountain i see fire burning the trees i see fire hollowing souls i see fire blood in  
the breeze i see fire oh you know i saw a city burning out i see fire feel the heat upon my skin i see fire  
and i see fire burn auburn on the mountain side

i was born inside a small town i lost that state of mind learned to sing inside the lord's house but stopped the age of nine i forget when i get awards now the wave i had to ride the paving stones i played upon that kept me on the grind so blame it on the pain that blessed me with the life friends and family filled with envy when they should be filled with pride and when the world's against me is when i really come alive and every day that satan tempts me i try to take it in my stride you know that i've got whisky with white lies and smoke in my lungs i think life has got to the point i know without it's no fun i need to get in the right mind and clear myself up instead i look in the mirror questioning what i've become guess it's a stereotypical day for someone like me without a ninetofive job or a uni degree to be caught up in the trappings of the industry show me the locked doors i'll find another use for the key and you'll see pre i'm well aware of certain things that can destroy a man like me but with that said give me one more another one to take the sting away i am happy on my own so here i'll stay save your lovin' arms for a rainy day and i'll find comfort in my pain eraser i used to think that nothing could be better than touring the world with my songs i chased the pictured perfect life i think they painted it wrong i think that money is the root of all evil and fame is hell relationships and hearts you fixed they break as well and ain't nobody wanna see you down in the dumps because you're living your dream man this shit should be

fun please know that i'm not trying to preach like i'm reverend run i beg you don't be disappointed with the man i've become conversations with my father on the a4 age telling me i've gotta chase those dreams now i'm playing for the people dad and they know me with my beaten small wearing the same old jeans wembley stadium crowd's 40 thou' i may have grown up but i hope that damian's proud and to the next generation inspiration's allowed the world may be filled with hate but keep erasing it now somehow pre i'm well aware of certain things that will befall a man like me but with that said give me one more another one to take the sting away oh i am happy on my own so here i'll stay save your lovin' arms for a rainy day and i'll find comfort in my pain eraser and i'll find comfort in my pain eraser and i'll find comfort in my pain eraser welcome to the new show i guess you know i've been away but where i'm heading who knows but my heart will stay the same welcome to the new show i guess you know i've been away but where i'm heading who knows my pain eraser and i'll find comfort in my pain eraser and i'll find comfort in my pain eraser and i'll find comfort in my pain eraser

## How Would You Feel (Paean)

by Ed Sheeran

you are the one girl and you know that it's true i'm feeling younger every time that i'm alone with you pre  
we were sitting in a parked car stealing kisses in a front yard we got questions we should not ask but  
how would you feel if i told you i loved you it's just something that i want to do i'll be taking my time  
spending my life falling deeper in love with you so tell me that you love me too in the summer as the  
lilacs bloom love flows deeper than the river every moment that i spend with you pre we were sat upon  
our best friend's roof i had both of my arms around you watching the sunrise replace the moon but how  
would you feel if i told you i loved you it's just something that i want to do i'll be taking my time spending  
my life falling deeper in love with you so tell me that you love me too john mayer pre yeah we were  
sitting in a parked car stealing kisses in a front yard we got questions we should not ask how would you  
feel if i told you i loved you it's just something that i want to do i'll be taking my time spending my life  
falling deeper in love with you tell me that you love me too tell me that you love me too tell me that you  
love me too

## Afterglow

by Ed Sheeran

one two stop the clocks it's amazing you should see the way the light dances off your hair a million  
colours of hazel golden and red saturday morning is fading the sun's reflected by the coffee in your  
hand my eyes are caught in your gaze all over again pre we were lovedrunk waiting on a miracle tryna  
find ourselves in the winter snow so alone in love like the world had disappeared oh i won't be silent  
and i won't let go i will hold on tighter 'til the afterglow and we'll burn so bright 'til the darkness softly  
clears oh i will hold on to the afterglow oh i will hold on to the afterglow the weather outside's changing  
the leaves are buried under six inches of white the radio is playing iron wine this is a new dimension  
this is a level where we're losing track of time i'm holding nothing against it except you and i pre we  
were lovedrunk waiting on a miracle tryna find ourselves in the winter snow so alone in love like the  
world had disappeared oh i won't be silent and i won't let go i will hold on tighter 'til the afterglow and  
we'll burn so bright 'til the darkness softly clears oh i will hold on to the afterglow oh i will hold on to the  
afterglow oh i will hold on to the afterglow

## **Save Myself**

**by Ed Sheeran**

i gave all my oxygen to people that could breathe i gave away my money and now we don't even speak i drove miles and miles but would you do the same for me oh honestly offered off my shoulder just for you to cry upon gave you constant shelter and a bed to keep you warm they gave me the heartache and in return i gave a song it goes on and on life can get you down so i just numb the way it feels i drown it with a drink and outofdate prescription pills and all the ones that love me they just left me on the shelf no farewell so before i save someone else i've got to save myself i gave you all my energy and i took away your pain 'cause human beings are destined to radiate or drain what line do we stand upon 'cause from here it looks the same and only scars remain life can get you down so i just numb the way it feels i drown it with a drink and outofdate prescription pills and all the ones that love me they just left me on the shelf no farewell so before i save someone else i've got to save myself but if i don't then i'll go back to where i'm rescuing a stranger just because they needed saving just like that oh i'm here again between the devil and the danger but i guess it's just my nature my dad was wrong 'cause i'm not like my mum 'cause she'd just smile and i'm complaining in a song but it helps so before i save someone else i've got to save myself life can get you down so i just numb the way it feels i drown it with a drink and outofdate prescription pills and all the ones that love me they just left me on the shelf no farewell so before i save someone else i've got to save myself and before i blame someone else i've got to save myself and before i love someone else i've got to love myself

i'm gonna pick up the pieces and build a lego house if things go wrong we can knock it down my three words have two meanings there's one thing on my mind it's all for you pre and it's dark in a cold december but i've got you to keep me warm and if you're broken i'll mend you and keep you sheltered

from the storm that's raging on now i'm out of touch i'm out of love i'll pick you up when you're getting down and out of all these things i've done i think i love you better now i'm out of sight i'm out of mind i'll do it all for you in time and out of all these things i've done i think i love you better now now i'm gonna paint you by numbers and colour you in if things go right we can frame it and put you on a wall and it's so hard to say it but i've been here before now i'll surrender up my heart and swap it for yours i'm out of touch i'm out of love i'll pick you up when you're getting down and out of all these things i've done i think i love you better now i'm out of sight i'm out of mind i'll do it all for you in time and out of all these things i've done i think i love you better now don't hold me down i think the braces are breaking and it's more than i can take pre and it's dark in a cold december but i've got you to keep me warm if you're broken i'll mend you and keep you sheltered from the storm that's raging on now i'm out of touch i'm out of love i'll pick you up when you're getting down and out of all these things i've done i think i love you better now i'm out of sight i'm out of mind i'll do it all for you in time and out of all these things i've done i think i love you better now i'm out of touch i'm out of love i'll pick you up when you're getting down and out of all these things i've done i will love you better now

bibia be ye ye i lost my shoes last night i don't know where i put my keys i was tired and fell asleep beneath an oak tree i bet my mother's proud of me from each scar upon my knuckle and each graze upon my knee and all i know is i got a cab and then threw up on his car seat he kicked me out and then i walked in the rain i tell myself in every way i won't be doing this again and tomorrow's a brand new day someone told me always say what's on your mind and i am only being honest with you i i get lonely and make mistakes from time to time se enioma enko ye bibia be ye ye bibia be ye ye ye ye bibia be ye ye i remember less and less and mostly things that i regret in my phone are several texts from girls i've never met and in the pocket of my jeans are only coins and broken dreams my heart is breaking at the seams and i'm coming apart now now things are looking up i'll find my shoes right next to the oak tree and i'll get a bus straight into town and spend the afternoon looking around for the things that i left on the ground and say you're with me tomorrow's a brand new day someone told me always say what's on your mind and i am only being honest with you i i get lonely and make mistakes from time to time se enioma enko ye bibia be ye ye bibia be ye ye ye ye bibia be ye ye wo nooma be ye ye wo nooma maaaa ye be ye ye wo nooma be ye ye wo nooma maaaa ye be ye ye wo nooma be ye ye wo nooma maaaa ye be ye ye someone told me always say what's on your mind and i am only being honest with you i i get lonely and make mistakes from time to time se enioma enko ye bibia be ye ye bibia be ye ye ye ye bibia be ye ye wo nooma be ye ye wo nooma maaaa ye be ye ye bibia be ye ye ye ye ye ye wo nooma be ye ye wo nooma maaaa ye be ye ye bibia be ye ye wo nooma be ye ye wo nooma maaaa ye be ye ye wo nooma be ye ye wo nooma maaaa ye be ye ye

## **Hearts Don't Break Around Here**

**by Ed Sheeran**

she is the sweetest thing that i know should see the way she holds me when the lights go low shakes my soul like a pothole every time took my heart upon a one way trip guess she went wandering off with it and unlike most women i know this one will bring it back whole daisies daisies perched upon your forehead oh my baby lately i know that every night i'll kiss you you'll say in my ear oh we're in love aren't we hands in your hair fingers and thumbs baby i feel safe when you're holding me near love the way that you conquer your fear you know hearts don't break around here oh yeah yeah yeah yeahyeah yeahyeah she is the river flow in orwell and tin wind chimes used for doorbells fields and trees and her smell fill my lungs spend my summertime beside her and the rest of the year the same she is the flint that sparks the lighter and the fuel that will hold the flame oh roses roses laid upon your bed spread oh my all this all this i know but every night i'll kiss you you'll say in my ear oh we're in love aren't we hands in your hair fingers and thumbs baby i feel safe when you're holding me near love the way that you conquer your fear you know hearts don't break around here oh yeah yeah yeah well i found love hidden inside the arms of the woman i know she is the lighthouse in the night that will safely guide me home and i'm not scared of passing over or the thought of growing old 'cause from now until i go every night i kiss you you'll say in my ear oh we're in love aren't we hands in your hair fingers and thumbs baby i feel safe when you're holding me near love the way that you conquer your fear you know hearts don't break around here oh yeah yeah every night i kiss you you'll say in my ear oh we're in love aren't we hands in your hair fingers and thumbs baby i feel safe when you're holding me near love the way that you conquer your fear you know hearts don't break around here yeah yeah yeah you know hearts don't break around here oh yeah yeah yeah

i've been spinning now for time couple women by my side i got sinning on my mind sipping on red wine i've been sitting here for ages ripping out the pages how'd i get so faded how'd i get so faded pre oh no no don't leave me lonely now if you loved me how'd you never learn ooh coloured crimson in my eyes one or two could free my mind this is how it ends i feel the chemicals burn in my bloodstream fading out again i feel the chemicals burn in my bloodstream so tell me when it kicks in tell me when it kicks in i've been looking for a lover thought i'd find her in a bottle god make me another one i'll be feeling this tomorrow lord forgive me for the things i've done i was never meant to hurt no one i saw scars upon a broken hearted lover pre oh no no don't leave me lonely now if you loved me how'd you never learn ooh coloured crimson in my eyes one or two could free my mind this is how it ends i feel the chemicals burn in my bloodstream fading out again i feel the chemicals burn in my bloodstream so tell me when it kicks in well tell me when it kicks in tell me when it kicks in collision all the voices in my mind calling out across the line all the voices in my mind calling out across the line all the voices in my mind calling out across the line all the voices in my mind calling out across the line all the voices in my mind calling out across the line all the voices in my mind tell me when it kicks in calling out across the line and i saw scars upon her all the voices in my mind tell me when it kicks in calling out across the line brokenhearted all the voices in my mind tell me when it kicks in calling out across the line brokenhearted all the voices in my mind tell me when it kicks in calling out across the line brokenhearted all the voices in my mind tell me when it kicks in calling out across the line brokenhearted all the voices in my mind tell me when it kicks in calling out across the line brokenhearted so tell me when it kicks in and i saw scars upon her tell me when it kicks in brokenhearted tell me when it kicks in and i saw scars upon her tell me when it kicks in brokenhearted

## **Afire Love**

## **by Ed Sheeran**

things were all good yesterday and then the devil took your memory and if you fell to your death today i hope that heaven is your resting place i heard the doctors put your chest in pain but then that could've been the medicine and now you're lying in the bed again either way i'll cry with the rest of them pre and my father told me son it's not his fault he doesn't know your face and you're not the only one although my grandma used to say that he used to sing darling hold me in your arms the way you did last night and we'll lie inside for a little while here oh i could look into your eyes until the sun comes up and we're wrapped in light and life and love put your open lips on mine and slowly let them shut for they're designed to be together oh with your body next to mine our hearts will beat as one and we're set alight we're afire love oh love and things were all good yesterday but then the devil took your breath away and now we're left here in the pain black suit black tie standing in the rain and now my family is one again stapled together with the strangers and a friend came to my mind i should paint it with a pen six years old i remember when pre and my father told me son it's not his fault he doesn't know your face and you're not the only one although my grandma used to say that he used to sing darling hold me in your arms the way you did last night and we'll lie inside for a little while here oh i could look into your eyes until the sun comes up and we're wrapped in light and life and love put your open lips on mine and slowly let them shut for they're designed to be together oh with your body next to mine our hearts will beat as one and we're set alight we're afire love oh love and my father and all of my family rise from their seats to sing hallelujah and my brother and all of my family rise from their seats to sing hallelujah and my brother and all of my family rise from their seats to sing hallelujah and all my brother and my sisters and my father and all of my family rise from their seats to sing hallelujah

## **Take It Back**

**by Ed Sheeran**

i'm not a rapper i'm a singer with a flow i've got a habit for spitting quicker lyrics you know you'll find me ripping the writtens out of the pages they sit in i never want to get bitten 'cause plagiarism is hidden watch how i sit on the rhythm prisoner with the vision signed to a label but didn't listen to any criticism thought you knew but you didn't so perk your ears up and listen studio is a system and you could say that i'm driven and now it's onto the next saga we drink the best lager i'll never try to win you over like your stepfather i'll do my own thing now and get respect after and i'm avoiding the 'caine like it was get carter for four years i never had a place to stay but it's safe to say that it kept me grounded like a paperweight at 6 years old yeah i moved out of my home i was macy gray i tried to say goodbye and i choked and went from sleeping at a subway station to sleeping with a movie star and adding to the population not my imagination i don't wanna relax would it hurt your reputation if i put it on wax i'll take it back now hook mmm come on and take it back love come on and take it back for us don't you fade into the back love no i take it back with the rhythm and blues with my rap pack i'll be singing the news tryna act like jack black when i bring it to school i'll make a beat with my feet by just hitting a loop bringing the lyrics to prove that i can fit in these shoes i'll give you the truth through the vocal booth and stars burst out on the scene like an opal fruit they try to take aim like beckham when he goes to shoot but then again that's what they're supposed to do and i'm supposed to be calm i tattooed the lyrics onto my arm whispering everything that happens is from now on i'll be ready to start again by the end of the song

and still they're claiming that i handle it wrong but then i've never had an enemy except the nme but i'll be selling twice as many copies as their magazines'll ever be with only spectacles ahead of me and festival fees are healthier than a dalmatian on pedigree singing for the masses rubber dinghy rapids i keep this rapping a habit and keep on fashioning magic i'm battling for respect and i don't know if i'll have it this song's from the heart covered the planet i'll take it back now hook mmm come on and take it back love come on and take it back for us don't you fade into the back love no i'll take it back now now i don't ever wanna be perfect 'cause i'm a singer that you never wanna see shirtless and i accept the fact that someone's gotta win worstdressed taking my first steps into the scene giving me focus putting on a brave face like timothy dalton considering a name change thinking it was hopeless rhyming over recordings avoiding tradition 'cause every day some lyrics and a melody could be written now absence can make your heart ache but drinking absinthe can change your mind state vividly need to let my liver be and i'll say it again living life on the edge with a closed handful of friends it's good advice from the man who took his life on the road with me and i hope to see him blowing up globally 'cause that's how it's supposed to be i'm screaming out vocally it might seem totally impossible achieving life's dreams but but i just write schemes i'm never having a stylist giving me tight jeans madison square garden is where i might be but more likely you'll find me in the back room of a dive bar with my mates having a pint with mcdaid discussing records we made and every single second knowing that we'll never betray the way we were raised remembering our background sat down that's how we plan it out it's time to take it back now hook mmm come on and take it back love come on and take it back for us don't you fade into the back love no mmm come on and take it back love come on and take it back for us don't you fade into the back love no 4 my dreams keep me awake at night written in rhyme till i deliver the hype am i just living a lie with this you must know that the numbers just sold will keep me going through the tough times dream with me we forget 90 percent of it when we wake but the other 0 percent it never fades dreaming dreams of daytoday goals stay awake loads tried to make the cut like the paper with a razor blade oh never give up just remember just to hold out more a couple years ago i couldn't just control that thought you'd find me busking on the street when it was cold outdoors now i'm sweating on the stage of a soldout tour writing love songs for the sake of it never to make a hit you can't fake talent and work ethic just to make it quick i'm not a rapper i'm a singer i just take the piss and most of these other guys are kids that pose his little sister has to babysit that's just the way it is dreams are your own just set your goals and have the upmost faith in it tread your own path you'll never make it as a follower you'll never know where you will go or you will be tomorrow igh

**by Ed Sheeran**

i found your hairband on my bedroom floor the only evidence that you've been here before and i don't get waves of missing you anymore they're more like tsunami tides in my eyes never getting dry so i get high smoke away the days never sleep with the light on weeks pass in the blink of an eye and i'm still drunk at the end of the night i don't drink like everybody else i do it to forget things about myself stumble and fall with head spin i've got my mind's with you but my heart's just not pre so am i close to you anymore if it's over and there's no chance that we'll work it out that's why you and i ended over uni and i said that's fine but you're the only one that knows i lied you and i ended over uni and i said that's fine but you're the only one that knows i lied everybody said we'd be together forever but i know that i never

wanna settle down come around break up the love like lego now never wanna turn into another like you sleep with my thoughts dance with my views everythings great not everythings sure but you live in your halls and i live in a tour bus now i'm in position to be another stalker like every thing i say seems to always sound awkward like our last kiss it was perfect we were nervous on the surface and i'm always saying everyday that it was worth it pain is only relevant if it still hurts i forget like an elephant or we can use a sedative and go back to the day we fell in love just on our first kiss pre so am i close to you anymore if it's over and there's no chance that we'll work it out oh you and i ended over uni and i said that's fine but you're the only one that knows i lied you and i ended over uni and i said that's fine but you're the only one that knows i lied because if i was gonna go somewhere i'd be there by now and maybe i can let myself down wooahh and thinking i am unaware i keep my feet on the ground keep looking around to make sure i'm not the only one to feel low because if you want i'll take you in my arms and keep you sheltered from all that i've done wrong and i'll know you'll say that i'm the only one but i know god made another one of me to love you better than i ever will 'cause you and i ended over uni and i said that's fine but you're the only one that knows i lied you and i ended over uni and i said that's fine but you're the only one that knows i lied

**Nina**

**by Ed Sheeran**

i met you when i was a teen but then you were one as well and i could play a just like ringing a bell  
sometimes i wonder in any other summer could you have been my part time lover to me listening to

stevie wonder under the covers where we used to lay and re stacks is what the speakers played i'd be on tour almost every day when i was home up in my flat is where we used to stay just watching a dvd smoking illegal weed getting high as two kites when we needed to breathe we used each other's air just for the people to see and stay up all night like when we needed to sleep we go anywhere our minds would take us and i'll say you are beautiful without your makeup and you dont even need to worry about your weight cause we can all be loved the way that god made us and time's the only reason that we could break up cause you would always tell me i'm away too much distance is relative to the time that it takes to get on a plane or make a mistake so say it again oh nina you should go nina cause i ain't never coming home nina oh won't you leave me now and i've been living on the road nina but then again you should know nina cause thats you and me both nina oh won't you leave me now now and every weekend in the winter you'd be wearing my hoodie with drawstrings pulled tight to keep your face from the cold taking day trips to the local where we'd eat on our own cause every day when i was away we'd only speak on the phone watching blue planet creating new habits acting as if we were two rabbits and then you'd vanish back to the burrow with all the celtics i disappear you call me selfish i understand but i cant help it i put my job over everything except my family and friends but you'll be in between forever so i guess we'll have to take a step back overlook the situation cause mixing business and feelings will only lead to complications and i'm not saying we should be taking a break just reevaluate quick before we make a mistake and its too late so we can either deal with the pain or wait to get on a plane but in a day we'll have to say it again oh nina you should go nina cause i ain't never coming home nina oh won't you leave me now and i've been living on the road nina but then again you should know nina cause thats you and me both nina oh won't you leave me now now love will come and love will go but you can't make it on your own sing that song go oh won't you leave me now people grow and fall apart but you can't mend your broken heart take it back go oh won't you leave me now extended oh nina you should go nina love will come and love will go cause i ain't never coming home nina but you can make it on your own oh won't you leave me now sing that song go oh won't you leave me now and i've been living on the road nina people grow and fall apart but then again you should know nina but you can mend your broken heart cause thats you and me both nina take it back go oh won't you leave me now oh won't you leave me now now oh nina you should go nina love will come and love will go cause i ain't never coming home nina but you can make it on your own oh won't you leave me now sing that song go oh won't you leave me now and i've been living on the road nina people grow and fall apart but then again you should know nina but you can mend your broken heart cause thats you and me both nina oh won't you leave me now now produced by jake gosling

## **Small Bump**

**by Ed Sheeran**

you're just a small bump unborn in four months you're brought to life you might be left with my hair but you'll have your mother's eyes i'll hold your body in my hands be as gentle as i can but for now you're a scan of my unmade plans a small bump in four months you're brought to life pre i'll whisper quietly i'll give you nothing but truth if you're not inside me i'll put my future in you you are my one and only and you can wrap your fingers 'round my thumb and hold me tight oh you are my one and only you can wrap your fingers 'round my thumb and hold me tight and you'll be all right you're just a small bump unknown you'll grow into your skin with a smile like hers and a dimple beneath your chin finger nails the

size of a half grain of rice and eyelids closed to be soon opened wide a small bump in four months you'll open your eyes pre and i'll hold you tightly i'll tell you nothing but truth if you're not inside me i'll put my future in you you are my one and only and you can wrap your fingers round my thumb and hold me tight oh you are my one and only you can wrap your fingers round my thumb and hold me tight and you'll be all right you can lie with me with your tiny feet when you're half asleep i'll leave you be right in front of me for a couple weeks so i can keep you safe 'cause you are my one and only you can wrap your fingers round my thumb and hold me tight you are my one and only you can wrap your fingers round my thumb and hold me tight and you'll be all right you were just a small bump unborn just four months then torn from life maybe you were needed up there but we're still unaware as why

## **Wake Me Up**

**by Ed Sheeran**

i should ink my skin with your name and take my passport out again and just replace it see i could do without a tan on my left hand where my fourth finger meets my knuckle and i should run you a hot bath fill it up with bubbles 'cause maybe you're loveable maybe you're my snowflake and your eyes turn from green to gray and in the winter i'll hold you in a cold place and you should never cut your hair 'cause i love the way you flick it off your shoulder hook and you will never know just how beautiful you are to me but maybe i'm just in love when you wake me up and would you ever feel guilty if you did the same to me could you make me a cup of tea to open my eyes in the right way and i know you love shrek 'cause we've watched it times and maybe you're hoping for a fairytale too and if your dvd breaks today you should've got a vcr because i've never owned a bluray true say i know i've always been shit at computer games and your brother always beats me and if i lost i go across and chuck all the controllers at the tv and then you laugh at me and be asking me if i'm gonna be home next week and then you lie with me 'til i fall asleep and flutter eye lash on my cheek between the sheets hook and you will never know just how beautiful you are to me but maybe i'm just in love when you wake me up and i think you hate the smell of smoke you always try and get me to stop but you drink as much as me and i get drunk a lot so ill take you to the beach and walk along the sand and i'll make you a heart pendant with a pebble held in my hand and i'll carve it like this necklace so the heart falls where your chest is now a piece of me is a piece of the beach and it falls just where it needs to be and rests peacefully so you just need to breathe to feel my heart against yours now against yours now cos maybe i'm just in love when you wake me up or maybe i'm just in love when you wake me up maybe i fell in love when you woke me up

## **All of the Stars**

**by Ed Sheeran**

it's just another night and i'm staring at the moon i saw a shooting star and thought of you i sang a lullaby by the waterside and knew if you were here i'd sing to you you're on the other side as the skyline splits in two i'm miles away from seeing you but i can see the stars from america i wondered do you see

them too so open your eyes and see the way our horizons meet and all of the lights will lead into the night with me and i know these scars will bleed but both of our hearts believe all of these stars will guide us home i can hear your heart on the radio beat they're playing chasing cars and i thought of us back to the time you were lying next to me i looked across and fell in love so i took your hand back through lamp lit streets i knew everything led back to you so can you see the stars over amsterdam you're the song my heart is beating to so open your eyes and see the way our horizons meet and all of the lights will lead into the night with me and i know these scars will bleed but both of our hearts believe all of these stars will guide us home and oh i know and oh i know and oh i can see the stars from america

## **The Man**

**by Ed Sheeran**

now i don't wanna hate you just wish you'd never gone for the man and waited two weeks at least before you let him take you i stayed true i kind of knew you liked the dude from private school he's waiting for the time to move i knew he had his eyes on you he's not the right guy for you don't hate me 'cause i write the truth no i would never lie to you but it was never fine to lose you and what a way to find out it never came from my mouth you never changed your mind but you were just afraid to mind out but fuck it i won't be changing the subject i love it i'll make your little secret public it's nothing i'm just disgusted with the skeletons you sleep with in your closet to get back at me trapped and i'm lacking sleep fact is you're mad at me because i backtrack so casually you're practically my family if we married then i'll guess you'd have to be but tragically our love just lost the will to live but would i kill to give it one more shot i think not i don't love you baby i don't need you baby i don't want you no anymore i don't love you baby i don't need you baby i don't wanna love you no anymore recently i tend to zone out up in my headphones to holocene you promised your body but i'm away so much i stay more celibate than in a monastery i'm not cut out for life on the road 'cause i didn't know i'd miss you this much and at the time we'd just go so sue me i guess i'm not the man that you need ever since you went to uni i've been sofa surfing with a rucksack full of less cash and i guess that could get bad but when i broke the industry that's when i broke your heart i was supposed to chart and celebrate but good things are over fast i know it's hard to deal with and see this i tend to turn you off and switch on my professional features then i turn the music off and all i'm left with is to pick up my personal pieces jesus i never really want to believe this got advice from my dad and he told me that family is all i'll ever have and need i guess i'm unaware of it success is nothing if you have no one there left to share it with i don't love you baby i don't need you baby i don't want you no anymore i don't love you baby i don't need you baby i don't wanna love you no anymore and since you left i've given up my days off it's what i need to stay strong i know you have a day job but mine is 47 i feel like writing a book i guess i lied in the hook 'cause i still love you and i need you by my side if i could the irony is if my career in music didn't exist in 6 years yeah you'd probably be my wife with a kid i'm frightened to think if i depend on cider and drink and lighting a spliff i fall into a spiral and it's just hiding my misguiding thoughts that i'm trying to kill and i'd be writing my will before i'm 7 i'll die from a thrill go down in history as just a wasted talent can i face the challenge or did i make a mistake erasing alice it's only therapy my thoughts just get ahead of me eventually i'll be fine i know that it was never meant to be either way i guess i'm not prepared but i'll say this these things happen for a reason and you can't change shit take my apology i'm sorry for the honesty but i had to

get this off my chest i don't love you baby i don't need you baby i don't want you no anymore i don't love you baby i don't need you baby i don't wanna love you no anymore

## **Drunk**

**by Ed Sheeran**

i wanna be drunk when i wake up on the right side of the wrong bed and never an excuse i made up tell you the truth i hate what didn't kill me it never made me stronger at all love will scar your makeup lip sticks to me so now i'll maybe lean back there i'm sat here wishing i was sober i know i'll never hold you like i used to pre but our house gets cold when you cut the heating without you to hold i'll be freezing can't rely on my heart to beat it cause you take part of it every evening take words out of my mouth just from breathing replace with phrases like 'when you leaving me' should i should i maybe i'll get drunk again i'll be drunk again i'll be drunk again to feel a little love i wanna hold your heart in both hands not watch you fizzle at the bottom of a coke can and i've got no plans for the weekend so should we speak then keep it between friends though i know you'll never love me like you used to there may be other people like us will see the flicker of the clipper when they light up flames just create us burns don't heal like before you don't hold me anymore pre on cold days cold plays out like the band's name i know i can't heal things with a handshake you know i can't change as i began saying you cut me wide open like a landscape open bottles of beer but never champagne to applaud you with the sound that my hands make should i should i maybe i'll get drunk again i'll be drunk again i'll be drunk again to feel a little love all by myself i'm here again all by myself you know i'll never change all by myself all by myself i'm just drunk again i'll be drunk again i'll be drunk again to feel a little love

## **Runaway**

**by Ed Sheeran**

and one of these days i might just show that put my home in a suitcase tie both shoe laces and hope that things change but for now i'll leave town with a backpack on my shoulder i love him from my skin to my bones but i don't wanna live in his home theres nothing to say 'cause he knows i'll just runaway and be on my own

## **Little Lady**

**by Ed Sheeran**

mikill pane listen little lady this is just the worst way to spend your birthday it's 0 degrees thursday you  
work late you was with a perv making dirty fake love in his mercedes lady the word rape sums up  
events that take place every night you wanna get up but you know your legs will ache if you try and you  
remember that your punter went crazy last night you drag yourself to the mirror to check your face then  
you cry forget the visit to the clinic you were booked in for you'll make a trip to the whittington where  
they'll look at your jaw they'll be inquisitive and ask about your business for sure they'll know you're  
fibbing if you tell them you got hit by a door but young woman the pimp sees you as nothing but a dumb  
hooker medical attention could be fatal cause the cunt wouldn't ever let a doctor near someone that's  
getting dough for him cause next you got poxy authorities sticking their noses in ed sheeran she's just  
under the upper hand and goes mad for a couple grams and she don't wanna go outside tonight 'cause  
in a pipe she'll fly to the motherland and sell love to another man it's too cold outside for angels to fly for  
angels to fly mikill pane little lady your mind you've made up your injuries you can't hide with makeup  
you need some medical advice you make up a little lie to say just in case the doc opens his eyes and  
don't decide to play dumb with any luck you'll see the same dude who stitched your top lip last year  
when your pimp just lost it he wouldn't recognise you if you stared him in the face anyway 'cause all the  
heroin is making you age but you're a heroine for taking the strain of being a prostitute and punching  
bag the funds you have left go where your from using moneygram mother had to get you out the  
motherland to study that was all she struggled to have a single daughter with the upper hand little does  
she know you're never coming back she put you in her brother's hands only for him to formulate  
another plan he's the fucking cause of your appalling state this summer fancy that you came to london  
to get pimped by your uncle damn ed sheeran she's just under the upper hand and goes mad for a  
couple grams and she don't wanna go outside tonight 'cause in a pipe she'll fly to the motherland and  
sell love to another man it's too cold outside for angels to fly now an angel will die covered in white with  
losed eyes and hoping for a better life this time now we'll fade out tonight straight down the line mikill  
pane little lady you're trembling with fear your skinny frame kinda resembles a deer you're sitting facing  
the detective oh dear the meddling nurse couldn't just leave it she's only gone and made it much worse  
calling police in she'll never know the gravity of the damage she's caused you're causing scandal going  
mad in the ward now the cop is trying to calm you telling you he won't let no one harm you the same  
question he keeps trying to ask you who you working for he's talking to you like you're worth more than  
a dirty whore you're having a conversation you could be murdered for you're learning more about  
exactly why you need to help bring him or her to court he's kicking knowledge you ain't ever heard  
before just before he leaves he reassures you that he knows that it's hard he underlines a mobile  
number you can phone on his card begs you to use it he's useless if you're gonna be stupid 'cause an  
answer hasn't come from your bruised lips you're on your own you've gotta go and give your pimp what

you owe you reach your door and then it dawns that you've been followed home before you turn around you feel a cold blade on your throat and then a voice says where you been bitch i wanna know no prizes for guessing who it is resistance would be foolishness you open the front door he boots you in there's something new in him he's silent now that fills you with terror get your alibi straight you could be killed for an error he towers over you the sixinch knife catches the sunlight at this point your life flashes before your eyes your handbag's dropped and all the contents are all over the floor despite the mess there's only one thing that has caught his eye and in the moment of rage he brutally murders his niece and dumps her body in the boot of his mercs in the street little lady left this earth in the worst way all because she got a card on her thirteenth birthday ed sheeran and we're all under the upper hand and going mad for a couple grams and we don't wanna go outside tonight 'cause in a pipe she'll fly to the motherland and sell love to another man it's too cold outside for angels to fly for angels to fly and fly fly for angels to fly to fly to fly and angels to die

**by Ed Sheeran**

when the sins of my father weigh down in my soul and the pain of my mother will not let me go well i know there can come fire from the sky to refine the purest of kings and even though i know this fire brings me pain even so and just the same make it rain make it rain down lord make it rain oh make it rain make it rain make it rain down lord make it rain make it rain well a seed needs the water 'fore it grows out of the ground but it just keeps on getting hard hunger more profound well i know they can't count tears from the eye but they may as well all be in vain and even though i know these tears come with pain even so and just the same make it rain make it rain down lord make it rain oh make it rain

make it rain make it rain down lord just make it rain make it rain well the seas are full of water stops by the shore it's like the riches of grandeur oh no never reach the poor and let the clouds fill with thunderous applause and let lightning be the veins but fill the sky with all that they can draw when it's time to make a change extended make it rain make it rain down lord make it rain make it rain make it rain make it rain down lord make it rain oh make it rain make it rain make it rain make it rain oh make it rain make it rain make it rain down lord make it rain oh make it rain make it rain make it rain make it rain make it rain make it rain make it rain make it rain oh make it rain

## **Eraser (Extended F64 Version)**

**by Ed Sheeran**

i was born inside a small town i've lost that state of mind learned to sing inside the lord's house but stopped at the age of nine i forget when i get awards now the wave i had to ride the paving stones i played upon that kept me on the grind so blame it on the pain that blessed me with the life friends and family filled with envy when they should be filled with pride and when the world's against me is when i really come alive and every day that satan tempts me i try to take it in my stride you know that i've got whisky with white lines and smoke in my lungs i think life has got to the point i know without it's no fun i need to get in the right mind and clear myself up instead i look in the mirror questioning what i've become i guess it's a stereotypical day for someone like me without a ninetofive job or a uni degree to be caught up in the trappings of the industry they showed me the locked doors i find another use of key and you'll see i'm well aware of certain things that will destroy a man like me but with that said give me one more higher another one to take the sting away i am happy on my own so here i'll stay save your lovin' arms for a rainy day and i'll find comfort in my pain eraser i used to think that nothing could be better than touring the world with my songs i chased the picture perfect life i think they painted it wrong i think that money is the root of evil and fame is hell relationships and hearts you fixed they break as well and ain't nobody wanna see you down in the dumps because you're living your dream man this shit should be fun please know that i'm not trying to preach like i'm reverend run i beg you don't be disappointed with the man i've become our conversations with my father on the a4 age twelve telling me i've gotta chase those dreams now i'm playing for the people dad and they know me with my beat and small wearing the same old jeans wembley stadium crowd two hundred and forty thou i may have grown up but i hope that damien's proud and to the next generation inspiration's allowed the world may be filled with hate but keep erasing it now somehow i'm well aware of certain things that will befall a man like me but with that said give me one more higher another one to take the sting away i am happy on my own so here i'll stay save your lovin' arms for a rainy day and i'll find comfort in my pain eraser and i'll find comfort in my pain eraser and i'll find comfort in my pain eraser i woke up this morning lookin' in the mirror thinkin' to myself that i should probably be thinner the industry told me to look like them but i found my happiness in fried food for my dinner i wish that she could have been my first time and i wish that i'd never took that first line and i wish that every word in this rhymed but forgive me if it doesn't i wish that i could make peace with my older cousin i wish he didn't think that it was me when it wasn't i wish i didn't love it when i'm high and my face feels buzzin' and the taste stays underneath my tongue and wish that i had known what to do as a youngen wish i hadn't dropped out of school and missed every single party with that hardly matters now man does it wish i had an answer to everything but fuck it i wish creatin' art didn't come with a budget but while we're on the subject i wish my private

life would have never gone public but that's the sacrifice that we make spendin' my whole time high livin' life away i'm singin' this is how we're livin' down here sittin' on the edge lookin' out without fear yeah we got drama but you know we don't care i wanna see you sing it put your hands in the air one wish i'm singin' this is how we're livin' down here sittin' on the edge lookin' out without fear yeah we got drama but you know we don't care i wanna see you sing it put your hands in the air one wish 4 i wish my family and friends they stay healthy i wish that love was a currency and the whole world was wealthy i found myself late night wishin' on a star everyday i wish i'd never broken a heart uh and i wish i'd never run through every woman that i loved that kept my life and what it's come to i wish i was the role model you looked up to if i told my fans the things i did they'd say fuck you i wish i was home more i wish my team could see their kids on their birthdays but yo we're on tour and i wish i'd grown more wish i told more people that i love 'em but it's in the music that i'm known for and i wish he never got cancer and if i smoke a pack a day well does that make me a wanker oh yes i guess it does and we're still stressing 'cause every day this cocaine gets the best of us usin' my balance on razor blades spendin' my whole time high wishing life would wait i'm singin' this is how we're livin' down here sittin' on the edge lookin' out without fear yeah we got drama but you know we don't care i wanna see you sing it put your hands in the air one wish i'm singin' this is how we're livin' down here sittin' on the edge lookin' out without fear yeah we got drama but you know we don't care i wanna see you sing it put your hands in the air one wish 5 i'm using jumpers for goalposts cigarettes for throat coat mum sayin' don't smoke no i don't listen i got love for a ghost note shows on the gold coast people that i don't know share the same vision i find truth in the hard times and words that aren't mine tryin' to find a love with a compatible star sign sometimes i can't write sentences can't rhyme starin' at my notepad quick i'm tryin' to find mine shit quick before i hit it again surrounded in the industry by all these ignorant men and who knew that i'd be paid just to pick up a pen just let me hit the studio when we can rip it again i'm a competitive dick with an adrenaline kick my daddy told me work hard and you can never be shit i've seen all my heroes dethroned except my dad set back here reminiscing 'bout the times we had one wish

## **The Parting Glass**

**by Ed Sheeran**

of all the money that e'er i had i spent it in good company and all the harm that e'er i've done alas it was to none but me and all i've done for want of wit to memory now i can't recall so fill to me the parting glass good night and joy be with you all of all the comrades that e'er i had they are sorry for my going away and all the sweethearts that e'er i had they would wish me one more day to stay but since it falls unto my lot that i should rise and you should not i'll gently rise and i'll softly call good night and joy be with you all a man may drink and not be drunk a man may fight and not be slain a man may court a pretty girl and perhaps be welcomed back again but since it has so ought to be by a time to rise and a time to fall come fill to me the parting glass good night and joy be with you all good night and joy be with you all

## **Hands of Gold (Game of Thrones)**

**by Ed Sheeran**

verse he rode through the streets of the city down from his hill on high o'er the wynds and the steps and the cobble he rode to a woman's sigh for she was his secret treasure she was his shame and his bliss and a chain and a keep are nothing compared to a woman's kiss refrain for hands of gold are always cold but a woman's hands are warm for hands of gold are always cold but a woman's hands are

## **Friends**

**by Ed Sheeran**

we're not no we're not friends nor have we ever been we just try to keep those secrets in our lives and if  
they find out will it all go wrong and heaven knows no one wants it to pre so i could take the back road  
but your eyes'll lead me straight back home and if you know me like i know you you should love me you  
should know friends just sleep in another bed and friends don't treat me like you do well i know that  
there's a limit to everything but my friends won't love me like you no my friends won't love me like you  
we're not friends we could be anything if we tried to keep those secrets safe no one will find out if it all  
went wrong they'll never know what we've been through pre so i could take the back road but your  
eyes'll lead me straight back home and if you know me like i know you you should love me you should  
know friends just sleep in another bed and friends don't treat me like you do well i know that there's a  
limit to everything but my friends won't love me like you no my friends won't love me like you but then  
again if we're not friends someone else might love you too and then again if we're not friends there'd be  
nothing i could do and that's why friends should sleep in other beds and friends shouldn't kiss me like  
you do and i know that there's a limit to everything but my friends won't love me like you no my friends  
won't love me like you do oh my friends will never love me like you

with no shepherd is a vulnerable game i can live without heart without love but i do need a name pre  
father do you burn if your hand is in fire does your head spin with rage when fooled by the liars should i  
drop to my knees scream your name out in vain tell me good teacher are we all just insane king of the  
kings do you feel any pain king of the kings do you feel any pain king of the kings do you feel any pain

## **You Need Me, I Don't Need You (Remix)**

**by Ed Sheeran**

ed sheeran i still got a rucksack with the old clothes i rap with cold flows i'm back with the most jokes in  
fact you don't know on tracks i throw blows to make my punchlines relevant if you can't keep up you'll  
get none you're celibate my flow's developing skin lacks the melanin give me a shot of adrenaline and i  
get it in i do it for the hell of it ever since i hit the mainstream with the a team i seem to sell a bit i took  
what held me back with the women and then i packaged the image put in some content and i then i sold  
it back as a gimmick the fact is this i'll end up dating actresses wake up on dirty mattresses i think i'll  
need to practice this but i make shit happen call me a laxative world's on my shoulders i don't even  
know what atlas is hard bars sharp like a cactus is i'm back to rapping back to back cause i've been  
practicing i'm back to sing this hook ed sheeran you need me man i dont need you you need me man i  
dont need you you need me man i dont need you at all x you need me wretch i said you need man i  
don't need not none of ya unorthodox runner up in my own gear like i'm stepping on a double clutch no  
brakes cut them up the tyres stay screeching now i've found out being odd ain't even i qualified for  
everything long straight season it's not a dilemma king got a straight queening you are what you eat  
that's something to believe in mc with the mic is mc dinner time now i'm feeling gassed like mc give me  
light i didn't even have to do a disco rap i bet i still end up with a sisqó plaque this is what happens  
when your gift is talent and all you imagined exists imagine i never drop shit and i came from the back  
end now i've got the game in my hand i'mma smash it hook devlin you need me but i dont need you  
devlin ed and lyrically more capable to break 'em all i won't have to amputate a lower limb to make  
them fall like autumn check my post mortem the game passed away upon the day i came and killed it  
for this fortune i don't mean money i mean luck but now the clock's aviated everybody's time's up  
nothing's what i had and everything's what i gave like a sprinter near the finish line fighting for his place  
keep your diamonds and your chains i can walk for any manner any time of day and stay safe cause i  
get respected while they get detested tell the truth there ain't nobody that done what devs did if you ain't  
on the tune or eminem or 5'9 you ain't competition just a fish you're tryna bite a line hook

# The City

by Ed Sheeran

this city never sleeps i hear the people walk by when it's late sirens bleed through my windowsill i can't  
close my eyes don't control what i'm into this tower is alive the lights that blind keep me awake hood up  
and lace untied sleep fills my mind can't control what i'm into pre london calls me a stranger a traveller  
this is now my home my home woo i'm burning on the back street stuck here sitting in the backseat i'm  
blazing on the street what i do isn't up to you and if the city never sleeps then that makes two the  
pavement is my friend it will take me where i need to go i find it trips me up and puts me down this is not  
what i'm used to the shop across the road fulfills my needs and gives me company when i need it  
voices speak through my walls i don't think i'm gonna make it past tomorrow pre london calls me a  
stranger a traveller this is now my home my home woo i'm burning on the back street stuck here sitting

in the backseat i'm blazing on the street what i do isn't up to you and if the city never sleeps then that makes two and my lungs hurt and my ears bled with the sound of the city life echoed in my head do i need this to keep me alive the traffic stops and starts but i need to move along pre london calls me a stranger this is not my home home i'm burning on the back street stuck here sitting in the backseat i'm blazing on the street what i do isn't up to you and if the city never sleeps then that makes two

## New York

**by Ed Sheeran**

ooh ooh whoa oh oh oh now now five drinks in on friday night we only came to dry your eyes and get you out of your room now this bar has closed it's doors i found my hand is holding yours do you wanna go home so soon or maybe we should take a ride through the night and sing along to every song that's on the radio in the back of a taxi cab in brooklyn oh no no the sun could rise burning all the street lamps out at am so dj play it again until the night turns into morning you'll be in my arms we'll just keep driving along the boulevard and if i kissed you darling please don't be alarmed it's just the start of everything if you want a new love in new york yesterday gave me a call stressing out about it all said the world is moving too fast and you don't know where to begin cause you've spent a lifetime fitting in only to wind up on the other side by yourself and every day screaming out to all the people that you used to know from a window that looks upon manhattan skyline it's just the way that life goes and you hear it in every song you know so dj play it again until the night turns into morning you'll be in my arms we'll just keep driving along the boulevard and if i kissed you darling please don't be alarmed it's just the start of

everything if you want a new life in new york and every song that plays is just like the day you had and it's okay to cry but i'm saying maybe that's a waste of water you know i'm here for you in the back of the taxi cab tonight in new york it's just reached the morning and you're still in my arms and we've stopped driving down the boulevard and i just kissed you darling i hope you weren't alarmed it's just the start of everything that you want a new love in new york

## **Don't (Rick Ross Remix)**

**by Ed Sheeran**

rick ross hit the corner burnin' rubber like a stunt driver burning marijuana bitch i'm a bit liver gotta keep a bitch in check microphone check killed your boy's career still no arrest yet snow white yacht in my red yeezys ed sheeran got the city streets tweakin' on a back block you may catch the boss mcig let it vape so we liftin' off with a weapon go to steppin' like i'm kevin spacey no prom date women they would love to hate me it's such a pretty thing life is such a bitch went to sleep as friends waking up to this see it my way or see me at the top built an empire bitch off a nickel rock microphone check microphone check we came to party smoke until there's nothing left ed sheeran i met this girl late last year she said don't you worry if i disappear i told her i'm not really looking for another mistake i called an old friend thinking that the trouble would wait but then i jumped right in a week later returned i reckon she was only looking for a lover to burn but i gave her my time for two or three nights then i put it on pause until the moment was right i went away for months until our paths crossed again she told me i was never looking for a friend maybe you could swing by my room around ten baby bring the lemon and a bottle of gin we'll be in between the sheets till the late am baby if you wanted me then should have just said she's singing hook ed sheeran don't fuck with my love that heart is so cold all over my arm i don't wanna know that babe don't fuck with my love i told her she knows take aim and reload i don't wanna know that babe ed sheeran and for a couple weeks i only wanna see her we drink away the days with a takeaway pizza before a text message was the only way to reach her now she's staying at my place and loves the way i treat her singing out aretha all over the track like a feature and never wants to sleep i guess that i don't want to either but me and her we make money the same way four cities two planes the same day and those shows have never been what it's about but maybe we'll go together and just figure it out i'd rather put on a film with you and sit on a couch but we should get on a plane or we'll be missing it now wish i'd have written it down the way that things played out when she was kissing him how i was confused about now she should figure it out while i'm sat here singing hook ed sheeran don't fuck with my love that heart is so cold all over my arm i don't wanna know that babe don't fuck with my love i told her she knows take aim and reload i don't wanna know that babe 4 ed sheeran knock knock knock on my hotel door i don't even know if she knows what for she was crying on my shoulder i already told ya trust and respect is what we do this for i never intended to be next but you didn't need to take him to bed that's all and i never saw him as a threat until you disappeared with him to have sex of course it's not like we were both on tour we were staying on the same fucking hotel floor and i wasn't looking for a promise or commitment but it was never just fun and i thought you were different this is not the way you realised what you wanted it's a bit too much too late if i'm honest and all this time god knows i'm singing hook ed sheeran don't fuck with my love that heart is so cold all over my arm i don't wanna know that babe don't fuck with my love i told her she knows take aim and reload i don't wanna know that babe don't fuck with my love that heart is so cold all over my arm i don't wanna know that babe don't fuck with my love i told her she knows take aim and reload i don't wanna know that babe

## **She**

**by Ed Sheeran**

i paid all my dues and she wanted to know that id never leave her but now im ready to go and strange  
as it seems shes endless to me shes just like paperwork but harder to read patience's my enemy and  
lovings my friend its harder to leave with my heart on my sleeve than to stay and just pretend oh she  
knows me so well oh she knows me like i know myself i made all my plans and as she has made hers  
she kept me in mind but i wasnt sure i searched every room for a way to escape but every time i tried to  
leave she keeps holding on to me for dear life and blocking my way patience's my enemy and lovings  
my friend its harder to leave with my heart on my sleeve than to stay and just pretend oh she knows me  
so well oh she knows me like i know myself and like the back of her hand she already understands  
everything wont you stay she says and she already knows how it goes and where she stands ill stay  
anyway cause she knows me so well oh she knows me like i know myself oh she knows me so well oh

across the sea by the tennessee skyline they told me i'd find my hopes and my dreams but i long to be in the bed of my true love back where i came from she's waiting for me so i'll make my way through long winding country roads but my heart still beats for my home and my english rose i told my dad on the phone it's amazing from the straight to the craziest places i've seen but i long to be in the arms of my true love like he loves my mother he understands me i spend my days just traveling and playing shows but my heart still beats for my home and my english rose i met a man in the bar down in memphis he told me he went there to follow his dreams he told me son you know i lost my true love for the same exact reason that you crossed the sea and i found truth in people i barely know but my heart still beats for my home and my english rose oh my heart still beats for my home and my english rose oh my heart still beats for my home and my english rose

**by Ed Sheeran**

one two three unhappy days that left us on the floor and you squeeze me till you're not feeling sure

you feel too frightened i'll make things disappear dear pre darling don't be nervous i'll understand if you  
let me go i did this on purpose now 'cause when i'm missing you i'll stop eating food and i'll squeeze  
into a dress so i can be like you and then i'll see your bitterness and why you're leaving too maybe i'll  
put you to a test and say that i love you i think that i love you sunny days that left my skin dark red and  
you breathe me till these thoughts leave my head if it gets too complicated i'll give up and be frustrated  
can you see what's wrong if you feel like you've been jaded and this love's too overrated see what's  
going on pre and darling don't be nervous i'll understand if you let me go i did this on purpose now  
'cause when i'm missing you i'll stop eating food and i'll squeeze into a dress so i can be like you and  
then i'll see your bitterness and why you're leaving too maybe i'll put you to a test and say that i love  
you i think that i love you take me back to live at home take me back to albert road 'cause when i'm  
missing you i'll stop eating food and i'll squeeze into your dress so i can feel like you and then i'll see

# Firefly

by Ed Sheeran

i fell in love next to you burning fires in this room it just fits light and smooth like my feet in my shoes  
little one lie with me sew your heart to my sleeve we'll stay quiet underneath shooting stars if it helps  
you sleep prehook and hold me tight don't let me breathe feeling like you won't believe hook there's a  
firefly loose tonight better catch it before it burns this place down and i lie if i don't feel so right but the  
world looks better through your eyes there's a firefly loose tonight better catch it before it burns this  
place down and i lie if i don't feel so right but the world looks better through your eyes teach my skin  
those new tricks warm me up with your lips heart to heart melt me down it's too cold in this town close  
your eyes lean on me face to mouth lips to cheek feeling numb in my feet you're the one to help me get  
to sleep prehook and hold me tight don't let me breathe feeling like you won't believe hook there's a  
firefly loose tonight better catch it before it burns this place down and i lie if i don't feel so right but the  
world looks better through your eyes there's a firefly loose tonight better catch it before it burns this  
place down and i lie if i don't feel so right but the world looks better through your eyes it's only been one  
night of love and maybe that is not enough hold me tight don't let me breathe feeling like you won't  
believe only been one night of love maybe that is not enough hold me tight don't let me breathe feeling  
like you won't believe hook there's a firefly loose tonight better catch it before it burns this place down  
and i lie if i don't feel so right but the world looks better through your eyes there's a firefly loose tonight  
better catch it before it burns this place down and i lie if i don't feel so right but the world looks better

mine what it takes to come alive we found love in a hopeless place we found love in a hopeless place  
we found love in a hopeless place we found love in a hopeless place we found love in a hopeless place  
we found love in a hopeless place we found love in a hopeless place we found love in a hopeless place

## Lately

by Ed Sheeran

ed sheeran i seem to find myself talking to the powers that be awaking the shade and shadowed under  
towering trees admiring the scene inhaling fumes of flowers that breathe jet lagged eyes are begging  
for an hour to sleep although my bloodshot whites and irises they never find any clock stops at times  
where the sun shine can blind many although my eyes are heavy they won't be closing soon cause i  
heard that time waits for nobody i suppose it's true we make corrosive tunes with acid tabs and vocal  
booths to see the flashing lights at photo shoots we make our motive moves i say whatever i feel to  
vent a rhyme so i can still invent the lines and stay close to the friends of mine cause real recognise  
real is what my father says and i'll be sticking to this phrase until i pass away overworking no sleep is  
just another way to die slow but i'll just keep going strong and never let my eyes close devlin 5 o'clock  
with lights off interview with a vampire sleep is for the living and not a utensil that i require i swear i said  
that i'll sleep when i'm dead who's on the beat upon the feature with ed it's dev to the zed over tired pale  
faced like michael myers bags underneath my eyes can show the baggage i've acquired and over the  
time within this maze i think you'll find you'll never find that peace of mind you seek to find until you're  
dying cause i got too much to stay awake for to sleep or even take four seconds out the game it's time  
to wage war scissors grab a sword and sharpen up your hunting knives two psychopathic lyricists are  
driving on the hunt tonight i'm hailing from the essex and the east london border line villans never sleep  
they mastermind in all sorts of crimes be wide awake just like you're snorting lines or get left mortified  
like you just seen the ghost of jesus walking by hook ed sheeran i never sleep when trouble steals  
thoughts from a restless mind for free it could be the times i'm living in i never sleep when trouble steals  
thoughts from a restless mind for free it could be the times i'm living in lately ed sheeran i brush my  
teeth every night but still i wake up with a bad mouth and the background is my past and my presence  
will bring it back out deliver the raps how i flow i live with the rats now and those that hate me call me  
ron but they won't slither in too easy believe me i'm snake minded be within this great time be on  
minimum wage life is a prison escape that i'm in it's all to do with timing not the label that you sign with  
then my mates are doing fine but then they never put the time in i try to hide my cold side like when i flip  
my pillows some of the songs i write are real because the charts are filled with silicone i'm still broke  
without the money for a mac pro living out of three bags no talk about my cash flow opposite of sober  
cause i never did my homework which has got me on the sofa no degree but growing older i played a  
fool to catch the wise i will never tell a lie i wake dead take deep breaths try to never die never die 4  
devlin two guys with the same view keep it tight like scrooge making metaphors flow and move like  
typhoons and tunes and if we got our eyes on you we'll catch you while you snooze times elapsing  
while you're catching zed's the masses like to move we scan the situation analyse information and then  
decide what probably is most practical to do driven young gentlemen i've hardly changed my bed  
sheets at all over the last months cause i haven't slept in 'em true i'm coming home the lights are on  
your rights are wrong so i'm correcting 'em we got the fans all like oh wow it's devs and ed what less did  
you bloody expect from 'em in the end sleep deprivation might just be our detriment fighting through

writers block from 9 o'clock to 5 o'clock and no way will i ever waste a second of the time i got i keep my pupils engaged like a classroom in holy matrimony but i'm only trying to stay awake hook i never sleep when trouble steals thoughts from a restless mind for free it could be the times i'm living in i never sleep when trouble steals thoughts from a restless mind for free it could be the times i'm living in lately i never sleep when trouble steals thoughts from a restless mind for free it could be the times i'm living in i never sleep when trouble steals thoughts from a restless mind for free it could be the times i'm living in lately

## **Wake Me Up (Live at the Bedford)**

**by Ed Sheeran**

on the last few days of la i got taken into this guy's house and he was sponsored by an alcohol company quite a few actually and uh got pretty wasted umm all times and i was sitting underneath a tree with my phone just putting in lyrics bah this is how i feel bah and uh i came up with this song and it is called wake me up because i was really pissed it is quite silly bear that in mind i should ink my skin with your name and take my passport out again and just replace it see i could do without a tan on my left hand where my fourth finger meets my knuckle and i should run you a hot bath fill it up with bubbles cause maybe you're loveable maybe you're my snowflake and your eyes turn from green to gray and in the winter i'll hold you in a cold place and you should never cut your hair cause i love the way you flick it off your shoulder and you will never know just how beautiful you are to me but maybe i'm just in love when you wake me up and would you ever feel guilty if you did the same to me could you make me a cup of tea to open my eyes in the right way and i know you love shrek because we've watched it times and maybe we're hoping for a fairytale too and if your dvd breaks today you should've got a vcr because i've never owned a blue ray true say i know i've always been shit at computer games because your brother always beats me and if i lost i go across and chuck all the controllers at the tv and then you laugh at me and be asking me if i'm gonna be home next week and then you lie with me till i fall asleep and flutter eyelash on my cheek between the sheets and you will never know just how beautiful you are to me but maybe i'm just in love when you wake me up and i think you hate the smell of smoke you always try to get me to stop but you drink as much as me and i get drunk a lot so i take you to the beach and walk along the sand and i'll make you a heart pendant with a pebble held in my hand and i'll carve it like this necklace so the heart falls where your chest is now a piece of me is a piece of the beach and it falls just where it needs to be and rests peacefully so you just need to breathe to feel my heart against yours now against yours now maybe i'm just in love when you wake me up maybe i'm just in love when you wake me up interlude gyptian hold yuh girl me wann fi hold yuh put me arms right around ya girl you give me the tightest love me eva get seen in my life girl me just wann fi squeeze yah put me arms right around ya girl you give me the tightest love me eva get seen in my life oh in my life oh oh in my life oh oh in my life ooh oh maybe i'm just in love when you wake me up maybe i'm just in love when you wake me up maybe i fell in love when you woke me up

shock horror im down lost youre not around theres a lump in my chest that sends cold through my head and my mind shuts sound out im on autopilot and my tongue's gone silent just switch it off and lay it down lay it down next to you and me hook i dont know when i lost my mind maybe when i made you mine woah i dont know when i lost my mind maybe it was every time that you say you say you say that i miss you and i miss you these words mean nothing to me im just sitting on a fence of how it used to be these three words are aching constrict and suffocating my mind is racing with the picture im painting and my bellys sick to its stomach when i remember all the times he was with you when you laid it down when you lay down next to me hook i dont know when i lost my mind maybe when i made you mine woah i dont know when i lost my mind maybe it was every time that you say you say you say that i miss you more than i let on i kissed you far too long ill let go as soon as you do see i know were not through

hook i dont know when i lost my mind maybe when i made you mine woah i dont know when i lost my  
mind maybe it was every time that you say you say you say that i miss you and i miss you i dont know  
when i lost my mind maybe it was every time that you say you say you say that i miss you

## Goodbye to You

**by Ed Sheeran**

ed sheeran hey can you hear me i just wanted to let you know hmm dot rotten i hope you can hear what i write to you how could i say goodbye to you when i'm a life that came out of the inside of a life that was inside of you i gotta respect the way you provided food for the whole fam you came over a moon rush supporting a mar jays old man cold double 8 8 kids bare wheels plus racists full of hatred in your own plant jobs in a day rest in life in you working but you were never stress free just locked in a cage slaving they said they were gold in the pavements but you came and saw the road to amazement broke your heart but still you were prone to last and your sorrow was over fast i hope your listening right i still think of you every sunday no one can top your chicken and rice even through the darkness times you held us all up because your vision was bright i knew your strength was your wisdom inside you never let anyone see your heartache you just got on with it anyone tells me that they knew you said you were beautiful and your words you would stand strong with it cause they were like warmth on a winter night but i was just too young to go on with it and there somethings i could try to do but it's an impossible task for me to even try to say goodbye to you i couldn't do that i owe my life to you hook ed sheeran dot rotten and of the pieces of my soul because i need a sign i hope this pain will heal in time you know i never want to be aloohohone i can see the stars as a cold wind greets the air and will you think of me up there can i say goodbye to you and paint the stains of the teardrops down my face or feel the chill of your warm embrace can i say goodbye to you ohh dot rotten i think you phoney i was younger with the knowledge of things that i know now i would be by your side when you needed me instead of asking you nan can i go out standing in a road with the gangs that i know now everyone's missing you loads jessica's grown up warreen lauren and alex are fine and i'm living with hope it's been a while since i've seen c and the mouths i miss seeing a family being a family and us agreeing with smiles how it used to

be as a child but as time goes by the seems longer family problems have never been funny in my heart the only one that dissed me was sonia she took all our inheritance money left the rest of us to pick up the pieces i never forgive the way she betrayed us there ain't a big enough reason before i sell out my fam i'll be giving up breathing but i guess that everyone's different or should i say no one's perfect she had happiness in front of her but chose to ride the wave that no ones surfing since you gone the foundations crumbled so building it back up is my next step i got all the bricks and the cement but it's hard when it's done i don't know what to expect so give me the strength that i need to perform this task make it right i must do and i ask cause i trust you it goes way beyond a song when i say i love you hook and of the pieces of my soul because i need a sign i hope this pain will heal in time you know i never want to be aloohohone i can see the stars as a cold wind greets the air and will you think of me up there can i say goodbye to you and paint the stains of the teardrops down my face or feel the chill of your warm embrace can i say goodbye to you ohh ed sheeran it's just for now so i should hush i'll never get enough i'll see you when i see you but i miss you oh how i miss you it's just for now so i should hush i'll never get enough i'll see you when i see you but i miss you oh how i miss you 4 dot rotten there ain't enough words to describe how sorry i am for the pain that i caused sorry for when i stuck up my own blood we were young and he said it was raping his broad and for the day police came to the door i'm sorry for being such a bad youth stealing from your purse and making you mourn i never been able to say this before cause i was so inconsiderate you loved me unconditionally and i took advantage of it like a idiot not seeing the pure soul that i was living with i really hope that you can forgive me you going away was a punishment but i won't let go i'm holding you with me but i still fight the emotions within me hook ed sheeran i can see the stars as the cold wind greets the air and will you think of me up there and can i say goodbye to you and paint the stains of the teardrops down your face feel the chill of your warm embrace and can i say goodbye to you i can see the stars as a cold wind greets the air and will you think of me up there can i say goodbye to you and paint the stains of the teardrops down my face or feel the chill of your warm embrace can i say goodbye to you

## **Candle In The Wind**

**by Ed Sheeran**

goodbye norma jean though i never knew you at all you had the grace to hold yourself while those around you crawled they crawled out of the woodwork and they whispered into your brain they set you on the treadmill and they made you change your name and it seems to me you lived your life like a candle in the wind never knowing who to cling to when the rain set in and i would have liked to have known you but i was just a kid your candle burned out long before your legend ever did loneliness was tough the toughest role you ever played hollywood created a superstar and pain was the price you paid even when you died oh the press still hounded you all the papers had to say was that marilyn was found in the nude and it seems to me you lived your life like a candle in the wind never knowing who to cling to when the rain set in and i would have liked to have known you but i was just a kid your candle burned out long before your legend never did goodbye norma jean though i never knew you at all you had the grace to hold yourself while those around you crawled goodbye norma jean from the young man in the nd row who sees you as something as more than sexual more than just our marilyn monroe and it seems to me you lived your life like a candle in the wind never knowing who to cling to when the rain set in and i would have liked to have known you but i was just a kid your candle burned out long

before your legend never did your candle burned out long before your legend never did

i heard there was a secret chord that david played and it pleased the lord but you don't really care for music do you it goes like this the fourth the fifth the minor fall the major lift the baffled king composing

hallelujah hallelujah hallelujah hallelujah hallelujah maybe there's a god above but all i ever learned from love was how to shoot at someone who outdrew you it's not a cry you can hear at night it's not somebody who's seen the light it's a cold and it's a broken hallelujah hallelujah hallelujah hallelujah hallelujah you said i took the name in vain well i never really knew that name but if i did what really is it to you i've seen your flag on the marble arch love is not some victory march it's a cold and it's a broken hallelujah hallelujah hallelujah hallelujah hallelujah your faith was strong but you needed proof you saw her bathing on the roof her beauty and the moonlight overthrew her she tied you to a kitchen chair she broke your throne and she cut your hair and from your lips she drew the hallelujah hallelujah hallelujah hallelujah hallelujah hallelujah hallelujah hallelujah hallelujah hallelujah hallelujah

just me myself and my shadow and i'm parro running out of ammo and it seems like everyone around me's on the same path so it's narrow the less then the better more proof for the last one left so they want to leave me as wet as an umbrella i play fool to catch wise how they ever gonna guess i'm clever how can i be at my best with this pressure i've got a lot to lose so when i watch the news my minds infected with terror no wonder i'm under stress i got my door kicked down by a bunch of feds and when they left it looked like i'd had a rave and invited more than a hundred guests i shoulda bust the back door and jumped the fence it's easier when you look back shoulda woulda coulda but i bet you can't bring should woulda could back back to 5 i said to myself that i'm more than a hoodrat hook ed sheeran ooo you can drag me in the deep ends ooo but you will never drown me out ooo you can drag me in the deep ends ooo but you will never drown me out out out you won't drown me out out out you won't drown me out ghetts you can never drown me out the water supply's too low and i'm round about 6 0 stone i've never seen someone drown without a sufficient amount of liquid in their lungs and i'm an mc my mouth can vouch do i sound like i'm choking seriously do i sound like i'm joking i'm floating even though they want to send me to the bottom of the ocean but i am a ship that sunk many years blud i'm maintaining plain sailing no commotion like a dolphin when it's in motion nothing can't break me so why would i show them i'm broken no real stress no my skin ain't close to corrosion fuck them all this ain't tug of war still they'll get roped in the open i don't want to reveal my violent side but i swear that i will soon if the lord above don't provide a sign then i'mma kill you arm for arm eye for eye i just want to live my life but they don't want to see this guy survive hook x

**by Ed Sheeran**

goodbye norma jeane though i never knew you at all you had the grace to hold yourself while those around you crawled they crawled out of the woodwork and they whispered into your brain they set you on the treadmill and they made you change your name and it seems to me you lived your life like a candle in the wind never knowing who to cling to when the rain set in and i would've liked to have known you but i was just a kid your candle burned out long before your legend ever did loneliness was tough the toughest role you ever played hollywood created a superstar and pain was the price you paid even when you died oh the press still hounded you all the papers had to say was that marilyn was found in the nude and it seems to me you lived your life like a candle in the wind never knowing who to cling to when the rain set in and i would've liked to have known you but i was just a kid your candle burned out long before your legend ever did goodbye norma jeane though i never knew you at all you had the grace to hold yourself while those around you crawled goodbye norma jeane from the young man in the nd row who sees you as something more than sexual more than just our marilyn monroe and it seems to me you lived your life like a candle in the wind never knowing who to cling to when the rain set in and i would've liked to have known you but i was just a kid your candle burned out long before your legend ever did your candle burned out long before your legend ever did

## **Way Home**

**by Ed Sheeran**

hook well i once heard a story about a rundown home where a man and his thoughts lived all alone he tried to live no effort was shown hes slowly finding a way back home verse he had a nice family with smiles and frowns they never could solve his way to be down cos hes one dog who dont want a bone hes slowly finding a way back home he had a nice house with windows and doors he said to his wife whats mine is yours but the seeds of deception are soon to be sown hes slowly finding a way back home his children have left but the rooms are still there his misses the noise and the scents in their hair

but far from the nest the babies have flown hes slowly finding a way back home his wife was an angel sent from above he never returned her kisses or love but soon hed found that shed overgrown this man whos finding a way back home so the leaves are all dead in this broken mans june the rain will still fall on the sunny afternoon he stares at the floor no more to roam hes slowly finding a way back home hook

## **Diary**

**by Ed Sheeran**

your love is the strongest thing i know i reckon it's been doing weights eating raw eggs in its cereal and  
running ten miles a day and your love has a driving ban from trying to steer intoxicated with another  
love inside her hands and your love is a friend of mine so we'll take it care tonight prehook if you could  
only say the words i'd take it and i'd write it down and hold it deep inside of me until the day you found  
me out but i know your love and that's why hook i could be your diary baby if you open me up keep it  
inside me i'll give you the world just give me the words and i could be your diary baby if you open me up  
keep it inside me i'll give you the world just give me the words and your love has never been my enemy  
used to hold me and promise it would never leave never been better since all the therapy to read the  
words between the lines and take away my melody and your love told me it was turning to a different  
page and you know if i let you go i'll still keep you safe prehook hook you are the one i fall asleep with  
but never wake up to cause work is something you must do i trust you like you trust me it must mean  
true love it does exactly what it says on the tin let me begin you are the one i watch the movies with for  
recognizing my love for Kiera Knightley for what it truly is just an excuse so i don't have to watch love  
actually again but you're actually the same it's just to spite me and we eat icecream with fishes in it until  
the dishes finished playing computer games although i know i'll never win it i tried to make tea once for  
you in bed but all i did was spill it so you made it for me instead let me in bed if you get in ahead of me  
it's better to do yeah love is ahead of the truth but in love we are better in two i'll be the newcomer stuck  
in heaven with the devil in you hook

covers where we used to lay and re stacks is what the speakers played i'd be on tour almost every day when i was home up in my flat is where we used to stay just watching the dvd smoking illegal weed getting high as two kites when we needed to breathe we used each other's air just for the people to see and stayed up all night like when we needed to sleep we'd go anywhere our minds would take us and i said you are beautiful without your makeup and you don't even need to worry about your weight cause we can all be loved the way that god made us and time's the only reason that we could break up cause you would always tell me i'm away too much distance is relative to the time that it takes to get on a plane or make a mistake say it again oh nina you should go nina 'cause i ain't never coming home nina oh won't you leave me now and i've been living on the road nina but then again you should know nina cause that's you and me both nina oh won't you leave me now now and every weekend in the winter you'd be wearing my hoodie with draw strings pulled tight to keep your face from the cold taking day trips to the local where we'd eat on our own cause every day when i was away we'd only speak on the phone watching blue planet creating new habits then as if we were two rabbits and then you'd vanish back to the burrow with all the celtics i disappear you call me selfish i understand but i can't help it i put my job over everything except my family and friends but you'll be in between forever so i guess we'll have to take a step back overlook the situation cause mixing business and feelings will only lead to complications and i'm not saying we should be taking a break just reevaluating quick before we make a mistake and it's too late so we can either deal with the pain or wait to get on the plane but in a day we'll have to say it again oh nina you should go nina 'cause i ain't never coming home nina oh won't you leave me now and i've been living on the road nina but then again you should know nina cause that's you and me both nina uh won't you leave me now now love will come and love will go but you can make it on your own sing that song go oh won't you leave me now people grow and fall apart but you can mend your broken heart take it back go oh won't you leave me now oh nina you should go nina 'cause i ain't never coming home nina oh won't you leave me now and i've been living on the road nina and then again you should know nina cause that's you and me both in a road won't you leave me now now

## **Take It Back (SBTV extended version)**

**by Ed Sheeran**

i'm not a rapper i'm a singer with a flow i've got a habit for spitting quicker lyrics you know you'll find me ripping the written out of the pages they sit in i never want to get bitten 'cause plagiarism is hidden watch how i sit on the rhythm prisoner with a vision signs of a label but didn't listen to any criticism thought you knew but you didn't so perk your ears up and listen studio is a system and you could say that i'm driven and now it's onto the next saga we drink the best lager i'll never try to win you over like your stepfather i do my own thing now and get respect after and i'm avoiding the 'caine like it was get carter for four years i never had a place to stay but it's safe to say that it kept me grounded like a paper weight at 6 years old yeah i moved out of my home i was macy gray i tried to say goodbye and i choked went from sleeping at a subway station to sleeping with a movie star and adding to the population not my imagination i don't wanna relax would it hurt your reputation if i put it on wax i take it back now mmmm come on and take it back love come on and take it back for us don't you fade into the back love no i take it back with the rhythm and blues with my rap pack i'll be singing the news tryna act like jack black when i bring it to school i make a beat with my feet by just hittin' the loop bringing the lyrics to prove that i can fit in these shoes i give you the truth through the vocal booth and stars burst out on the scene like an opal fruit they try to take aim like beckham when he goes to shoot but then again that's what they're supposed to do and i'm supposed to be calm i tattooed the lyrics onto my arm whispering

everything that happens is from now on i'll be ready to start again by the end of the song this is like claiming i handled it wrong but then i've never had an enemy except the nme but i'll be selling twice as many copies as their magazines'll ever be with only spectacles ahead of me and festival fees are healthier than a dalmatian on pedigree singing for the masses rubber dingied rapids i keep this rapping a habit and keep on fashioning magic i'm battling for respect and i don't know if i have it this song's from the heart cover the planet i take it back now mmmm come on and take it back love come on and take it back for us don't you fade into the back love no and take it back now now i don't ever wanna be perfect 'cause i'm a singer that you never wanna see shirtless and i accept the fact that someone's got to win worst dressed taking my first steps into the scene giving me focus putting on a brave face like timothy dalton considering a name change thinking it was hopeless rhyming over recordings avoiding tradition 'cause every day some lyrics and a melody could be written now absence can make your heart ache but drinking absinthe can change your mind state vividly need to let my liver be and i'll say it again living life on the edge with a close handful of friends is good advice from the man that took his life on the road with me and i hope to see him blowing up globally 'cause that's how it's supposed to be i'm screaming out vocally it might seem totally impossible achieving life's dreams but but i just write schemes i'm never having a stylist giving me tight jeans madison square garden is where i might be but more likely you find me in the back room of a dive bar with my mates having a pint with mcdaid discussing records we made and every single second knowing that we'll never betray the way we were raised remembering our background sat down that's how we plan it out it's time to take it back now mmmm come on and take it back love come on and take it back for us don't you fade into the back love no mmm come on and take it back love come on and take it back for us don't you fade into the back love no my dreams keep me awake at night written in rhymes 'til i deliver the hype am i just living the lie with this you must know that the number's just sold whoa will keep me going through the tough times dream with me we forget 90 per cent of it when we wake but the other 0 per cent it never fades dreaming dreams day to day goals stay awake loads try to make the cut like the paper or razor blade oh never give up and just remember just to hold out more a couple years ago i couldn't just control that thought you'd find me buskin' on the street when it was cold outdoors and now i'm sweating on the stage of a sold out tour writing love songs for the sake of it never to make a hit you can't fake talent and work ethic just to make it quick i'm not a rapper i'm a singer i just take the piss and most of these other guys are kids that pulses little sister has to babysit that's just the way it is dreams you own just set your goals and have the utmost faith in it tread your own path you'll never make it as a follower you'll never know where you will go or where you will be tomorrow rha

## **Insomniac's Lullaby**

**by Ed Sheeran**

im getting very edgy cos youre trying to take this from me and its something that i wanted so bad cos youre the definition of someone who has to ruin the best thing that i ever had cos youre a jealous girl and all i can say is its your fault but partially mine for losing hope for not treating you right but that will disappear in time pre all i gotta do is pass you by never say whats wrong whenever i say why standing in the corner shadowed by the light to you i seem much smaller but i know it might be you how much better could i do to be myself not someone else im losing sleep i live only for the week ive grown to ignore you cos when i seem to bore you you pretend that youre not interested your eyes start to twinkle your smile starts to widen and i just seem to try and forget but you pay me no attention even though i do but i dont care as long as youre mine its happening every time pre and im falling harder now it seems my slipups haunt me in my dreams and i cant sleep although i think i can its insomnia i think i have but who cares when im not your man

# Take It Back / Superstition / Ain't No Sunshine

by Ed Sheeran

i'm not a rapper i'm a singer with a flow i've got a habit for spitting quicker lyrics you know you'll find me ripping the written out of the pages they sit in i never want to get bitten cause plagiarism is hidden watch how i sit on the rhythm prisoner with a vision signs of a label but didn't listen to any criticism thought you knew but you didn't so perk your ears up and listen studio is a system and you could say that i'm driven and now it's onto the next saga we drink the best lager i'll never try to win you over like your stepfather i do my own thing now and get respect after and i'm avoiding the 'caine like it was get carter for four years i never had a place to stay but it's safe to say that it kept me grounded like a paper weight at 6 years old yeah i moved out of my home i was macy gray i tried to say goodbye and i choked went from sleeping at a subway station to sleeping with a movie star and adding to the population not my imagination i don't wanna relax would it hurt your reputation if i put it on wax i take it back now mmmm come on and take it back love come on and take it back for us don't you fade into the back love no i take it back with the rhythm and blues with my rap pack i'll be singing the news tryin' act like jack black when i bring it to school i make a beat with my feet by just hittin' the loop bringing the lyrics to prove that i can fit in these shoes i give you the truth through the vocal booth and stars burst out on the scene like an opal fruit they try to take aim like beckham when he goes to shoot but then again that's what they're supposed to do and i'm supposed to be calm i tattooed the lyrics onto my arm whispering everything that happens is from now on i'll be ready to start again by the end of the song since they are claiming i handled it wrong but then i've never had an enemy except the nme but i'll be selling twice as many copies as their magazine will ever be with only spectacles ahead of me and festival fees are healthier than a dalmatian on pedigree singing for the masses rubber dingied rapids i keep this rapping a habit and keep on fashioning magic i'm battling for respect and i don't know if i have it this song's from the heart cover the planet i take it back now mmmm come on and take it back love come on and take it back for us don't you fade into the back love no and take it back now now i don't ever wanna be perfect cause i'm a singer that you never wanna see shirtless and i accept the fact that someone's got to win worst dressed taken my first steps into the scene giving me focus putting on a brave face like timothy dalton considering a name change thinking it was hopeless rhyming over recordings avoiding tradition 'cause every days some lyrics and a melody can be written now absence can make your heart ache but drinking absinth can change your mind state vividly need to let my liver be and i'll say it again living life on the edge with a close handful of friends is good advice from the man that took his life on the road with me and i hope to see him blowing up globally 'cause that how it's supposed to be i'm screaming out vocally it might seem totally impossible achieving life's dreams but but i just write schemes i'm never having a stylist giving me tight jeans madison square garden is where i might be but more likely you find me in the back room of a dive bar with my mates having a pint of mcdaid discussing records we made and every single second knowing that we'll never betray the way we were raised remembering our background sat down that's how we plan it out it's time to take it back now mmmm come on and take it back love come on and take it back for us don't you fade into the back love no mmm come on and take it back love come on and take it back for us don't you fade into the back love no very superstitious writings on the wall very superstitious ladders bout' to fall thirteen month old baby broke the lookin' glass seven years of bad luck the good things in your past believing things that you don't understand then you suffer superstition ain't the way superstition ain't the way superstition ain't the way superstition

ain't the way superstition ain't the way my dreams keep me awake at night written in rhymes 'til i deliver  
the hype am i just living the lie with this you must know that the number's just sold whoa will keep me  
going through the tough times dream with me we forget 90 per cent of it when we wake but the other 0  
per cent it never fades dreaming dreams day to day goals stay awake loads try to make the cut like the  
paper or razor blade oh never give up and just remember just to hold out more a couple years ago i  
couldn't just control that thought you'd find me buskin' on the street when it was cold outdoors and now  
i'm sweating on the stage of a sold out tour writing love songs for the sake of it never to make a hit you  
can't fake talent and work ethic just to make it quick i'm not a rapper i'm a singer i just take the piss and  
most of these other guys are kids that pulses little sister has to babysit that's just the way it is dreams  
you own just set your goals and have the utmost faith in it tread your own path you'll never make it as a  
follower you'll never know where you will go or where you will be tomorrow rha superstition ain't the way  
superstition ain't the way superstition ain't the way superstition ain't the way superstition ain't the way  
superstition babe superstition babe superstition babe superstition babe superstition babe superstition  
babe superstition babe superstition babe cause ain't no sunshine when she's gone it's not warm when  
she's away cause ain't no sunshine when she's gone she's always gone too long anytime she goes  
away i wonder this time where she's gone wonder if she's gone to stay cause ain't no sunshine when  
she's gone she's always gone too long anytime she goes away and i know i know i know i know i know i

## **Small Bump - Live From Wembley Stadium**

**by Ed Sheeran**

spoken now wembley i've not played this song in a around two years maybe maybe longer but i feel like  
playing it today let's see how it goes you're just a small bump unborn in four months you're brought to  
life you might be left with my hair but you'll have your mother's eyes i'll hold your body in my hands be  
as gentle as i can but for now you're a scan of my unmade plans a small bump in four months you're  
brought to life prehook and i'll hold you tightly i'll give you nothing but truth if you're not inside me i'll put  
my future in you hook 'cause you are my one and only and you can wrap your fingers round my thumb  
and hold me tight you are my one and only you can wrap your fingers round my thumb and hold me  
tight and you'll be alright oh you're just a small bump unknown you'll grow into your skin with a smile like  
hers and a dimple beneath your chin finger nails the size of a half grain of rice eyelids closed to be soon  
opened wide a small bump in four months you'll open your eyes prehook i'll whisper quietly i'll give you  
nothing but truth if you're not inside me i'll put my future in you hook 'cause you are my one and only  
and you can wrap your fingers round my thumb and hold me tight you are my one and only you can  
wrap your fingers round my thumb and hold me tight and you'll be alright you can lie with me with your  
tiny feet when you're half asleep i'll leave you be right in front of me for a couple weeks so i can keep  
you safe hook 'cause you are my one and only and you can wrap your fingers round my thumb and  
hold me tight you are my one and only you can wrap your fingers round my thumb and hold me tight  
and you'll be alright you were just a small bump unborn four months then torn from life maybe you were  
needed up there but we're still unaware as why

# Lately - devlin

by Ed Sheeran

i seem to find myself talking to the powers that be awaking the shade and shadowed under towering trees admiring the seen inhaling fumes of flowers that breathe jet lagged eyes are begging for an hour to sleep although my blood shot whites and iris's they never find any clock stops at times where the sun shine can blind many although my eyes are heavy they won't be closing soon cos i know that time waits for nobody i suppose its true we make corrosive tunes with acid tabs and vocal booths to see the flashing lights at photo shoots we make our motive moves i say what ever i feel to vent a rhyme so i can still invent the lines and stay close to the friends of mine cos we all recognise real is what my father says and i'll be sticking to this phrase until i pass away overworking no sleep is just another way to die slow but i'll just keep going strong as ever never let my eyes close devlin 5 o'clock with lights off interview with a vampire sleep is for the living and not a utensil that i require i swear i said that i'll sleep when im dead whos on the beat upon the feature with ed its dev to the z over tired pale faced like michael myers bags underneath my eyes can show the baggage i've acquired and over the time within this maze i'll think you'll find you'll never find that peace of mind you seek to find until your dying cuz i got too much to stay awake for to sleep or even take 4 seconds out the game its time to wage war scissors grab a sword and sharpen up your hunting knives psychopathic lyricists are driving on the hunt tonight i'm haling from the essex and the east london boarder line villans never sleep they mastermind in all sorts of crimes be wide awake just like your snorting lines or get left mortified like you just seen the ghost of jesus walking by i never sleep when trouble steals thoughts from a restless mind for free it could be ahhh the times i'm living in i never sleep when trouble steals thoughts from a restless mind for free it could be the times i'm living in lately i brush my teeth every night but still i wake up with a bad mouth and the background is my past and my presence will bring it back out deliver the raps how i flow i live with the raps now and those that hate me call me wrong but they won't slither in too easy believe me im snake minded be within this great time be on minimum wage life is a prison escape that im in its all to do with timing not the label that you sign with then my mates are doing fine but then they never put the time in i try to hide my cold side like when i flip my pillows some of the the songs i write are real because the chart is filled with silicone im still broke without the money for a mac pro living out of three bags no talk about my cash flow opposite of sober cos i never did my homework which has got me on the sofa no degree but growing older i played a fool to catch the wise i will never tell a lie i wake dead take deep breaths try to never die never die devlin guys with the same view keep it tight like scrooge making metaphors flow and move like typhoons and tunes and if we got our eyes on you we'll catch you while you snooze times elapsing while your catching z's the masses like to move we scan the situation analyse information and then decide what probably is most practical to do driven young gentlemen i've hardly changed my bed sheets at all over the last months cos i haven't slept in them true im coming home the lights are on your rights are wrong so im correcting 'em we got the fans all like 'oh wow its its devs and ed' what less did you bloody expect from 'em in the end sleep deprivation might just be our detriment fighting through writers block from 9 o'clock to 5 o'clock and no way will i ever waste a second of the time i got i keep my pupils engaged like a classroom in holy matrimony but im only trying to stay awake i never sleep when trouble steals thoughts from a restless mind for free it could be ahhh the times i'm living in i never sleep when trouble steals thoughts from a restless mind for free it could be x4 the times i'm living in lately

## **I See Fire - Live and in Session**

**by Ed Sheeran**

oh misty eye of the mountain below keep careful watch of my brothers' souls and should the sky be filled with fire and smoke keep watching over durin's sons if this is to end in fire then we should all burn together watch the flames climb high into the night calling out father oh stand by and we will watch the flames burn auburn on the mountain side and if we should die tonight we should all die together raise a glass of wine for the last time calling out father oh prepare as we will watch the flames burn auburn on the mountain side desolation comes upon the sky now i see fire inside the mountain i see fire burning the trees and i see fire hollowing souls i see fire blood in the breeze and i hope that you remember me oh should my people fall then surely i'll do the same confined in mountain halls we got too close to the

flame calling out father oh hold fast and we will watch the flames burn auburn on the mountain side  
desolation comes upon the sky now i see fire inside the mountain i see fire burning the trees and i see  
fire hollowing souls i see fire blood in the breeze and i hope that you remember me and if the night is  
burning i will cover my eyes for if the dark returns then my brothers will die and as the sky's falling down  
it crashed into this lonely town and with that shadow upon the ground i hear my people screaming out  
now i see fire inside the mountain i see fire burning the trees i see fire hollowing souls i see fire blood in  
the breeze i see fire oh you know i saw a city burning out i see fire feel the heat upon my skin i see fire  
and i see fire burn auburn on the mountainside

## **Undone**

**by Ed Sheeran**

made of clay shoot me down i'll ricochet to the ground words of paint draw me out and fill me in with  
your mouth and hold your tongue and i know it's over before it's begun i lost my way so help me out and  
lend your hand 'til i am found my voice is mute not to be heard so it's up to you for you to bring those  
words hook i and i have come undone for the last time this grief you give it takes its toll it dries my heart  
and drowns my soul i am a tree whose branch you broke the brittle wood has turned stones oh hook x i  
and i have come undone for the last time for the last time for the last time

## These dreams

**by Ed Sheeran**

i keep my hopes and dreams inside you amongst these other things my mother seems to never see the bruises that i'm covering never been known as my government name my foster home is where i've been placed away from the pain and now you sit before me with a folder holding my story you're my saviour with nothing on me but hope and glory and surely you'll never ignore me 'cos when the court came the court date was made to disappear for me you think you understand me but never what i went through but you were never meant to i won't hold it against you i take a ball point pen to play dot to dot with the cigarette burns etched in my forearms forget me not never let me stop you'll just sit and watch it's your job to be patient so you'll let me off so come with me take a walk on the wild side and see life in a day through a child's eyes hook and these dreams are all i have to hold me when sleep's the only thing i want to take me away away okay session's over time to get back to the classroom i hate this lesson and i guess the teacher finds it hard too you told me i should try my best but guess what i still find this trigonometry a head fuck constantly told i won't pass my gcse's i'll end up in mac d's serving burgers and cheese but you told me i can do anything if i put my mind to it mistakes make a change if you put a line through 'em lately classmates think i'm crazy turn up daily resembling bill bailey and i ain't saying that i can't be groomed with it without new clothes or shower it's hard to do so after school you'll take me shopping for some new clothes but they'll get taken off me when i get back to the group home so come with me take a walk on the wild side and see life in a day through a child's eyes hook

## Could Just Be The Bassline

**by Ed Sheeran**

verse standing at the bar and your eyes are telling me come closer but if you could see me dance  
there's no way that you would let me hold ya i feel you pulling on my hand more and dragging me to the  
dance floor all my inhibitions fall away feel the rhythm of the track and telling the dj pull it back with a  
whisper in my ear i hear you say refrain softly do you feel that you could love me and want me more  
than anybody else but then again it could just be the baseline that made me close my eyes opened up  
my mind could you come back with me tonight it's not the first time that we've been on our own so i'll  
hold you close and never let you go verse you can keep me on the dance floor but i don't wanna waste  
your time feel the rhythm of your hips more it makes me wanna taste your wine its getting hard to keep  
in time when i'm looking in your eyes everyone but you just fades away feeling the rhythm of the track  
and telling the dj pull it back with a whisper in my ear i hear you say refrain softly do you feel that you  
could love me and want me more than anybody else but then again it could just be the bassline that  
made me close my eyes opened up my mind could you come back with me tonight it's not the first time  
that we've been on our own so i'll hold you close and never let you go verse how could i take you home  
tonight i should be hailing a cab but i don't wanna leave just yet cos i know

## **The city - raps**

**by Ed Sheeran**

look its funny how the city where the queen sleeps still aint got clean streets but there aint a day when she aint got clean sheets homeless people roam with needles and youve got to pay tax to afford a vehicle tube fare doubles up every two years and the buses upstairs are a no go area man are like pass me your mobile here me now and with the crunch of the credit you cant get a roof over your head youre stuck in the debit but every single month they come for the debit direct action if you dont play they dive and snatch things and it dont say that now equipped fear cause a victim of inflation the black letters turned red and they been patient and now six years rent has just been wasted im from a city where the rain wont cease pollution in the air matches that on the street the black smoke gets your head into a muddle like walking into elephant syringes in the puddle like i was a country boy when i moved out grew up too fast for my family to find out now i try to stop my music running into nosedives cant resort to arrogance with white lies this city wont erase me but i cant help to see how this dark city changed me its all the same see music is my life but now i try to fight whatever i need to hide from north south east west londons my home now knees weak but we never slow down now i start to do my music properly and stay from all the negative shit that will follow me hey look i'm from a city full of jammed up traffic night buses allnight clubbers kings cross to allnight lovers that knew when to pay rent and stay in their apartment talented buskers playing that riff the church pastor's still praying for answers way too much congestion they're charging way too much for petrol i'm laughing but there ain't no funny side it's like winter all year there ain't no summer time stone island jacket keep warm and all phone lines are tapped you've been warned and also mind the gap and keep calm cause one wrong move on the train big beard and it's gunshots two in your brain it's weird so as much as i'm in love with this city just maybe i've had enough of the city

i'm in so deep omar eds can relate to my situation its so real pain ain't the emotion i wanna feel but i'm thriving off it so it's only right i like this topic i'll be on a hill keeping my head above water i can't afford to ever get caught in a corner so i move with the force of a sorcerer it's dark when i'm about just me myself and my shadow im paro running out of ammo and it seems everybody around me is on the same path so it's narrow then less than a more proof for the last one left so they don't leave me as wet as an umbrella i play fool to catch wise how we ever gonna get so clever how can i be at my best with this pressure i got a lot to loose but when i watch the news my mind's infected with terror no wonder i'm under stress i got my door kicked off by a bunch of feds and when they left it looked like i had rave and invited more than a hundred guests ohohh i should of bust the back door and jump the fence it seems the way you look back should of would of could of but i bet you can't bring shit with a good back back to fifteen our face to myself then i'm more than a hood track ooo you can drag me in the deep ends ooo but you won't ever drown me out ooo you can drag me in the deep ends ooo but you won't ever drown me out out out you won't drown me out out out youuuuuu won't drown me out you can't ever drown me out the water supplies too low and i'm around 6' 0 stone i never seen someone drown with insufficient amount of liquid in my lungs a violent mc my mouth can vouch do i sound like i'm choking seriously do i sound like i'm joking i'm floating even though that they wanna send me to the bottom of the ocean but i am a ship that's so many years but i'm maintaining plain sailing no commotion like a dolphin when it's in motion but i can't break me so why would i show them i'm broken no real shit throw my skin ain't close to corrosion fuck em all this ain't no tug a war still don't get roped in the open i don't wanna reveal my violent side but i swear that i will soon if the lord above don't provide a sign then i'ma kill you arm for arm eye for eye nah i just wanna live my life but you don't wanna see this guy survive ooo you can drag me in the deep ends ooo but you won't ever drown me out ooo you can drag me in the deep ends ooo but you won't ever drown me out out out you won't drown me out you won't drown me out ooo you can drag me in the deep ends ooo but you won't ever drown me out ooo you can drag me in the deep ends ooo but you won't ever drown me out out out you won't drown me out you won't drown me out

know but something to drink and maybe something to smoke let it go until i roll with the chain singing  
we found love in a local rave no i don't really know what i'm supposed to say but i can just figure it out  
and hope and pray i told her my name and said it's nice to meet ya then she handed me a bottle of  
water filled with tequila i already know it she's a keeper just from this once small act of kindness i'm in  
deep if anybody finds out i am meant to drive home but i took all of it now i'm not sobering up we just sit

## Photograph Me before you Greek translation

by Ed Sheeran

loving can hurt η αγάπη μπορεί να σε πληγώσει loving can hurt sometimes η αγάπη μπορεί να σε  
πληγώνει κποιες φορές but it's the only thing that i know αλλά η αγάπη είναι το μόνο πράγμα που  
γνωρίζω when it gets hard όταν η αγάπη είναι δύσκολη you know it can get hard sometimes εσύ  
γνωρίζεις ότι μπορεί να είναι δύσκολη κποιες φορές it is the only thing that makes us feel alive  
είναι το μόνο συναίσθημα που σε κάνει να αισθάνεσαι ζωντανός we keep this love in a  
photograph εμες βλέπουμε την αγάπη σαν φωτογράφια we made these memories for ourselves  
εμες κρατάμε τις αναμνήσεις για τον εαυτό μας where our eyes are never closing όταν τα μάτια  
μας ποτέ δεν κλείνουν hearts are never broken όταν η καρδιά πτέ δεν λυγίζει times forever frozen  
still στιγμές αωνίαις σαν πηγος σταθερές so you can keep me για αυτό μπορείς να με κρατήσεις  
inside the pocket αναμύσα στο πορτοφόλι of your ripped jeans μέσα στο σκιμνο σου τζιν holdin'  
me closer κρατήσε με κλειστά 'til our eyes meet ακομή και όταν τα μάτια συναντιούνται you won't  
ever be alone ποτέ δεν θα είσαι μόνος σου wait for me to come home περιμένε με να γυρίσω πίσω  
loving can heal η αγάπη μπορεί να επουλώνει την πληγή loving can mend your soul η αγάπη μπορεί  
να γιατρεύει την ψυχή σου and it's the only thing that i know know και είναι το μόνο συναίσθημα  
που γνωρίζω i swear it will get easier σου ορκίζομαι ότι αυτό θα ήταν πιο ευκολό remember that with  
every piece of ya θυμίσου ότι μαζί έχουμε αυτό το κομμάτι από την αγάπη ναί and it's the only thing  
we take with us when we die και είναι το μόνο συναίσθημα που εμες έχουμε όταν πεθαίνουμε

**by Ed Sheeran**

i'm gonna pick up the pieces and build a lego house when things go wrong we can knock it down my  
three words have two meanings there's one thing on my mind it's all for you and it's dark in a cold  
december but i've got ya to keep me warm if you're broken i will mend ya and i'll keep you sheltered  
from the storm that's raging on now i'm out of touch i'm out of love i'll pick you up when you're getting  
down and out of all these things i've done i think i love you better now i'm out of sight i'm out of mind i'll  
do it all for you in time and out of all these things i've done i think i love you better now i'm gonna paint  
you by numbers and colour you in if things go right we can frame it and put you on a wall and it's so  
hard to say it but i've been here before and i'll surrender up my heart and swap it for yours i'm out of  
touch i'm out of love i'll pick you up when you're getting down and out of all these things i've done i think  
i love you better now i'm out of sight i'm out of mind i'll do it all for you in time and out of all these things  
i've done i think i love you better now don't hold me down i think my braces are breaking and it's more

## **Afterglow (Acoustic)**

**by Ed Sheeran**

one two stop the clocks it's amazing you should see the way the light dances off your hair a million colours of hazel golden and red saturday morning is fading the sun's reflected by the coffee in your hand my eyes are caught in your gaze all over again pre we were lovedrunk waiting on a miracle tryna find ourselves in the winter snow so alone in love like the world had disappeared oh i won't be silent and i won't let go i will hold on tighter 'til the afterglow and we'll burn so bright 'til the darkness softly clears oh i will hold on to the afterglow oh i will hold on to the afterglow the weather outside's changing the leaves are buried under six inches of white the radio is playing iron wine this is a new dimension this is a level where we're losin' track of time i'm holdin' nothin' against it except you and i pre we were

lovedrunk waiting on a miracle tryna find ourselves in the winter snow so alone in love like the world  
had disappeared oh i won't be silent and i won't let go i will hold on tighter 'til the afterglow and we'll  
burn so bright 'til the darkness softly clears oh i will hold on to the afterglow oh i will hold on to the  
afterglow oh i will hold on to the afterglow

## **Guiding light - cover**

**by Ed Sheeran**

well the road is wide waters run on either side and my shadow in the fading light is stretching out  
towards the night when the sun is low and i have so much more to go and my lonely heart is beating so  
tired of the wonder there's a sign ahead though i think it's the same one again so i'm thinking 'bout my  
only friend till i find my way home cause when i need to get home you're my guiding light you're my  
guiding light when i need to get home you're my guiding light you're my guiding light oh well the air is  
cold and yonder lies my sleeping soul by the branches broke like bones this weeping tree no longer  
holds oh well the night is still and i have not yet lost my will oh and i will keep on moving 'till until i find  
my way home when i need to get home you're my guiding light you're my guiding light when i need to  
get home you're my guiding light you're my guiding light when i need to get home you're my guiding  
light you're my guiding light when i need to get home you're my guiding light you're my guiding light  
when i need to get home you're my guiding light you're my guiding light when i need to get home you're  
my guiding light you're my guiding light

happier you do preverse ain't nobody hurt you like i hurt you but ain't nobody love you like i do promise  
that i will not take it personal baby if you're moving on with someone new sat in the corner of the room  
everything's reminding me of you nursing an empty bottle and telling myself you're happier aren't you  
pre oh ain't nobody hurt you like i hurt you but ain't nobody need you like i do i know that there's others  
that deserve you but my darling i am still in love with you but i guess you look happier you do my friends

## **Love Yourself**

**by Justin Bieber**

produced by benny blanco for all the times that you rained on my parade and all the clubs you get in using my name you think you broke my heart oh girl for goodness sake you think i'm cryin' on my own well i ain't refrain and i didn't wanna write a song 'cause i didn't want anyone thinking i still care i don't

but you still hit my phone up and baby i'll be movin' on and i think you should be somethin' i don't wanna hold back maybe you should know that pre my mama don't like you and she likes everyone and i never like to admit that i was wrong and i've been so caught up in my job didn't see what's going on but now i know i'm better sleeping on my own 'cause if you like the way you look that much oh baby you should go and love yourself and if you think that i'm still holdin' on to somethin' you should go and love yourself but when you told me that you hated my friends the only problem was with you and not them and every time you told me my opinion was wrong and tried to make me forget where i came from refrain and i didn't wanna write a song 'cause i didn't want anyone thinking i still care i don't but you still hit my phone up and baby i'll be movin' on and i think you should be somethin' i don't wanna hold back maybe you should know that pre my mama don't like you and she likes everyone and i never like to admit that i was wrong and i've been so caught up in my job didn't see what's going on but now i know i'm better sleeping on my own 'cause if you like the way you look that much oh baby you should go and love yourself and if you think that i'm still holdin' on to somethin' you should go and love yourself for all the times that you made me feel small i fell in love now i feel nothin' at all i never felt so low and i was vulnerable was i a fool to let you break down my walls 'cause if you like the way you look that much oh baby you should go and love yourself and if you think that i'm still holdin' on to somethin' you should go and love yourself 'cause if you like the way you look that much oh baby you should go and love yourself and if you think that i'm still holdin' on to somethin' you should go and love yourself

## **Life Is Worth Living**

**by Justin Bieber**

ended up on a crossroad tried to figure out which way to go it's like you're stuck on a treadmill running in the same place you got your hazard lights on now hoping that somebody would slow down praying for a miracle ooh show your grace had a couple dollars and a quarter tank of gas with a long journey ahead seen a truck pull over god sent an angel to help you out he gave you direction showed you how to read a map for the long journey ahead said it ain't over oh even in the midst of doubt life is worth living life is worth living so live another day the meaning of forgiveness people make mistakes doesn't mean you have to give in life is worth living again relationship on a ski slope avalanche comin' down slow do we have enough time to salvage this love feels like a blizzard in april cause my heart it's just that cold skating on thin ice but it's strong enough to hold us up seen her scream and holler put us both on blast tearing each other down when i thought it was over god sent in an angel to help us out he gave

us direction showed us how to make it last for that long journey ahead said it ain't ever over oh even in the midst of doubt life is worth living life is worth living so live another day the meaning of forgiveness people make mistakes doesn't mean you have to give in life is worth living again life is worth living again what i get from my reflection is a difference in perception from what the world may see they tried to crucify me i ain't perfect won't deny my reputation's on the line so i'm working on a better me life is worth living life is worth living so live another day the meaning of forgiveness people make mistakes only god can judge me life is worth living again another day life is worth living again

## **All In It**

**by Justin Bieber**

don't do nothin' 'less your heart's in it heart's in it heart's in it don't do nothin' 'less you're all in it all in it all in it if you got a twenty for all of your tries twenty for all of the times the times you got back up woah could be a billionaire in a year that's how you gotta think 'til you're there on the regular pre if you had a diamond for all of your passion diamond for your dedication you could be icy like caking icy for every occasion gotta go hard yeah that's all i'm condoning love is a component you're the only opponent gotta seize the moment and don't do nothin' 'less your heart's in it heart's in it heart's in it don't do nothin' 'less you're all in it all in it all in it come again each time 'til the water runs dry oh don't do nothin' 'less you're all in it all in it all in it posthook oh oh oh oh oh oh oh if i had a missing 5 strings a with only one string i could only play one song ooh a simple melody simple enough to make the world sing strong enough to make your mood swing you know what i mean pre if you had a diamond for all of your passion diamond for your dedication you could be icy like caking icy for every occasion gotta go hard yeah that's all i'm condoning love is a component you're the only opponent gotta seize the moment and don't do nothin' 'less your heart's in it heart's in it heart's in it don't do nothin' 'less you're all in it all in it all in it come

again each time 'til the water runs dry don't do nothin' 'less you're all in it all in it all in it posthook oh oh oh oh oh oh all in it all in it vamp see growing up i i always felt like i had to be the best at everything cause i i just didn't think i was good enough and and maybe if i was good at something that i'd get recognition from that but i quickly found out that i wasn't gonna get the recognition that i wanted or that i needed because because people aren't perfect and by not being perfect you sometimes can disappoint people and with god it's like he's perfect and he never disappoints so i just get my recognition from him and give him recognition

## **Someday At Christmas**

**by Justin Bieber**

someday at christmas men won't be boys playing with bombs like kids play with toys one warm  
december our hearts will see a world where men are free someday at christmas there'll be no wars  
when we have learned what christmas is for when we have found what life's really worth there'll be  
peace on earth someday all our dreams will come to be someday in a world where men are free maybe  
not in time for you and me but someday at christmas time someday at christmas we'll see a man no  
hungry children and no empty hand one happy morning people will share our world where people care  
someday at christmas there'll be no tears all men are equal and no men have fears one shining  
moment my heart ran away from our world today someday all our dreams will come to be someday in a  
world where men are free maybe not in time for you and me but someday at christmas time someday at  
christmas man will not fail take hope because your love will prevail someday a new world that we can  
start with hope in every heart someday all our dreams will come to be someday in a world where men  
are free maybe not in time for you and me but someday at christmas time someday at christmas time

## **Down to Earth (Acoustic)**

**by Justin Bieber**

i never thought that it'd be easy cause we both so distant now and the walls are closing in on us and we're wondering how no one has a solid answer but just walking in the dark and you can see the look on my face it just tears me apart pre so we fight through the hurt and we cry and cry and cry and cry then we live and we learn and we try and try and try and try so it's up to you and it's up to me that we meet in the middle on our way back down to earth down to earth down to earth on our way back down to earth ooh woah ooh and mama you were always somewhere and daddy i live out of town so tell how could i ever be normal somehow you tell me this is for the best so tell me why am i in tears woah so far away and now i just need you here pre so we'll fight through the hurt and we'll cry and cry and cry and cry then we live and we learn and we try and try and try and try so it's up to you and it's up to me that

we meet in the middle on our way back down to earth down to earth down to earth on our way back down to earth ooh woah ooh we fell so far away from where we used to be and now we're standing and where do we go when there's no road to get to your heart let's start over again so it's up to you and it's up to me that we meet in the middle on our way back down to earth down to earth down to earth on our way back down to earth i never thought that it'd be easy cause we both so distant now and the walls are closing in on us and we're wondering how

## **Love Yourself (Drewsome Remix)**

**by Justin Bieber**

justin bieber for all the times that you rained on my parade and all the clubs you get in using my name you think you broke my heart oh girl for goodness sake you think i'm crying on my own well i ain't pre and i didn't wanna write a song cause i didn't want anyone thinking i still care i don't but you still hit my phone up and baby i'll be movin' on and i think it should be somethin' that i don't wanna hold back maybe you should know that my mama don't like you and she likes everyone and i never like to admit that i was wrong and i've been so caught up in my job didn't see what's going on and now i know i'm better sleeping on my own cause if you like the way you look that much oh baby you should go and love

yourself and if you think that i'm still holdin' on to somethin' you should go and love yourself  
now lemme start off by saying this i never let another woman do what you did and i held myself back  
from ever talking shit cause i swore to always be the bigger man and never diss but what you've been  
doing has got me really pissed so you better stop telling people that we fucking kissed cause we didn't  
and you know that's some middle school shit all we were was just friends good friends that it so for all  
the times that you told lies about me or when you said i was cheating on sky with emily or even when  
you lied to about my sexuality i don't have time to care and i couldn't if i tried so girl if your gonna talk  
shit get your facts straight and it's a fact that we never went on one date so if you think i'm still holding  
on get some help cause baby you should go and fuck yourself justin bieber cause if you like the way  
you look that much oh baby you should go and love yourself and if you think that i'm still holdin' on to  
somethin' you should go and love yourself for all the times you made me feel small i fell in love now i  
feel nothin' at all i never felt so low when i was vulnerable was i a fool to let you break down my walls  
cause if you like the way you look that much oh baby you should go and love yourself and if you think  
that i'm still holdin' on to somethin' you should go and love yourself cause if you like the way you look  
that much oh baby you should go and love yourself and if you think that i'm still holdin' on to somethin'  
you should go and love yourself

## **I'm Sorry For My Racist Joke**

**by Justin Bieber**

as a young man i didn't understand the power of certain words and how they can hurt i thought it was ok to repeat hurtful words and jokes but didn't realize at the time that it wasn't funny and that in fact my actions were continuing the ignorance thanks to friends and family i learned from my mistakes and grew up and apologized for those wrongs now that these mistakes from the past have become public i need to apologize again to all those i have offended i'm very sorry i take my friendships with people of all cultures very seriously and i apologize for offending or hurting anyone with my childish and inexcusable mistake i was a kid then and i am a man now who knows my responsibility to the world and to not make that mistake again ignorance has no place in our society and i hope the sharing of my faults can prevent others from making the same mistake in the future i thought long and hard about what i wanted to say but telling the truth is always what's right five years ago i made a reckless and immature mistake and i'm grateful to those close to me who helped me learn those lessons as a young man once again i'm sorry

## **Set A Place At Your Table**

**by Justin Bieber**

things seemed strange this morning as i packed my bag for school the smiles i'm used to seeing just  
weren't there i heard my father talking to my mother down the hallway above the whispers all that i  
could hear was set a place at the table for someone who might need it set a place at the table for  
someone to sit down and eat kick their shoes off put their feet up forget about their troubles for awhile  
when there's a place at your table there's a little hope for you and i i was feeling kind of helpless about  
the words that i just heard could it be the family doors down they said a couple months of bad luck had  
them up against the wall and though it may seem small i know there's something i can do set a place at  
the table for someone who might need it set a place at the table for someone to sit down and eat kick  
their shoes off put their feet up forget about their troubles for awhile when there's a place at your table  
there's a little hope for you and i make room at your table for your friends and family take the time to  
share your day just laugh talk and eat set a place at the table for someone who might need it set a  
place at your table for someone to sit down and eat kick their shoes off put their feet up forget about  
their troubles for awhile when there's a place at your table there's a little hope for you and i there's a  
little hope for you and

**by Justin Bieber**

produced by benny blanco for all the times that you rained on my parade and all the clubs you get in  
using my name you think you broke my heart oh girl for goodness sake you think i'm cryin' on my own  
well i ain't refrain and i didn't wanna write a song 'cause i didn't want anyone thinking i still care i don't  
but you still hit my phone up and baby i'll be movin' on and i think you should be somethin' i don't wanna  
hold back maybe you should know that pre my mama don't like you and she likes everyone and i never  
like to admit that i was wrong and i've been so caught up in my job didn't see what's going on but now i  
know i'm better sleeping on my own 'cause if you like the way you look that much oh baby you should  
go and love yourself and if you think that i'm still holdin' on to somethin' you should go and love yourself  
but when you told me that you hated my friends the only problem was with you and not them and every  
time you told me my opinion was wrong and tried to make me forget where i came from refrain and i  
didn't wanna write a song 'cause i didn't want anyone thinking i still care i don't but you still hit my phone  
up and baby i'll be movin' on and i think you should be somethin' i don't wanna hold back maybe you  
should know that pre my mama don't like you and she likes everyone and i never like to admit that i was

sleeping on my own 'cause if you like the way you look that much oh baby you should go and love  
yourself and if you think that i'm still holdin' on to somethin' you should go and love yourself for all the  
times that you made me feel small i fell in love now i feel nothin' at all i never felt so low and i was  
vulnerable was i a fool to let you break down my walls 'cause if you like the way you look that much oh  
baby you should go and love yourself and if you think that i'm still holdin' on to somethin' you should go  
and love yourself 'cause if you like the way you look that much oh baby you should go and love yourself  
and if you think that i'm still holdin' on to somethin' you should go and love yourself

## **Life Is Worth Living (Acoustic)**

**by Justin Bieber**

ended up on a crossroad tried to figure out which way to go it's like you're stuck on a treadmill running  
in the same place you got your hazard lights on now hoping that somebody would slow down praying  
for a miracle ooh show your grace had a couple dollars and a quarter tank of gas with a long journey  
ahead seen a truck pull over god sent an angel to help you out he gave you direction showed you how  
to read a map for the long journey ahead said it ain't over oh even in the midst of doubt life is worth

living life is worth living so live another day the meaning of forgiveness people make mistakes doesn't mean you have to give in life is worth living again relationship on a ski slope avalanche comin' down slow do we have enough time to salvage this love feels like a blizzard in april cause my heart it's just that cold skating on thin ice but it's strong enough to hold us up seen her scream and holler put us both on blast tearing each other down when i thought it was over god sent in an angel to help us out he gave us direction showed us how to make it last for that long journey ahead said it ain't ever over oh even in the midst of doubt life is worth living life is worth living so live another day the meaning of forgiveness people make mistakes doesn't mean you have to give in life is worth living again ohhh ohhh ohhh life is worth living again
